U. S. FORMALLY ACCEPTS CARRANZA'S PROPOSAL

Note Handed to Mexican Delegate
—Plans for Call to U. S. Regular Army Reserves

WASHINGTON, July 7.—A note formally accepting Gen. Carranza's proposal that differences between the United States and the de facto government of Mexico be settled by direct negotiations, was handed today to Eliseo Arredondo, the Mexican ambassador designate.

Secretary Lansing took a draft of the note to today's cabinet meeting and had it delivered promptly after the cabinet adjourned. The course to be pursued already had been agreed upon by President Wilson and his advisers.

The text of the note, addressed to Mr. Arredondo, follows:
"Sir: I have the honor to acknowledge the receipt of your communication of July 4, 1916, in which you transcribe a note addressed to me by the secretary of foreign relations by your government and to request that you will transmit to him the following reply:

"Mr. Secretary: I have the honor to acknowledge the receipt of your courteous note transmitted to me by Senator Arredondo on the fourth instant in which you refer to my notes of June 20 and June 25, and to assure you of the sincere gratification of my government at the frank statement of the difficulties which have unfortunately arisen in our relations along the international boundary, and the unserved expression of the desire of your government to reach an adjustment of these difficulties on a broad and equitable basis. The same spirit of friendship and of solidarity for the continuance of cordial relations between our two countries inspires my government, which equally desires an immediate solution of the matters of difference which have long vexed both governments.

"It is especially pleasing to my government that the de facto government of Mexico is disposed to give quick as well as practical consideration in a spirit of concord to the remedies which may be applied to the existing conditions. Reciprocating the same desire, the government of the United States is prepared immediately to exchange views as to a practical plan to remove finally and prevent a recurrence of the difficulties which have been the source of the controversy."

"Accept, Mr. Secretary, the renewed assurances of my highest consideration.

"I am, sir, yours very sincerely,
"Robert Lansing."

BODY OF CAPT. BOYD TO BE SENT TO WASHINGTON
EL PASO, Tex., July 7.—The body of Capt. Charles T. Boyd, killed at Carrizal, will be sent to Washington. Continued to Page 6

BRITISH LAUNCH NEW DRIVE EAST OF ALBERT

Great Battle Raging Along the Entire Front of British Offensive in Northern France — British and French Successes—Germans Begin to Move Their Whole Front Toward East After Triple Defeat in Russia—German Warships Seize a British Ship Near English Coast

A German retreat all along the line of the front in Russia from Riga to Vothyna is reported today. The unofficial news to this effect comes from Petrograd through Rome. It declares that a triple defeat for the Germans in the Riga, Kolki and Baranovitch sectors caused them to begin a movement of their whole front westward.

Russians Capture 7500
Petrograd has recently announced successes in regions mentioned in the Rome despatch. The last report from the vicinity of Kolki, in the crucial Volhynia sector, recorded the capture by the Russians of more than 7500 prisoners, half a dozen cannon and 23 machine guns.

A great battle is raging along virtually the entire front of the British offensive in northern France.

New British Drive
At daybreak the British launched a new drive east of Albert. Important tactical successes were gained in several sectors, London announces.

The Germans simultaneously attacked in force near the river Ancre and north of Fricourt. They succeeded in temporarily occupying two or three hundred yards of ground lost in the earlier British drives.

Successes Of British
The chief advantages gained by the British were in the vicinity of Ovillers, Contalmaison and La Boisselle. Near the last named place in an engagement last night a German trench more than a half mile in length was captured.

French Hold Ground
Meanwhile the French, both north and south of the Somme in the field of the great allied offensive, are resting on the ground won in their notable advances of the past week. Efforts by the Germans to break the line now held by the French before Peronne, at one point within two and

a half miles of that city, have been futile, according to Paris.
Lull At Verdun
There is a comparative lull in the fighting about Verdun so far as the infantry is concerned, but artillery actions on the right bank of the Meuse, north of the citadel, are still violent in character.

SECOND PHASE OF GREAT BATTLE ON WESTERN FRONT HAS BEGUN
LONDON, July 7.—The second phase of the great battle on the western front has now begun. The artillery has been brought up to new positions and again is battering the German defenses. The bombardment extends as far north as La Bassée and Arras, and, according to the latest unofficial advices is particularly intense. British long range guns are

SUPPOSED MAD DOG BIT THREE CHILDREN

Great Excitement on First Street
This Forenoon—Bull Dog Ran Amuck Among Children

There was a mad dog scare and a whole lot of excitement in First street this forenoon when three children were bitten by a bulldog that put in an abrupt and ferocious appearance at No. 41. The dog is now under observation at the police station. He wore a collar without a name. He is light brown in color. Dr. W. A. Sherman, inspector of animals for the city of Lowell, is of the opinion that the dog was affected by the heat and became excited. The dog did not act as if he had the rabies and was very docile after the rumpus in First street.

The first child bitten by the dog was four-year-old Philip Desmarais, son of Mr. and Mrs. John E. Desmarais of 52 First street. He was playing in the yard when the dog sprang at him. He was bitten slightly about the head.

The other two children attacked by the dog were Sophie Dudek, 5 daughter of Mr. and Mrs. John Dudek of 48 First street, and Stasia Grunde, 5 daughter of Mr. and Mrs. William Grunde of 12 First street. The little Grunde girl was bitten in four places, the lower right leg, hand, back and hip. The Grunde child was bitten on the left hand and left hip. All of the children were treated at St. John's hospital where their wounds were cauterized.

The Dudek and Grunde children were playing on a doorstep in First street when the dog, after biting the Desmarais boy, made for them. The dog seemed very ferocious and there is no telling how many more he would have bitten, for there were several children in the vicinity, but for Mrs. Mary Korzoh, who knocked the dog out with a club, and when he came to he was securely tied under a sink in a house owned by Mr. Hill.

The mad dog alarm had spread, and three police officers, Daniel Donovan, Frank Frechette and Thomas Maloney, were on deck in a little while as were also Dr. W. A. Sherman and Fred C. Gilmore of the Lowell Humane society. The dog seemed very docile and friendly while in the house and displayed no symptoms of the rabies. It was decided, however, to take him to the police station for further observation. Dr. Charles E. Simpson of the state board of health was at St. John's hospital while the children were being treated.

If it develops that the dog has the rabies the children will be given the Pasteur treatment, providing the parents are desirous of having their children so treated. The treatment will be given by Dr. Charles E. Simpson of the state board of health, the United States government supplying the virus.

TO FIGHT PINE BLISTER

Senator Lodge Introduces Bill for \$20,000 to Fight Pest in New England

Special to The Sun
WASHINGTON, D. C., July 7.—Senator Lodge yesterday reintroduced the Gallinger bill, calling for \$20,000 to fight the white pine blister pest, which is doing great damage in New England. The appropriation lapsed by limitation at the end of the fiscal year July 1, and the purpose of the present bill is to make such funds available. The senate agreed to the bill. RICHARDS.

EPIDEMIC IS SPREADING

57 NEW CASES OF INFANTILE PARALYSIS IN NEW YORK—22 DIED IN 24 HOURS
NEW YORK, July 7.—With city, state and federal authorities fighting the disease, the epidemic of infantile paralysis showed little signs of abatement today. During the 24 hours ending at 10 o'clock this morning, twenty-two more children died. Nineteen of this number succumbed in Brooklyn. There were 57 new cases reported.

DEATH CAR PROBE

Inquiry by Grand Jury Into Death of Miss Ward of Peabody

BOSTON, July 7.—Inquiry by the Suffolk county grand jury into the death of Margaret Ward of Peabody, whose body was found in an automobile in Salem Wednesday morning after having been taken from this city, began today. District Attorney Pelletier presented to the jurors the first of a score or more of witnesses summoned by him to assist in determining whether the criminal operation, which officials assert caused the woman's death, was committed here; whether Miss Ward died in this city or during the ride to Salem and the identity of those responsible for her condition and death.

It was understood that several, if not all, of the ten persons under bonds here and in Salem on criminal charges in connection with the case would be called before the grand jury. Police Officers James A. Dennessy of the local headquarters department, and Sergt. William J. Flynn of the Roxbury district, in which is located the house from which Miss Ward was removed, were the first witnesses heard today.

INFANTILE PARALYSIS HERE

Case Discovered on Fenwick Street Today Causes Alarm—Property is Sold for Taxes—City Hall News

A case of infantile paralysis, the disease so dangerously epidemic in New York city, Brooklyn and elsewhere, was reported by Dr. Marshall L. Alling at the office of the board of health this morning. The victim of the dread disease is Arkoudoula Maroacou, aged 1 year, and the place 51 Fenwick street. The child has been ill eight days and it was stated today that two doctors had examined the child before Dr. Alling was called in and that they failed to diagnose it as infantile paralysis.

Nothing would be thought of a case of the disease at this time except for the fact that it is doing such deadly work in other places, for several cases are reported in this city every year and health authorities have been heard to say that all of the cases are not reported to the board of health. The last case reported in Lowell was in May of the present year and several cases were reported last year.

So small are the germs of infantile paralysis that they are not visible under the most powerful microscope and that is why certain health authorities believe a great many cases are not reported. That the germ exists, however, has been proven by inoculations of matter taken from victims of the disease, but the doctors who know very much about the disease are few and very far between.

Sold For Taxes
The sale of parcels of real estate for the taxes of 1914 was continued in the office of the city treasurer this forenoon but after two lots had been sold the sale was postponed until tomorrow morning at 10 o'clock. The lots sold today were as follows: Ward 3—Geo. W. Hall, Jr., 11,496 square feet of land, more or less, on north side of River road, sold to William J. Lambert for \$716. The other parcel was the property of the heirs of George T. Woodward, 5085 square feet of land, more or less, on west side of Tolman road, sold to A. B. Liachames for \$579.

Dog Warrants Issued
On Monday next the city clerk will hand over 500 dog licenses to the police and the police will do the rest. These 500 licenses will represent 500 unlicensed dogs. Some of the 500 may have been despatched to the happy hunting grounds, but it will be up to the police to find out all about it, and to summons into court the owners of dogs living and unlicensed. Inasmuch as there has been more or less talk of rabies within the last few days it is more than ever important that the police should do their duty in this matter. The dog that bit the children in First street this morning, the story of which appears elsewhere, wore a nameless collar and that is as bad as no collar at all.

Snow in Montana
Mayor O'Donnell received a postal card today from Bartholomew Scannell, Jr., who is in Montana on his honeymoon and Lowell's many newweds will have to go some to beat Bart's trip. The card was mailed July 2 and Mr. and Mrs. Scannell had ridden 15 miles on horseback to see a glacier. Mr. Scannell stated in his postal to the mayor that there are several feet of snow there and the roads and passes are still closed. He said he indulged in a pitched battle with snowballs and that was going some on July 2. The glacier is 8000 feet above the sea level.

Band Concerts Sunday
Mayor O'Donnell announced today that

TWO MORE LOSE LICENSES

STATE HIGHWAY COMMISSION PENALIZES TWO LOWELL OPERATORS FINED IN COURT

Special to The Sun
STATE HOUSE, Boston, July 7.—Further evidence of the determination of the Massachusetts highway commissioners to bring about a reform among Lowell automobile operators was given yesterday, when the commissioners revoked the licenses of Gasper Lanzotti and Alexander M. Crulshank, both of whom were convicted June 23 of offenses against the automobile law.

Crulshank paid a fine of \$20 in the Lowell court after being convicted of going away without stopping after causing injury to property in the operation of an automobile, and Lanzotti paid a fine of \$25 in the Chelsea court after being convicted of operating an automobile in such manner that the lives and safety of the public might be endangered.

As both of the offenses were committed prior to the taking effect of the new automobile law, which became operative July first, the commission may return the licenses at the end of 60 days, if in its discretion such action seems wise.

CHALIFOUX'S ON THE SQUARE

THE PRETTY MAID

"Where are you going, my pretty maid?"
"Down to Chalifoux's, Sir," she said.
"Why are you going, my pretty maid?"
"To buy me a hat and suit," she said.
"Where did you get all your money, pray?"
"Oh, you don't need much money, I'm glad to say."
"If you shop at Chalifoux's on the Square,
"You get a lot for a little there."
"And may I go with you, my pretty maid?"
"You may, and you'll be glad you did."
"When you see all the bargains offered there."
So they both went to Chalifoux's on the Square.

SIX CENT FARES

Bay State Road Debt a
Mystery—Seven Year
Hunt Without Result

BOSTON, July 7.—Diogenes searching for an honest man had nothing on the Bay State Street Railway company searching for the reason for a large floating debt contracted by the company, according to testimony by President P. F. Sullivan of the Bay State company at the six-cent Bay State fare hearing before the public service commission yesterday.

Mr. Sullivan was telling of periods in the company's history when it was in good financial condition. He cited the years 1903 and 1906 as especially remunerative ones; the period following the financial panic in 1907; characterized as "fair" the years 1911 and 1912 and then spoke of the debt.

He said it was in the latter part of 1912. The company, according to his testimony, was permitted to issue coupon notes for the purpose of taking care of a floating debt. Arthur G. Wadleigh, counsel for the remonstrants, desired to know what the debt was for.

"We have spent seven years trying to find out," replied Mr. Sullivan, "and we have not been able to."

The president of the road then added that he had never known, and that as far as he knew no one connected with the company ever had, either.

Mr. Wadleigh next asked Mr. Sullivan the same question he had previously asked Philip L. Saltonstall, the banker who engineered the consolidation which resulted in the Bay State, as to whether or not, if unwise purchases of trolley roads were made, it was "up to" the public or the stockholders to bear the burden.

"I think the stockholders have borne their share of the burden already," Mr. Sullivan answered.

Mr. Sullivan testified that it was his belief that the 7 per cent. asked for in the fare-increase petition was a reasonable request, and one which, even though the public had to pay more, would materially benefit the public in the end.

Before the conclusion of the day's hearing the subjects of workingmen's tickets, movies and parks again entered into the inquiry. All three were held by Mr. Sullivan to be losing propositions as far as street railways were concerned.

HUTCHINS FOR GOVERNOR

DEMOCRATIC SITUATION IN NEW HAMPSHIRE TAKES NEW TURN WHEN JAMESON DECLINES

CONCORD, N. H., July 7.—Chairman George E. Farrand of the democratic state committee announced yesterday that John B. Jameson of Antrim will not be a gubernatorial candidate this year.

Mr. Jameson is in Joplin, Mo., where he has mining interests, and he writes that his business will require his closest attention for the next year. He had been urged for months by many democrats to come out for the governorship. His father, the late Nathan C. Jameson, was the party standard bearer 19 years ago.

Coincident with the announcement of Mr. Jameson's decision came a statement from John C. Hutchins of North Stratford, a former state senator, saying that he will be a candidate for the nomination for governor.

The time for filing declarations for the primary opened this morning and Secretary of State Bean received Senator Hutchins' declaration in the first mail.

Hutchins is a prominent supporter of Senator Hollis. He ran for the governorship nomination two years ago and was defeated by Albert W. Noone of Peterborough by two votes. Noone is expected to be a candidate for renomination.

BOTH LEGS BITTEN OFF

SPRING LAKE, N. J. HOTEL BELLE-BOY ATTACKED BY SHARK WHILE BATHING

SPRING LAKE, N. J., July 7.—Attacked by a shark while swimming in the surf here yesterday afternoon Charles Bruder, a bell-boy in a local hotel, had both legs bitten off and died within 10 minutes after life guards brought him ashore.

The fatality happened during the afternoon bathing hour and was witnessed by hundreds of guests at the big beach front hotels, occurring directly in front of the New Monmouth, the largest house here.

Because of the low tide, Bruder was about 100 feet beyond the outer life line. The guards, George White and Chris Anderson, were watching him because of the distance he was from the beach, when he suddenly yelled for help. At the same minute, a woman on the beach confused by the bloody water shouted that "the man in the red canoe has upset."

The guards in the meantime had started launching their boat and just as they reached Bruder's side he said: "A shark bit me," and became unconscious.

White and Anderson brought the man ashore but he died within 10 minutes.

It was found that the left leg had been cut off clean above the knee and the right leg just below the knee and that the shark had bitten Bruder in the side before taking his legs off, as there were teeth marks below the left arm.

No one was found on the beach who saw the shark.

A few persons noticed Bruder struggling in the water before he called for help, but knowing he was a strong swimmer, thought that he was enjoying himself and paid little attention until he called.

The man was 28 years old and so far as is known here has no relatives other than a brother living in Lucerne, Switzerland.

BOSTON, July 7.—With the announcement yesterday that the recruit at Framingham were to be moved to the Mexican border Monday, existing received an impetus throughout the state.

At every armory more applications for service were received than for any day in the last week. Officers were busy throughout the afternoon and evening examining the men volunteering for service.

STANDARD OIL CO. OF N.Y.

wanted more ambulance service. Monday the order was verified and signed by Gov. McCall. Today the company will be ready for inspection. Monday it will be sent south, among the first of the units to be moved.

"All we now need is some sort of conveyance," said Captain Dudley yesterday afternoon. "If some patriotically inclined person will give us some sort of a light motor truck we shall be in a position to do rapid service. We are just trusting that good fortune may send along such a vehicle."

Today the applicants of yesterday will be rounded into shape. Their names will be listed, equipment selected and they will be hurried to Framingham, where they will be put through two days of strenuous drill in preparation for the entertainment Monday.

LT. ADAIR'S FATHER DEAD

PASSED AWAY WITHOUT KNOWING HIS SON HAD MET DEATH AT CARTRIZAL

PORTLAND, Ore., July 7.—Without knowing his son had met death on the Cartrizal battlefield, Samuel Adair, father of Lieutenant Henry Rodney Adair, died yesterday after a lingering illness. His last words were for his son.

"Henry is now a captain," he said. "Henry has received his promotion."

Lieutenant Adair was to have been made a captain July 1.

Morris Adair, another son, telegraphed to El Paso yesterday, asking that his brother's body be brought here. Father and son probably will be buried at the same time.

Freckle-Face

Sun and Wind Bring Out Ugly Spots—How to Remove Easily

Here's a chance, Miss Freckle-face to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trivial.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

IN MILADY'S BOUDOIR

MASSAGING ELBOWS AND ARMS

The following directions for hand and arm massage are an exploitation of the exact process given in the most up-to-date beauty shops in Paris. The first need is cold cream. This formula is unexcelled: Spermaceti, two ounces; white wax, two ounces; sweet almond oil, ten ounces. Melt in a porcelain vessel which has been placed in a hot water bath. When the ingredients are thoroughly incorporated remove from the fire, adding: stronger rose water, three ounces; powdered borax, 10 grains. Fluff to a foam with an egg beater, pouring into small jars just before the mixture is solid.

Bathe the arms and hands in warm

water and with pure white unscented soap, drying thoroughly and frictioning with a Turkish towel. Anoint with the cream, massaging briskly and firmly into the skin. Stroke up and down the arms and then with the fingers braced to the arm go round and round from wrist to elbow. Massage the elbow itself with a circular movement of the finger tips.

Beginning with the thumb, treat each digit separately, taking great care to rub the cream well into every joint and knuckle. Smooth upward and downward also round and round. Give particular attention to the cuticle about the fingernails. Finish up by rubbing the palms of the hands together.

This massage treatment should be continued for from 10 to 15 minutes. It is no trick at all, and the special important purpose is to force the skin to accept as much as possible of the emollient.

At the finish of the frictioning the flesh should be pink and glowing, and the arms warm. The heavier and firmer the treatment the more effective the results will be. When the cream is pretty well absorbed sprinkle the hands and arms with powdered almond meal. Pat it on the flesh, so that all the surfaces is covered.

Never remove the emollient with soap and water, else your good work will be lost. Remove the meal and cream with absorbent cotton which has been dipped in warm water to which has been added a teaspoonful of tincture of benzoin. Dry the hands and arms with a bit of old, soft linen, sprinkle with talcum powder and give a final dry massage for a few minutes. A touch of violet finger in the

palms of the hands and your treatment is complete.

FIGS CONTRABAND OF WAR
ATHENS, July—A large number of Greek exporters and agriculturists have been hard hit by the decision of the British naval authorities in the Mediterranean that dried figs are to be regarded as contraband of war. After raisins, tobacco, olive oil, wine and silver-bearing lead, figs have been one of the principal articles of export from Greece.

If Too Fat Get More Fresh Air

BE MODERATE IN YOUR DIET AND REDUCE YOUR WEIGHT. TAKE OIL OF KOREIN.

Lack of fresh air it is said weakens the oxygen carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Fat put on by indoor life is said healthy and if nature is not assisted in throwing it off a serious case of obesity may result. When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat. Spend as much time as you possibly can in the open air; breathe deeply, take a lot of fresh air. If you are a druggist take a box of oil of korein capsules; take one after each meal and one before retiring at night. Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion and even a few days' treatment has been reported to show a noticeable reduction in weight.

A QUARTER CENTURY AGO

The remarkable epidemic of infantile paralysis in New York has aroused civic authorities all over the country to discuss the matter of the protection of the child against this disease, and the local board of health was one of the first to give the matter its consideration. Thus far this season there has been no dangerously hot weather and few reports of diseases of children outside of an outbreak of measles. Locally, interest thus far has centered upon finding sites for playgrounds, and having them properly supervised, with a view to keeping children off the streets, and out of danger from accidents during their vacation period, and providing wholesome recreation for them at the same time.

Quarter of a century ago, it would appear from the columns of the old Sun, the danger to children during this season of the year came from cholera infantum, of which there appeared to be an epidemic in the city. Editorials appeared in The Sun, together with communications from local physicians, on the subject of the care of children during the hot weather. At St. John's hospital, the late Dr. Robert E. Bell opened a free children's clinic which was held each Tuesday morning at 9 o'clock, the object being to give special instruction to those living in the crowded districts of the city, whose means did not permit them to freely consult medical advice and suggestions in regard to the food and care of children during the warm weather.

At the same time, according to the old Sun, Clara Beckwith, the noted female swimmer of quarter of a century ago was showing lung and advising audiences at Lakeview how best to keep cool in warm weather.

Hard Luck, Willie

Says The Sun of quarter of a century ago:

"Willie Harrington got caught in a cable attached to the engine of flying horses and was badly bruised. Dr. Jackson attended him."

It would appear that Willie started to follow the horses at a tender age and with his usual hard luck.

Congregational Singing

The Sun of quarter of a century ago on the occasion of the first Friday of the month had a lengthy article upon the success of congregational singing, in connection with the evening services on the first Friday at the Immaculate Conception and Sacred Heart churches. It seems that the congregational singing was introduced in this city by the Oblate fathers quarter of a century ago. At first, according to the old Sun, the congregations were timid about singing, but at the time of the article referred to, the new form of service had become very popular in both churches and The Sun stated that while the first Friday, that year, fell on the "night before the Fourth," nevertheless, both churches were crowded with young and old at the services.

Admitted to High School

Says the old Sun:

"The successful young people who recently took examinations for admission to the high school, and were reported favorably by the committee were: Mary Grotty, Mary J. Smith, Bernice P. Jewett, Annie T. McLaughlin, Mary D. Boulger, Joseph D. Evans, George F. Lynch, James Gookin, Mary Cowling, Francis Quinn. The entire seven scholars from the Immaculate Conception school passed successfully."

Central Labor Union

The semi-annual election of officers of the old Central Labor union, quarter of a century ago was as follows: President, John J. Coyne; vice-president, Alexander Ray; recording secretary, Edward Greenhalge; treasurer, Ambrose Madden; financial secretary, William Rafferty; corresponding secretary, Bernard Roche; trustees, Thomas E. Connolly, James Kendall, William Buckley. Thomas F. Connolly was elected to represent the textile union on the World's Fair commission. To give some of our latter day promoters of sporting events in Lowell an idea of what they used to do quarter of a century ago, it might be interesting to state that quarter of a century ago the Central Labor union had the Fair grounds engaged a year in advance for a Labor day celebration. In those days the Caledonian club of this city conducted athletic events that drew athletes of note from far and near. The Caledonian club wanted to run an athletic meeting on

Labor day, but it had no suitable grounds, and accordingly offered the Central Labor union 15 per cent. of the gate for the use of the Fair grounds on that day, and guaranteed to give away \$1000 in prizes. The Central Labor union accepted the offer and both made money.

Is With Us Yet

Says The Sun of quarter of a century ago, under the head of "Heard on the Streets":

"There's a nice quiet little game of politics going on just now and it is said that another manufacturer would like to have a seat on the water board to take Agent Thomas' place."

Manufacturers may come and manufacturers may go, and likewise water boards; but Robert Thomas still doing business in the same old place.

Woolen Weavers Organize

As the result of the passage of the law abolishing fines for defective weaving, quarter of a century ago, the Middlesex Woolen mills, then a prosperous corporation, posted notices polishing all previously existing contracts with their help and notifying them that henceforth, the wages of their weavers would depend upon the value of the services, that value to be decided by the overseers and that those who did not assent to this arrangement might look elsewhere for employment.

As a result of that notice, the woolen weavers of the city, upon invitation of the Central Labor union, met and organized the Woolen Weavers' union which is in existence today. The preliminary meeting, which was well attended, was addressed by Alex Ray, then of the bricklayers' union, and others.

Set A Good Example

Says the old Sun:

"Through the kindness of Miss Sarah Cahill, the milliner, about 35 orphans of St. Peter's orphanage enjoyed an outing at Lakeview, Thursday. They were accompanied by two of the sisters from the orphanage, Miss Cahill and a corps of young ladies including Miss Minnie Davey, Maggie Smith, Josephine Riordan, May Thornton and Miss Donnelly did their utmost to make the day an enjoyable one for the orphans. The return trip was made about five o'clock. The many courtesies extended by Manager Sullivan, Supt. Crowley and Manager Gough of the pavilion added much to the enjoyment of the occasion and was highly appreciated."

There are orphans at the same institution today who will be just as appreciative if any kind souls will invite them out to an outing.

Frightened By Dan Lane

Says the old Sun:

"Through fright or excitement caused by the presence of Officer Lane, a woman jumped into the Concord river yesterday and was rescued by Patrick Moran, who is employed by D. Moody Prescott."

Then just as you are trying to figure out what Dan must have looked like quarter of a century ago, the old Sun explains that the woman had just witnessed the drowning of a boy, and had become rather hysterical and when the officer suddenly appeared on the scene, she jumped. Officer Lane was always a mild-looking and mild-mannered patrolman.

THE OLD TIMER.

AMUSEMENT NOTES

B. F. KEITH'S THEATRE

William B. Hart stands out as the dramatic ideal of the moving picture, and no other man appearing on the screen at the present time gets as much applause for his acts as does he. Yesterday, in "Hell's Hinges," a five act Triangle Kay-Bee play, he appeared at the B. F. Keith theatre, and twice today and tomorrow the picture will be repeated. He reads a wonderful jaw, a shrewd mouth and a pair of eyes that concentrate. He also handles a horse pistol, and can turn a good fight. "Hell's Hinges" is the time Gill Anderson was the cowboy par excellence, but Hart has him beaten 10 ways for Sunday. Hart has the advantage of being a natural actor, as well as much of a cow-puncher and a crack shot. Love scenes are not his forte, but he fits into schemes of ruggedness that makes love after a prize fight.

In "Hell's Hinges" we run up against, not only action, but character. The picture is the work of a jawed clergyman, made a man of the cloth to suit his mother and not because he wanted to be, and who was sent to the penitentiary for teaching women to be good. And he went to a maudlin place called "Hell's Hinges." It was some fiery, sin-ridden place, and the clergyman, who didn't have a ghost of a chance at making good. He had a sister, Faith, who should have been the paragon of the family, but to her name, her faith was the abiding sort, and right off the bat she won "Blaze Tracy," the outlaw of the town, to a Christian life. "Blaze" never had been converted by the clergyman, but the minute he looked into the face of a good woman, something he hadn't seen for a long time, he felt there was something in life far better than whiskey-kuzzling and faro.

So, while the pale-minded clergyman was letting temptation get the better of him, day by day, the former outlaw was taking on considerable stature through his change of heart. The saloon-keeper's sister laid a trap for the clergyman, through the aid of the prettiest girl of the dance hall pack; and got him drunk. Then the hoodlums of the place burned the church. "Blaze" Tracy, however, didn't have his faith shaken, even if the face of God seemed turned away altogether. He simply got stronger in his beliefs, and decided that there was just one way to convert Hell's Hinges, and that was to burn it down, to every last dwelling. So, he applied the torch on his own account, and the dance hall and the gambling dens and the saloon went up in flames in short order. The little band of Christians of the place was forced into the desert wastes, where, after sufferings, they brought up at a marvellously fertile place, where they decided to settle and build a church. And here "Blaze" took unto himself as wife Faith, the sister of the weak-hearted weaving minister who had been killed. This is a dramatic picture, splendidly acted.

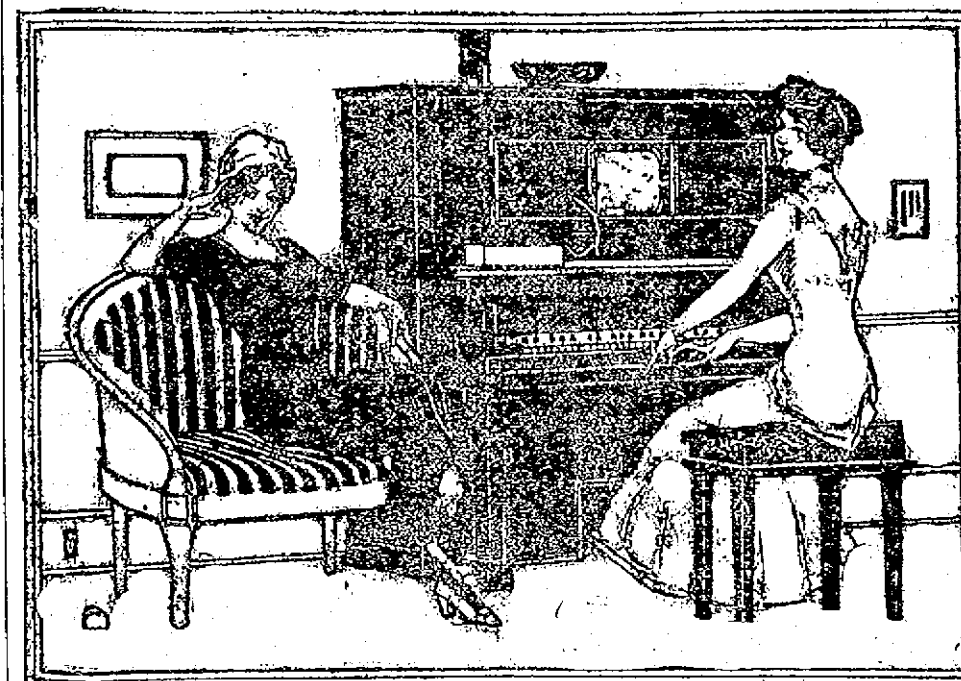

"Wife and Auto Trouble" is the title of a Keystone comedy, with Willie Collier, Mac Busch and other favorites in it. It is funny in a Keystone way, and is the cause of many laughs. "Maid and Jeff" are on the screen again, and the title of their animated cartoon being "The Foreign Legion." And a brand new news picture, "The Heart International," is being shown for the first time. There are several other shorter pictures, including the Kalem, "The Bachelor's Alliance."

MERRIMACK SQUARE THEATRE

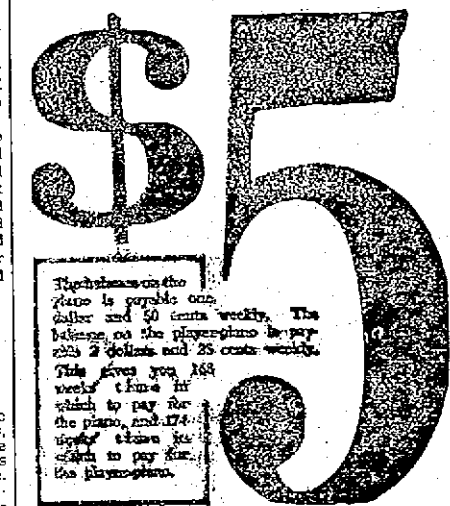

Many of the patrons who chose yesterday on which to witness the dramatic record of Miss Steadman in the role of the artist's model in the appealing play, "The American Beauty," pronounced this to be her best performance. There is a charm about Miss Steadman which is indefinable and intangible, but yet is felt by all who witness her. It is this charm that has contributed to its great success. Be sure to see this picture at the Merrimack

One of the big advantages of this piano sale to you, the buyer, is the easy terms.

Compare these terms with regular terms

This sale makes it as easy to own as to rent a piano

This makes seventeen dollars a month you have to invest for music—for at least TWO and ONE-HALF to THREE years.

But buy one of these Behr Bros. pianos during this sale and it will cost you but one dollar and fifty cents a week. Now add the five dollars a month for piano lessons to this amount and you have only eleven dollars a month invested in music. You are still buying and paying for your piano—paying out the same amount of money for musical instruction—and yet you have SIXTY DOLLARS A YEAR LEFT to spend in some other direction.

After reading over this plan can't you see the ease with which you can OWN a piano?

Can't you see that you can OWN a beautiful Behr Bros. piano more cheaply than you can rent the "other fellow's"?

Can't you see the ease with which you can educate your family in music?

Let us show you something: Suppose you bought a Behr Bros. piano, or some other similar high grade piano, in the regular way, paying twelve dollars a month for it. Add to this twelve dollars an additional five dollars a month, at least, for piano lessons.

GET A BEHR BROS. PLAYER PIANO

Fifty of these instruments are Behr Bros. player-pianos, which are also being sold on the same plan.

The usual price of Behr Bros. player-pianos is five hundred to six hundred dollars each.

Our sale price is three hundred and ninety-seven dollars.

The player-piano will also be delivered immediately upon the payment of five dollars.

The regular payments will be two dollars and twenty-five cents a week—giving you one hundred and seventy-four weeks' time in which to complete your payments.

All of the features of this sale are carried out in offering the Behr Bros. player, with the single exception, that the terms on the player-piano are two dollars and twenty-five cents a week instead of—as on the piano—one dollar and fifty cents a week.

HEALTH OF WOMEN WRECKED BY IGNORANCE.

A Prominent Brockton Woman's Advice.

Brockton, Mass.—"My mother started to take Dr. Pierce's Favorite Prescription forty years ago, when she was first married, and found it helped her greatly when she was about to become a mother. She had ten healthy children, all natural births, and her advice to her girls when they married was to always keep 'Favorite Prescription' in their homes. Dr. Pierce's book, 'The Common Sense Medical Advice,' has been our family guide. My mother never failed to refer to it for any ailment and she raised all of her children to manhood and womanhood without ever having to call in a doctor."—Mrs. MART A. GUERIN, 212 Court St.

For every disease or ailment of a womanly character, no matter how recent or long standing, the one sure, reliable remedy of proved merit is Dr. Pierce's Favorite Prescription.

Women should never experiment with unknown preparations; the risk is too great. Dr. Pierce's Favorite Prescription is prepared from nature's roots and herbs and does not contain alcohol.

Women are earnestly advised to take it for irregular or painful periods, headache, displacement, catarrhal condition, hot flashes, sallow complexion and nervousness.

For girls about to enter womanhood, women about to become mothers and for the changing days of middle age Dr. Pierce's Favorite Prescription should always be on hand.

Any medicine dealer can supply it in either liquid or tablet form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for free, confidential medical advice, or free book on Diseases of Women, or send 10c for large trial package of tablets.

Dr. Pierce's Pleasant Pellets are the original little Liver Pills. These tiny, sugar-coated, anti-bilious granules—the easiest and easiest to take.

ON MILITARY TRAINING

VOTE DEFINING ATTITUDE OF NATIONAL EDUCATION ASSOCIATION

TODAY

NEW YORK, July 7.—Election of officers and a vote defining the attitude of the National Education association on compulsory military training in public and private schools, were the features of today's final sessions of the annual convention of that association.

Dr. Robert J. Aley, president of the University of Maine, has been named by the nominating committee for the presidency.

The military training question, one of the outstanding issues of the convention, is expected to come before the members in the form of a resolution presented by a committee. Advocates of military training received encouragement on the eve of the vote from an address delivered last night by Maj. Gen. Leonard Wood. Criticizing the assertion that a million men would "spring to arms between sunrise and sunset," Gen. Wood said:

"We have been pitting up nights for

BIG ELM TREE FELL

A large elm tree on the land of the Locks & Canals in Lewis street fell into the street about 9:30 o'clock last night, breaking down a portion of the canal fence and falling across the street. A woman who was wheeling a baby carriage had a narrow escape from being struck when the tree fell.

Nearly 30,000 women are employed in the factories supplying the needs of the army in Germany.

TROPICAL STORM

Wild Velocity at Mobile, Ala. — 100 Miles an Hour—Heavy Damage

WASHINGTON, July 7.—The tropical storm which struck the Gulf coast on Wednesday with a yet uncounted toll of lives and property is now over North Mississippi and moving northward with diminished energy. The weather bureau today reported that the wind velocity at Mobile, Ala., during the height of the storm was 106 miles an hour, and at Pensacola, Fla., its velocity was 80 miles. There were torrential rains in Alabama and Mississippi and a heavy general downfall throughout the south as far north as Tennessee.

Reports of the damage done by the storm along the Gulf coast and in Mississippi and Alabama were still meagre today but enough had been established to make it certain that property losses would amount to several millions. Seventeen negroes lost their lives near Beloit, Ala.

VESSELS LOST IN STORM

MOBILE, Ala., July 7.—According to reports reaching Mobile the following vessels were lost or beached during the storm:

Schooner A. L. Mangold, crew saved; schooner Nora Belle, crew missing; bay packet James A. Carney sunk, and the packet Apollo slightly damaged. Near the wreckage of the Nora Belle was found the stern of a schooner, the only identification mark being the words "Moss Point."

Reports not confirmed late yesterday said the schooner T. E. Wells, Newport; Koppersmith and Confidential, had gone ashore on the beach. The coast guard cutter Tallapoosa was not damaged. She made unsuccessful attempts during the day to reach outside points with her wireless.

HER NAME OMITTED

The name of Katherine Pearl was accidentally omitted from the list of graduates of the Lowell Commercial college.

MYSTERY IN AUTO CRASH

PASSENGERS LEAVE WRECKED

CAR IN NEWTON—LICENSE INDICATES BOSTON MAN OWNER

NEWTON, July 7.—The police of Newton are endeavoring to locate the driver and passengers of a large limousine which ran into a car operated by Samuel Webster of 577 Chamber street, Brighton, on Commonwealth avenue, last night. In the car with Mr. Webster was his wife, but neither were injured by the collision. The other car, with a license number 4753 and listed as owned by Dr. Frederick A. Davis, 296 Beacon street, Boston, is a complete wreck.

The accident happened near Hobart avenue. According to Webster's story, the other car came along the wrong side of the road at a high rate of speed, and hit his running board. He lost control of his automobile, which went over on the trolley track.

The other car, of a powerful type, twisted around, and turned turtle. It had a license number 1105, Commonwealth avenue, Boston, and Henry H. White of 312 Massachusetts avenue, Cambridge, ran to the assistance of the passengers. They extricated a woman from the tonneau. The driver was missing.

L. E. Blake of Boston came to the assistance of the woman with his car. He took her to Coolidge corner, and there he says she asked to be let off. She thanked him and disappeared.

Dr. Davis' home on Beacon street is closed for the summer.

FOR HYDROPLANE WORK

NAVAL MILITIA TO BE TRAINED IN

USE OF THESE IMPLEMENTS OF WARFARE

Special to The Sun
WASHINGTON, D. C., July 7.—A bill for the establishment of an aerial coast patrol in connection with the naval militia of each state and providing for the education and training of aviators was introduced in the senate today by Mr. Johnson of Maine. The measure provides that naval militia of every state—whether inland or coastal—shall be furnished with a suitable course of instruction on hydroplanes, provided there are suitable bodies of water available in that state for operation of water and air craft. The bill calls for \$1,500,000 as an appropriation.

RICHARDS.

ABERCROMBIE APPOINTED

Lawrence Young Man Led in Recent Examination of Candidates for Annapolis Naval Academy

LAWRENCE, July 7.—Lawrence A. Abercrombie, aged 15, son of ex-Alderman John A. Abercrombie, received word last night from Congressman M. P. Phelan of Lynn that having led in the recent examination he had been appointed to the Naval academy at Annapolis. Young Abercrombie is a graduate of the local high school and attended Phillips Andover academy a year.

ALLIES' DRIVE FELT HERE

American Fund For French Wounded Gets Rush Request For Hospital Supplies

BOSTON, July 7.—The extensive drive of the allies now under way in the European war is making itself felt in Boston according to a cable message received yesterday by the American Fund for French Wounded, with headquarters at 305 Boylston street. The message:

"Need great. Enormous demand sterilized dressings."

A volunteer distributor of the organization's Paris depot tells of visiting a hospital where all the convalescents were in place of suits, the gray flannel pajamas sent by the fund. One of these men writes in acknowledgment:

"I have been given a garment, light, warm and comfortable, such as I have not seen before. They tell me it is called a pajama. I never saw myself looking so handsome. Since then I inspire myself with a certain respect."

"A polli of the most recent elegance."

In the last year the fund has sent abroad more than 4000 cases of surgical dressings and hospital supplies.

GEMS WORTH \$5000 GONE

STOLEN FROM SUMMER HOME OF MRS. DOROTHY KEENE TAYLOR

NEW YORK, July 7.—Mrs. Dorothy Keene Taylor, daughter of the late James R. Keene, financier and horseman, reported to the police today that jewels valued at more than \$5000 were stolen from her summer cottage at Cedarhurst, N. Y., some time late last night.

TO EXPLORE AMAZON

Dr. and Mrs. Hamilton Rice, the former of Boston, Will Make Trip on Yacht

NEWPORT, R. I., July 7.—Dr. and Mrs. Hamilton Rice, the former a noted Boston explorer, are planning to make an extended trip, beginning next fall, through the Amazon river region, exploring the interior after a three months' cruise on the river on a specially built yacht which is now being fitted out in New York.

The trip will cover seven or eight months. Dr. and Mrs. Rice have arranged to take a number of tribesmen from the Amazon on the expedition.

JOE JACKSON'S START

CONNIE MACK HAD HARD WORK TO HOLD MILL HAND PICKED UP IN NO. CAROLINA

Eight years ago a green mill hand from the wilds of North Carolina was picked up by one of Connie Mack's scouts and after a few days of his league experience shipped out of the city, ditching McGillicuddy and causing consternation at Shibe park. He was Joe Jackson, today the American league's leading slugger and rival of Tris Speaker for hitting honors in that circuit.

How this youth turned down a big offer and boarded a train for Greenville, his native heath, is a story colored with romantic adventure. It is a tale that will interest baseball fans at this time when the mighty bat of this fence-smasher has kept the Sox in the race in the American league, when the club was crippled and tottering from injuries and accidents.

Mack, who has a keen eye for diamonds in the rough, watched the work of Jackson closely. According to the story which comes from Harry Davis, Jackson was ill at ease with the Athletics. He wanted to do things as he had been accustomed to do them down in Greenville, where the sun shines bright and warm most of the year. One innovation that Jackson brought to the big league was playing ball in his bare feet.

"What's the idea in playing barefooted?" asked Davis of Joe. "It helps me get a better grip on the ground," replied Jackson. That was a stunner for Davis because he had to admit that one could get a better hold on old terra firma with his bare feet than with such incumbrances as shoes.

Jackson was persuaded that spiked shoes would turn the trick, and after practicing with them much he acquired the habit of taking a toe hold on the ground that has made him one of the most feared swatters in all the world of baseball.

Jackson Goes Back Home

One day Jackson was missing in Philadelphia and Mack was greatly worried. He sent scouts to neighboring towns in quest of his wandering player. Finally he dispatched Harry Davis to seek Jackson in his home town.

"Go to — house on — street and you'll find Joe," said a townsman of Jackson.

When Davis approached the house he recognized Jackson sitting in a hammock with his best girl.

"I have come to get you and take you back to Philadelphia to the big league," said Davis.

"I'm through with the big league," Greenville is good enough for me," replied Jackson.

Davis told Jackson that Mack would give him \$500 on his return, that he could come back and get married and everything would be lovely. Jackson was finally convinced that he could earn more in the major league than in Greenville and boarded a train with Davis for Philadelphia.

On the way back to Quakertown, Davis was busy engaged to watch his charge. Imagine his consternation to find that Jackson had left the train. Mack's sleuth again hustled off the train at the next station and boarded the next rattler for Greenville. There he found Jackson resigned to his fate in the minors and determined to remain in Greenville.

There was only one thing for Davis to do, and that was to arrange a wedding for Jackson and take him and his bride back to Philadelphia.

Davis brought Jackson back to the big league, but it required a tactical maneuver of a high order to accomplish the task. Jackson was married and was contented to follow Davis back to the majors. He has never regretted his move.

Connie Mack declares he knew the

present slugging outfielder of the White Sox was destined to become a great player. Just why Mack let this bright star elude him later in a trade for Bris Lord is another story. Suffice it to say Comiskey wouldn't trade or sell Jackson today for any other player in the big leagues. Jackson is a devoted husband and is one of the front players in the big leagues who believes in having his better half accompany him on most of his tours around the circuit.

CASE OF TETANUS

A case of tetanus, or lockjaw, is being treated at St. John's hospital. It was reported that the case was the result of a July 4 accident, but it was stated at this hospital that this was not the fact. The patient is 63 years old and his chances for recovery are said not to be very great.

KNOW YOUR CAR

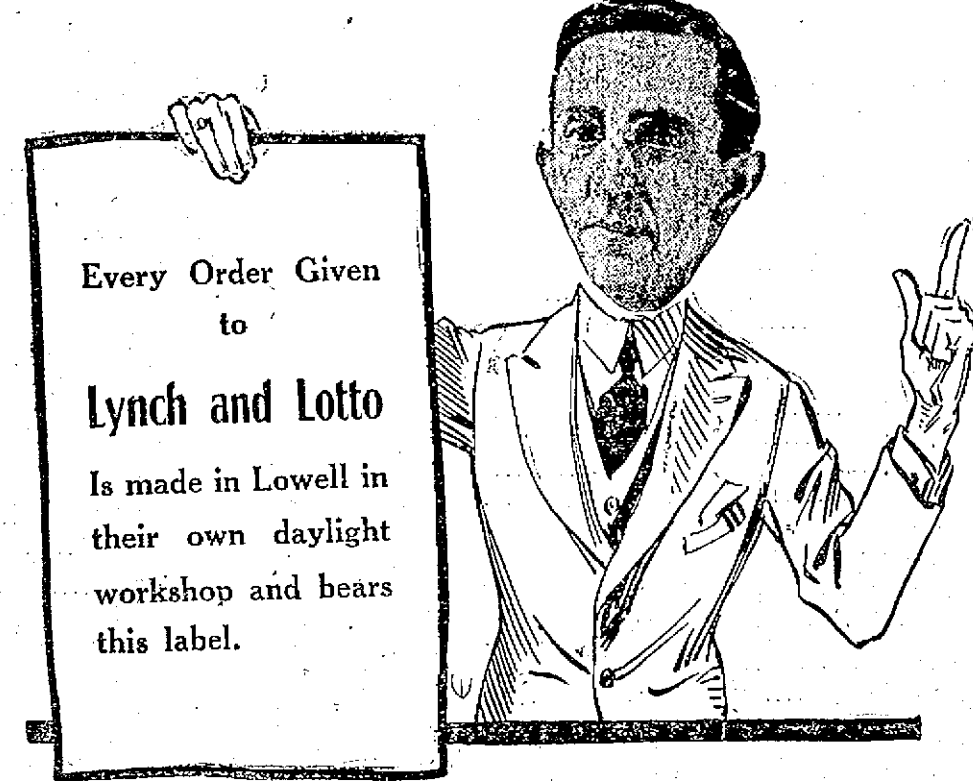

A wise old Greek said "Know Yourself." A more modern adage might be "Know your motor car." It is equally essential to your well being.

There is not an inconceivable contingent of motorists who are completely at the mercy of the automobile's mechanism. Even if a man never expects to drive the car himself, he will be acting wisely in finding out what the transmission is, why the electrical system is arranged as it is, how the clutch is put together, and the way in which the differential works.

Somebody has remarked that what the boss doesn't know won't hurt him, but what the automobile owner does know is often his salvation in a tight pinch and a dark night.

NATIONAL ROAD SYSTEMS

WASHINGTON, D. C., June 21—

"Another ten years will see national road systems covering every section of the country—the greatest practical step in the direction of preparedness that could be made," comments Dr. H. M. Rowe, the newly elected president of the American Automobile association, from the Washington headquarters.

"In a decade we will begin to have separate roads for freight traffic and passenger traffic," predicts Dr. Rowe, and the horse and mule will have practically disappeared. Our present highways will be greatly multiplied and largely increased in width and improved in quality. No other country on the face of the earth can make such good and profitable use of good roads as the United States of America. We will eventually excel in that as we do in many other things. There have been wonderful changes in all matters relating to transportation since the introduction of the motor car, but there are still greater things to come.

"But equal justice and fair treatment for the users of motor vehicles must continue to be sought for some time to come. Everything the motorists ask for, everything the A.A.A. and the clubs affiliated with it have demanded, has been granted on these principles. We have worked for good roads for the reason that they are of equal economic benefit in the final analysis to all, and it is only just and right that the people of our country should have the advantages to which they are entitled. We have worked for unrestricted intercourse between the states through the use of motor cars, because that is a constitutional right that has been denied us. We have asked for equal taxation. That is another constitutional right that has been denied us. We have asked for a substitution of right that has been denied us. I admit, but it is an injustice and constitutes unfair treatment just the same."

"In addition, the owners of motor cars are being subjected to all sorts of petty annoyances: special taxes, licensing, traffic use of lights, and many restrictions seldom alike in two places, and which subject decent men and women to arrest and conviction, often for the most trivial reasons. There are many who look upon an arrest of any kind as a disgrace, and when one is innocent of any intention at all, wrong, his arrest becomes a shameful disgrace, not only to him but upon the community which permits it. Much has been accomplished, it is true. But there yet remains much to be accomplished before it can be truly said that the owner of a motor car is not subjected to annoyances and unfair treatment, which is not visited upon those who employ other road vehicles."

"So we have our work cut out for us, and certainly the American Automobile association has a great mission to perform. We have friends are inspired by the thought that the body is going to further increase its prestige until it rightfully should exert as the national spokesman of the entire country of the motorists of the entire country."

"No matter what the organization may be, however, it must work unselfishly and for the common interest of its members. The large majority of motorists are men of large views. They are capable of seeing things in the big. Their efforts should be of the same character."

Iowa has rejected the proposed amendment to grant suffrage to women.

SIX CENT FARES

Pres. Sullivan Explains Floating Indebtedness—Cross-Examination

BOSTON, July 7.—Two millions of dollars in notes issued by the Bay State Street Railway Co. four years ago, which officials of the company have stated represented an indebtedness for which they could not account, were explained today by President F. Sullivan at the hearing by the public service commission into the road's petition for increased fares. It was a floating indebtedness, he said, inherited largely from loans of \$1,700,000 on the books of constituent companies which, "because it was not good business," was covered by the company notes, to be liquidated out of earnings.

The commission itself today took up the cross examination of the company's witnesses, to determine whether increases in earnings, and savings in expenses could not be effected by changes in the service. Various such sources of economy had been pointed out by experts during the hearing.

LEGAL PAY OF SOLDIERS

GOV. MCCALL WIRES SENATOR LODGE TO PRESS THE-PASSAGE OF BILL

BOSTON, July 7.—Gov. McCall today wired Senator Lodge to press the passage of a bill recently passed by the house of representatives supplementing the legal pay of soldiers who have dependent families.

DEATHS

THYNNE—John J. Thynne, an old resident of this city, died this noon at his late home, 69 Forrest street, after a long illness. He was a member of St. Margaret's Holy Name society. He leaves two daughters, Mary F. and Elizabeth A., two sons, Lawrence J. of Marlboro and Frank P. of this city. Deceased has been well and favorably known for many years in the city district and recently in the Highlands. He had always been a devoted member of the parish in which he resided. He leaves many friends to mourn his loss.

CARD OF THANKS
We, the undersigned, wish to express publicly our sincere and heartfelt thanks to the many friends, relatives and neighbors who, by their kind acts, words and expressions of sympathy, by offerings, both spiritual and floral, helped to lighten our burden of sorrow at the sudden and untimely death of our beloved child, Margaret Mulligan.

All acts were deeply appreciated by Mrs. James Mulligan and Family.

A considerable number of wealthy American women who married Englishmen and are living in England will be hit heavily by the new income tax on American securities.

PARADE IN LAWRENCE

MANY LOWELL PEOPLE SAW PREPAREDNESS PARADE IN DOWN RIVER CITY

Many Lowell people went to Lawrence last night to view the preparedness parade in that city. The parade was postponed from July 4 and while it was fairly successful it was nothing as compared with the preparedness parade held in this city. There were about 500 in line as compared with over 15,000 in the Lowell parade. There is no doubt, however, but what the Lawrence parade would have been a greater success but for the postponement.

Mayor James E. O'Donnell of Lowell was among the guests on the reviewing stand in Lawrence. At the close of the parade Mayor Hurley of Lawrence spoke on the common and there was singing of patriotic songs.

Each participant in the parade carried an American flag, which was the only emblem displayed. The parade was indicative of Lawrence's cosmopolitan population, and the participation of various nationalities taking part.

Win Honorable Mention

Honorable mention was given in order to the Chinese section, the Ladies Auxiliary of Lawrence lodge, B.P.O.E., "Making the Flag," Emma Russell of Lawrence, and the Lawrence Camp, U.S.W.V., displaying a boat with an eagle at the bow, and the Monomac Spinning company's exhibit, two Indians seated in a canoe.

The judges were Mayor O'Donnell and ex-Senator John E. Drury of Lowell and Rev. Donald E. Gerrish of this city. The awards were governed by the patriotic and preparedness features.

Mayor Hurley and Aldermen Maloney, Flanagan, Finegan and Cadogan were at the head of the line. Michael Conlin was chief marshal, Harry B. Lawrence, chief of staff and Peter P. Graham, adjutant and marshal of the first division. Other division leaders were Frank E. Harding, Bartholomew J. Cahill, Lawrence J. O'Leary, Joseph P. Couture, James E. Connors, Geremia Campolongo, Jan Szulik, Bernard A. O'Donnell, A. L. Dow, and John J. Cronin.

The Civil war veterans rode in automobiles in the first division and soldiers of the Spanish-American war and members of the Sons of Veterans were their escorts.

Postmaster M. P. Cronin and Assistant Postmaster J. Rodney Ball and Edwin H. Colby, who has been a carrier 55 years, led the mail clerks and letter carriers in this division.

Fraternal Organizations in Line

Of the fraternal organizations taking part in the second and fourth divisions, Lawrence lodge, B.P.O.E., and Lawrence lodge, F.O.E., attracted special attention. The B.P.O.E. had a group of horsewomen at their head, and following them the members and the women's auxiliary carried a large American flag stretched horizontally between them.

Mrs. Tobias Linehan, attired as "Columbia," marched with the "Exalted Order of the Eastern Star." The women's auxiliary of the B.P.O.E. had a prize-winning degree team and the prize was awarded to a company of Indians and other persons who are taking part in a circus under the auspices of the order. Other organizations represented were the Hibernians, Knights of Columbus, Young Men's Hebrew association and Moose.

Members of the Young Women's Christian association, wearing white and blue, made an excellent appearance and marched briskly.

Supper, Sheridan and School Committee Duvany, Landers, Jordan and Saunders led the school children, of whom there were about 2500 in line. The judges on floats and other features of the parade were Mayor James E. O'Donnell and Hon. John E. Drury of this city and Rev. Donald Gerrish of Lawrence.

MRS. YOUNG COMES BACK

SPIRITED REPLY IN DEFENDING NEW YORK TEACHERS' UNIONS—ALEY OF MAINE, PRESIDENT

NEW YORK, July 7.—Teachers' unions were attacked by Jacob Loeb, president of the board of education of Chicago, in an address yesterday at a meeting of the department of school administration in connection with the convention of the National Education association.

Mrs. Ella Flagg Young, formerly superintendent of schools of Chicago, supervised him in a spirited defense of the principle. She was on the program for a speech on a different subject, but said she felt called upon to reply to Mr. Loeb, after he characterized organizations of teachers as "making for a divided allegiance, breeding suspicion and discontent, encouraging class prejudice and engendering class hatred."

Officials of school boards, Mrs. Young said in a sharp rejoinder, would know more about school affairs if they sent their own children to the public instead of private schools.

Mr. Loeb, whose board is said to have dismissed 13 teachers in the Chicago schools 2 week ago, said, in part: "I have no quarrel with trades unions properly conducted and in their proper place, but a trades union in the public schools is intolerable. Teaching is not a trade; it is a profession, and one of the noblest. In principle and practice, trades unionism is inconsistent with and unnecessary to a professional career."

Mrs. Young said: "Almost all members on boards of education have some powerful club or organization behind them. They owe their position to these people and must maintain the policy of the organization or the individual who put them there. The public school teachers throughout the country have not the freedom to express their thoughts."

"I used to attend the meetings of the Chicago school board, and when the teachers came before it the members sat with immobile faces, and when all had spoken the chairman asked if there were more to speak. Then the smile that went round that table—the teachers' smile, and the result was nothing. Again they came; they met the same courteous reception, and the same dismissal, and the result again was the same—nothing."

"After a while the teachers said: 'This is all right. We are a great deal like the suffragettes. We are sitting back quietly and take what is given us, and of all things we must not show any desire to push ourselves forward.' But at last, after years of waiting, the women have said: 'We have got to be more than weak waiters at the gate.'"

Dr. Robert J. Aley, president of the University of Maine, was nominated today for president of the association. Among other nominations submitted was that of Payson Smith, Massachusetts, for vice president.

WAS SCALDED TO DEATH

JOHN CINNO DIED IN TANK OF BOILING WATER AT MAYNARD MILL

MAYNARD, July 7.—John Cinno, employed in the dye house of the American Woolen company, was scalded to death in a vat of boiling water about 1:30 yesterday afternoon. As reported by one of his fellow employees, a lead of wool had just been placed in the vat for cleaning. Cinno jumped upon the wool presumably to submerge it, but his weight carried him through to the boiling water. His cries were heard all through the building, but no one was able to assist him.

His regular work was the shoddy department, but owing to the shortage of help in the dye house he was transferred there last Monday. Officials at the mill are at a loss to understand his action.

The body was viewed by Coroner J. J. Kelly of Marlboro.

Cinno has resided in Maynard for the past four years. His home was at 111 Main street, and he is survived by a wife and two children. The body was removed to the undertaking rooms of Mrs. Susan Sheehan from which the funeral will be held today.

THE IRISH QUESTION

MEETING OF UNIONISTS TO CONSIDER TERMS OF PROPOSED SETTLEMENT

LONDON, July 7.—The meeting of unionists to consider the terms of the proposed Irish settlement was held today at the Carlton club. A. Donar Law, secretary for the colonies, presided.

There are between 3,000,000 and 4,000,000 women voters in the United States.

There are between 3,000,000 and 4,000,000 women voters in the United States.

Mobile or Pensacola, the largest cities in the storm's path, according to messages from these places, which still were cut off from direct wire communication.

Property damage in Mobile was reported to approximate a million dollars. The business section of the city was flooded and many buildings were demolished or unroofed. Damage in Pensacola was said to have been confined largely to the waterfront and shipping in the harbor. The maximum wind velocity was reported at 104 miles an hour.

Laurel, Miss., reported that the property loss there would aggregate \$200,000. There was no loss of life. Jackson and Meridian reported considerable damage to crops and farm buildings. Reports from Gulfport, Biloxi, Pass Christian and Bay St. Louis, Miss., told of little damage there with no loss of life.

Buildings and crops in and around Beloit and Tallahassee, in Alabama, were damaged, and crops suffered throughout the storm area.

The wire prostration extends throughout southwest Alabama and Mississippi as well as part of Florida. Accurate estimates of the damage probably will not be possible for a day or two.

The storm last night was central over Vicksburg, Miss., but was rapidly diminishing in intensity.

THOUSANDS WANT TO JOIN T. R.
NEW YORK, July 7.—Col. Roosevelt's division of volunteer soldiers (in the event of war with Mexico) is piling up a huge amount of work for Regis H. Post, former governor-general of Porto Rico, to whom the colonel has turned over all the mail on that subject that is pouring into the Metropolitan offices.

"I'm in a waste-paper basket up to my neck," lamented Mr. Post yesterday. "Thousands of persons seem to have heard about the colonel's division, and we are trying to drive them away with letters. All we can do is to open the letters, keep track of the names and later perhaps send the writers a postal card 'thank you.'"

HERRMANN DENIES TRADE
CINCINNATI, O., July 7.—There is nothing in the report that Herzog will go to the Chicago Nationals' August Hermann, president of the Cincinnati club, said today. "I certainly would not consider any deal of this kind at this time."

"Chicago has nothing to trade that we want that they would trade in a deal of this kind. The present status of the team does not affect Herzog's standing at all, and it is as yet too early to predict where we will finish or how the team will play. At this time we must certainly have not considered the question of having any other manager than Herzog and I do not believe

Neither Gate-Tender Pearson nor the bicyclist who chased the men could give a very good description of them. They were about 18 years old, 5 feet tall and each weighed about 145 pounds. Their clothing, the men thought, was of dark material.

Mr. Pearson is convinced that there were three in the party and that the thick-set fellow who was sitting on the bench outside was the third member.

If you want help at home or in your business, try The Sun "Want" column.

INDUSTRIAL AND STORE NEWS

A very interesting meeting of the members of the Trades and Labor council was held last evening at the quarters of the organization, 32 Middle st. The meeting was presided over by Frank Warnock and was largely attended. In the course of the meeting it was announced that a meeting of the committee in charge of the arrangements for the Labor day celebration, and which is composed of delegates from the various union organizations of this city, will be held at 32 Middle street, Saturday evening, and all members of the committee are requested to be present.

It is expected that the celebration will be in the form of a monster parade in the forenoon with outdoor sports in the afternoon.

In the course of last evening's meeting those present were addressed by Business Agent Kelley of the Boston Barbers' union. Frank Warnock and Thomas Morrison were elected delegates to the meeting of the Massachusetts state branch to be held at Springfield, Sept. 11, and P. R. Monahan and Edward A. Cunningham were chosen alternates. Considerable business was transacted and the following credentials of delegates were received:

Health Department Teamsters—Thomas J. Donnelly, John Ash, Daniel O'Connor, P. R. Monahan, M. McKee, H. O'Rourke, C. W. Eldridge.

Local 230, Street Railway Men—Cornelius Griffin.

Local 85, Moulders—Fred Morley, Res Taylor, Wilbur McGrady, Patrick Keane, George Pardo, George H. Keating, Charles E. Anderson.

Local 1610, Carpenters—J. A. Pion, R. Dionne, Joseph Pagan, Adolphe Charlier, Leandre Bourque, Theodul Partelance, Amedee Fournier.

Local 1465, Carpenters—Arthur Ferron, Fred Moran, Charles Breton, Arthur H. Holstein, Charles O. Davis, John H. Burns, Morris Greenbaum.

Barbers—Michael McFadden, Hugh Maguire, John J. Quirk, Frank McMahon, Frank D. McNulty, Matthew H. Carney and Redmond Sullivan.

Stationary Firemen—Thomas J. McGee, Patrick Murphy, John W. Downing, John T. Hendricks, William J. Hart, M. P. Connelly, Michael Kinane.

Local 19, Brewery Bottlers—James Dillon, James Convery, John Conway, Michael McCabe, Michael Duffy, William Hagley, Henry O'Donnell.

Musicians—Timothy McCarthy, Harry Clay, Edward A. Perry.

Woolen Weavers—James Cassidy, Frank Mullen and Grace Sullivan.

Cotton Weavers—Annie O'Del, Mrs. Annie Regan, Bernard Feeley.

Leather Workers—Charles Shanley, Joseph Labelle, Jr., Benjamin Williamson.

Want Statistics
The bureau of statistics at Washington has written a letter to Thomas Morrison, secretary of the Trades and Labor council, for a statement or compilation of the wage increases recently granted in Lowell and district.

New Organization
The new union composed of woolen weavers, recently organized in this city, has become affiliated with the Trades and Labor council and the following delegates to the latter organization have been elected: Grace Sullivan, Mrs. Healey, James Cassidy, Josephine Iverson, Mr. Chisholm, Della Mellory and Frank Mullen.

Painters
The members of the Painters' union held their regular meeting in Carpenters' hall last evening. A large attendance. Seven new members were initiated and several applications for membership were received. An interesting meeting of the organization will be held on the evening of July 20 and the business will be followed by a social hour during which refreshments will be served. At this meeting also plans relative to the Labor day parade will be made and the uniforms will be chosen.

Business Agent
There is a lively contest on for the position of business agent for the local Carpenters' union, the contestants being the present incumbent, Michael A. Lee who has held the position for a number of years, and Charles Patterson, a member of one of the unions. The first vote for the position was taken last Wednesday evening at local 1610, and the next will be taken next Tuesday evening at local 49. The final vote will be taken a week from tonight at the Millmen's union. The election is for six months.

B. & M. Trackmen Out
A meeting of the Boston & Maine trackmen who left their work some time ago after being refused an increase in wages, was held last evening in Odd Fellows hall, Middlesex street, and it was voted not to return to work until the demand is granted, despite the fact that a notice has been received from officials of the road, stating that unless the men return to work immediately they will lose their rating. It was stated at the meeting that most of the strikers had secured other employment and they are in a position to remain away from the road indefinitely.

Other meetings held last evening were as follows: Carpenters' union of the B. & M. shops, Odd Fellows hall; Local 57, Blacksmiths, 32 Middle st.

Cigar Makers' Union
At the regular meeting of the Cigar Makers' local union the following officers were elected: President, Daniel F. Callahan; vice president, Fred Fielding; treasurer, Carl A. Wahlgren; general secretary, Thomas F. Garvey; sergeant at arms, Thomas Gill; finance committee, William Johnston and James A. Kane; trustees, E. A. Quirbach, J. Flory, Thomas Gill; executive board, Edward Dillon, Frank Whitely, J. Flory.

President Daniel Callahan called the attention of the members to the fact that it was thirty-one years ago since Carl A. Wahlgren was elected treasurer and he is still in the same office. That Thomas F. Garvey was chosen secretary fifteen years ago. It is due largely to their guidance that the union has had no strikes.

HUGHES MEETS WOMEN
PLEASES BOTH ANTIS AND SUFFRAGISTS—THE LEADERS MAKE STATEMENTS

NEW YORK, July 7.—Delegations of suffragists and anti-suffragists visited Charles E. Hughes yesterday and each declared the conference was entirely satisfactory.

Mr. Hughes was visited first by a committee composed of Mrs. Carrie Chapman Catt, president of the National Woman's Suffrage association; Dr. Anna Howard Shaw, ex-president of the association; and Mrs. Norman de R. Whitehouse, president of the state suffrage organization. Mrs. Catt declared the assurances the governor had given them were "more satisfactory than any others we have received heretofore."

Mr. Hughes then received a delegation of six anti-suffragists, who characterized their reception as "eminently satisfactory."

"Mr. Hughes is indeed the man of the hour," declared Mrs. Arthur M. Dodge, president of the National Association Opposed to Woman Suffrage, who was the leader of the party.

Mr. Hughes is indeed the man of the hour, declared Mrs. Arthur M. Dodge, president of the National Association Opposed to Woman Suffrage, who was the leader of the party.

GEORGE CLARK AND "GAUDAUR" READY FOR SPEEDWAY AGAIN

Recovers From Severe Form of Rheumatism by Var-ne-sis and Will Be Seen at Many Race Tracks This Season

George Clark, owner of the famous black stallion "Gaudaur," by "Guy Wilkes," will again guide this gamy horse under the wire. He has a record of a half in 1:04, and has been seen on many speedways from Chicago to Boston. Mr. Clark also

this trouble and they have reported good results. I certainly was in a bad way when I started to take Var-ne-sis and cannot recommend it too highly. My address is 30 Mystic street, Arlington, Mass.

Var-ne-sis is a simple vegetable

GEORGE CLARK AND HIS FAMOUS STALLION "GAUDAUR"

owns J. E. C. with a record of 2:13 1-4.

Mr. Clark was compelled to give up driving on account of rheumatism, and it will be a surprise to many to know that he has fully recovered.

He said: "I believe I know what it is to suffer from rheumatism. I was so bad that for weeks I was unable to turn in bed and had to have some one assist me to dress. It was impossible to get my hands to my head and particularly painful in the morning."

"There was at first a slight numbness of my fingers and then the pain extended to my arms, shoulders and back. It continued to grow worse and finally involved my legs. My hands and feet were so stiff that I could not lift even small objects, as the strength seemed to have left me entirely."

"Reading so much about Var-ne-sis and what it had done for others, I decided to try it, with the result that gradually the pain left me. My strength returned and today I consider myself a well man."

"I have recommended Var-ne-sis to a number of friends suffering from

preparation composed of herbs, roots and barks, and does not contain any harmful drugs. It has been unusually successful in the treatment of chronic rheumatic conditions of all kinds and is rapidly becoming known as the World's Remedy for Rheumatism. W. A. Varney, discoverer, said:

"I am continually producing living evidence to prove that rheumatism of the joints is curable. No rheumatic can afford to ignore this mass of evidence."

"I know what Var-ne-sis has accomplished where the joints were swollen from a chalky deposit—I know what Var-ne-sis has accomplished for dry joints so that they croaked when going up or down stairs. I know what Var-ne-sis has accomplished for actual cripples that were confined to wheel chairs. It has made every one of these people well and ought to do the same for you."

"No other preparation produces such evidence as Var-ne-sis. Why? Send to W. A. Varney, Lynn, Mass., for 'Story of Var-ne-sis'—it's free."

Get Var-ne-sis now—today—at all reliable druggists.—Adv.

FEDERAL AID OFFERED

GOVERNMENT TO ASSIST IN EFFORT TO SAVE BABIES—EPIDEMIC RAGES IN NEW YORK

NEW YORK, July 7.—After a conference between William G. McDonald, secretary of the treasury of the United States, Mayor Mitchell, Health Commissioner Emerson and others it was announced last night that the United States public health service would cooperate with the New York authorities in their efforts to stamp out the epidemic of infantile paralysis which already has cost the lives of more than 150 children in Greater New York.

The federal aid, it was said, would be directed to tracing the origin of the disease. This will consist largely in field epidemiological and laboratory studies, the latter being chiefly experiments with animal inoculations. In this connection it was said a telegram had been sent to Washington asking that 100 monkeys, procured in the Philippines for the Rockefeller Institute of Medical Research here, be not subjected to a recent embargo order which has delayed their arrival into the country. According to Commissioner Emerson, monkeys are regarded as the best possible animal medium thus far discovered for proving the transmission of the disease.

Additional cases reported since 10 o'clock yesterday morning were 31. Of these 50 are in Brooklyn.

PROXY WEDDING OFF

Jersey Girl and Guardsman on Border to Sign Contract of Marriage—Legally Man and Wife

NEWARK, July 7.—Unable to be married by proxy because of legal entanglements, Miss Maud Ethel Sargent, 50 Peck avenue, and Louis Bansemer, 200 Madison street, First regiment on the Mexican border, have resorted to the mails. A marriage contract was signed yesterday by Miss Sargent and immediately mailed to Mr. Bansemer, who is at Douglas, Ariz.

That the couple will be legally man and wife was asserted by Eugene H. Weaver, counsel for Miss Sargent. Clerk Frank F. Crissey of the marriage license bureau also thought the contract would be binding. Miss Sargent signed the contract before a notary and witnesses.

Now the bridegroom will sign it. The procedure is that of common law marriage provided by law. The registration of the signed contract acts in a legal sense exactly as does the recording of the marriage license.

GREATEST SEA BATTLE OF WAR

Admiral Jellicoe's Official Report on the Engagement Off Jutland—High Praise for Officers, Men and Germans—Fought Great Battle in Mist

LONDON, July 7.—"Be pleased to inform the lords commissioners of the admiralty that the German high sea fleet was brought to action on the first day of May, 1916, the first and second battle cruiser squadrons, the first, second and third light cruiser squadrons and destroyers from the first, ninth, tenth and thirteenth flotillas, supported by the fifth battle squadron, were, in accordance with my directions, routing to the southward of the battle line, which was accomplished by the third battle cruiser squadron, the first and second cruiser squadrons, the fourth light cruiser squadron, and the fourth, eleventh and twelfth flotillas.

"The junction of the battle fleet with the scouting force after the enemy had been sighted was delayed owing to our advanced force during the first hour after commencing their action with the enemy battle cruisers. This, of course, was unavoidable, as had our battle cruisers not followed the enemy to the southward the main fleets would never have been in contact.

Two Dreadnoughts Sunk
"The battle cruiser fleet, gallantly led by Vice Admiral Beatty, and admirably supported by the ships of the fifth battle squadron under Rear Admiral Evan-Thomas, fought the action under, at times, disadvantageous conditions, especially in regard to light, in a manner that was in keeping with the best traditions of the service."

Without maps and charts many of the details of the report cannot be made clear. It states that "the list of ships and commanding officers, which took part in the action, has been withheld from publication for the present in accordance with the usual practice," which also detracts from the interest of the document.

Admiral Jellicoe estimates the German losses at two battleships of the dreadnought type, one of the Deutschland type, which was seen to sink, the battle cruiser Lutzow, admitted by the Germans, one battle cruiser of the dreadnought type, one battle cruiser, seen to be so severely damaged that its return was extremely doubtful, five

light cruisers, seen to sink—one of them possibly a battleship—six destroyers, seen to sink, three destroyers so damaged that doubt exists if they would be able to reach port and a submarine sunk. In concluding, Admiral Jellicoe says:

Many Ships Damaged

"The conditions of low visibility, under which the day action took place, and the approach of darkness enhanced the difficulty of giving an accurate report of the damage inflicted on the name of the ships sunk by our forces. But, after a most careful examination of the evidence of all the officers who testified to seeing enemy vessels actually sink, and personal interviews with a large number of these officers, I am of the opinion that the list shown in the enclosure gives the minimum numbers, though it is possible it is not accurate as regards the particular class of vessel, especially those which were sunk during the night attack. In addition to the vessels sunk, it is unquestionable that many other ships were very seriously damaged by gunfire and torpedo attack.

Loss Of British Vessels
"I deeply regret to report the loss of his majesty's ships, Queen Mary, Indefatigable, Invincible, Defence, Black Prince, Warrior, Tipperary, Ardent, Fortune, Shark, Sparrow Hawk, Nestor, Nomad and Turbulent. Still more do I regret the resultant heavy loss of life. The death of such gallant and distinguished officers as Admiral Beatty, Captain Sowerby, Captain Prothero, Captain Carr, Captain Bonham, Captain Charles J. Wintour and Captain Stanley B. Ellis, and those who perished with them, is a serious loss to the navy and to the country. They led officers and men who were equally gallant and whose death is mourned by their comrades in the Grand Fleet. They fell doing their duty nobly—a death which they would have been first to desire.

Enemy Fought With Gallantry
"The enemy fought with the gallantry that was expected of him. We particularly admired the conduct of those on board a disabled German light cruiser which passed down the British line shortly after deployment under a heavy fire, which was returned by the only gun left in action. The conduct of the officers and men was entirely beyond praise.

"On all sides it is reported that the glorious traditions of the past were most worthily upheld, whether in the heavy ships, cruisers, light cruisers or destroyers; the same admirable spirit prevailed. The officers and men were cool and determined, with a cheeriness that would have carried them through anything. The heroism of the wounded was the admiration of all. I cannot adequately express the pride with which the spirit of the fleet filled me.

Engine Department Praised
"It must never be forgotten that the prelude to action is the work of the engineering department. During an action the officers and men of that department perform their most important duties without the incentive which a knowledge of the course of action gives to those on deck. The qualities of discipline and endurance are taxed to the utmost under these conditions. They were, as always, most ably maintained throughout the operations. Several ships sustained speeds that had never before been reached, thus showing very clearly their high state of steaming efficiency. Failures in material were conspicuous by their absence."

Of the medical officers Admiral Jellicoe says:
"Lacking in many cases all essentials for performing critical operations, with their staffs seriously depleted by casualties, they worked untiringly with the greatest success."

Hardest Fighting
The hardest fighting fell to the battle cruiser fleet, says Admiral Jellicoe, the units of which were less heavily armored than their opponents, and he expresses high appreciation of the handling of all the vessels and commands Admirals Burney, Jerram, Sturdee, Evan-Thomas, Duff, and Leveson, and continues:

"Vice Admiral Sir David Beatty once again showed his fine qualities of gallant leadership, firm determination and correct strategic fighting. He appreciated situations at once on sighting the first enemy's lighter forces, then his battle cruisers, finally his battleships.

"I can fully sympathize with his feelings when the evening mist and fading light robbed the fleet of that complete victory for which he had manoeuvred, for which the vessels in company with him had striven so hard. The services rendered by him, not only on this, but on two previous occasions, have been of the very greatest value."

Report from Beatty
Vice Admiral Beatty's report to Admiral Jellicoe particularly mentions the work of the Engadine. Commander Robinson, which towed the Warrior 75 miles during the night of May 31, and continues:
"It is impossible to give a definite statement of the losses inflicted on the enemy. Visibility was for the most part low and fluctuating. Casualties were too close to the range to much with my inferior force. A review of all the reports leads me to conclude that the enemy's losses were considerably greater than those we sustained in spite of their superiority, and included battleships, battle cruisers, light cruisers and destroyers. This is eloquent testimony to the very high standard of gunnery and torpedo efficiency of his majesty's ships. The control and drill remained undisturbed throughout in many cases, despite the heavy damage to material and personnel."

"Our superiority over the enemy in this respect was very marked, their efficiency becoming rapidly reduced under punishment, while ours was maintained throughout. As was to be expected, the behavior of the ships' companies under the terrible conditions of a modern sea battle was magnificent, without exception. The strain on their morale was a severe test of discipline and training. The officers and men were imbued with one thought and one desire—to defeat the enemy."

"The fortitude of the wounded was

cal sweeps through the North sea, had left its base on the previous day in accordance with instructions issued by me. In the early afternoon of May 31, first day of May, the first and second battle cruiser squadrons, the first, second and third light cruiser squadrons and destroyers from the first, ninth, tenth and thirteenth flotillas, supported by the fifth battle squadron, were, in accordance with my directions, routing to the southward of the battle line, which was accomplished by the third battle cruiser squadron, the first and second cruiser squadrons, the fourth light cruiser squadron, and the fourth, eleventh and twelfth flotillas.

"The junction of the battle fleet with the scouting force after the enemy had been sighted was delayed owing to our advanced force during the first hour after commencing their action with the enemy battle cruisers. This, of course, was unavoidable, as had our battle cruisers not followed the enemy to the southward the main fleets would never have been in contact.

Two Dreadnoughts Sunk
"The battle cruiser fleet, gallantly led by Vice Admiral Beatty, and admirably supported by the ships of the fifth battle squadron under Rear Admiral Evan-Thomas, fought the action under, at times, disadvantageous conditions, especially in regard to light, in a manner that was in keeping with the best traditions of the service."

Without maps and charts many of the details of the report cannot be made clear. It states that "the list of ships and commanding officers, which took part in the action, has been withheld from publication for the present in accordance with the usual practice," which also detracts from the interest of the document.

Admiral Jellicoe estimates the German losses at two battleships of the dreadnought type, one of the Deutschland type, which was seen to sink, the battle cruiser Lutzow, admitted by the Germans, one battle cruiser of the dreadnought type, one battle cruiser, seen to be so severely damaged that its return was extremely doubtful, five

"It is impossible to give a definite statement of the losses inflicted on the enemy. Visibility was for the most part low and fluctuating. Casualties were too close to the range to much with my inferior force. A review of all the reports leads me to conclude that the enemy's losses were considerably greater than those we sustained in spite of their superiority, and included battleships, battle cruisers, light cruisers and destroyers. This is eloquent testimony to the very high standard of gunnery and torpedo efficiency of his majesty's ships. The control and drill remained undisturbed throughout in many cases, despite the heavy damage to material and personnel."

"Our superiority over the enemy in this respect was very marked, their efficiency becoming rapidly reduced under punishment, while ours was maintained throughout. As was to be expected, the behavior of the ships' companies under the terrible conditions of a modern sea battle was magnificent, without exception. The strain on their morale was a severe test of discipline and training. The officers and men were imbued with one thought and one desire—to defeat the enemy."

"The fortitude of the wounded was

SON OF HETTY GREEN LEFT HAND BLOWN OFF

COL. E. H. R. GREEN TO CONTROL FORTUNE LEFT BY RICHEST WOMAN IN WORLD

EDWARD H. R. GREEN

By the will of Mrs. Hetty Green the bulk of her estate is bequeathed to her son, Colonel E. H. R. Green, and her daughter, Mrs. Matthew Astor Wilks. The remainder is distributed in smaller bequests to old friends of Mrs. Green. No estimate of the total value of the estate is contained in the will, and the closing clause provides that the son and daughter shall not be required to file an inventory or appraisement or give bonds, and "shall not be required to account or to be subject to the jurisdiction of the probate court." It is estimated that the estate of the richest woman in the world amounts to more than \$125,000,000. Colonel Green has been associated with his mother in the management of her properties for many years.

LIEUT. S. R. WALLER HERE

THE POPULAR OFFICER CAME HERE LAST NIGHT TO ATTEND CO. G. DRILL

Lieut. Schuyler R. Waller of Company G, who is doing duty at Camp Whitney, South Framingham, in the form of drilling the rookies with other officers of the three local companies of the Sixth regiment, came to Lowell last evening to attend the paid rendezvous drill of Company G.

The attendance at the drill was very large and for one hour and a half the men were kept on the floor and put through various evolutions under the command of Lieut. Waller. The latter was seen by a Sun reporter before he left the city this morning and when asked if he were going to the Mexican border, he replied he did not know a thing about it. He said the men at South Framingham know nothing about the order except what they read in the newspapers. The lieutenant said the Lowell "rookies" are getting along finely and making rapid progress in the military art. They are a good class of boys and very willing to learn the war game.

PRIVATE OF CO. M, 12TH INFANTRY, ATTACKED AT NOGALES, ARIZ.

NOGALES, Ariz., July 7.—Private Charles Nelson, Company M, 12th Infantry, today is minus a left hand, which was blown off last night in a mysterious explosion which followed, he said, an attack by two unidentified persons. The surgeon who attended him said that nothing less than the explosion of a bomb, stick of dynamite or point blank discharge of a double barreled shotgun could have caused the injury.

MAN - EATING SHARKS

SUMMER RESORTS ALONG NEW JERSEY COAST ESTABLISH PATROLS

ASBURY PARK, N. J., July 7.—Summer resorts along the New Jersey coast established motor boat patrols today to protect bathers from man-eating sharks. The boats' crews are armed with rifles.

The action was taken by resort proprietors as the result of the death of two bathers, one yesterday and one Sunday, who were attacked by the big fish, unheard of heretofore in these waters. Some beaches are being enclosed with wire netting.

ORPET MURDER TRIAL

DEFENSE RESTED CASE—PROSECUTION FAILS IN ATTEMPT TO RECALL DEFENDANT

WAUKEGAN, Ill., July 7.—The defense, after introducing documentary evidence bearing on the Wisconsin statute governing the sale of poisons rested today in the case of Will H. Orpet, the college student, charged with the murder of Marion Lambert.

Attorney David Joslyn of the prosecution said that he wanted Orpet recalled for further cross-examination with regard to Celestia Youker, the young woman to whom he was reportedly engaged.

James Wilkerson and Ralph F. Potter of the defense objected and Judge Donnelly ruled that the defendant could not be recalled.

FOR MILITARY TRAINING

NATIONAL EDUCATION ASSOCIATION FAVORS INSTRUCTION IN SCHOOLS

NEW YORK, July 7.—The National Education association went on record today as assenting to military training in schools providing that "military" ends should not be permitted to govern the educational purposes and practices of the school. This is a change of attitude. Last year the convention came out flatfootedly against such training.

BUCKLEY NOT CONVICTED

John Buckley, who was arrested by the police of this city for the Lawrence case on a charge of larceny of a horse and wagon, the property of Henry Schonland of Lawrence, was arraigned in court in the down river city yesterday and entered a plea of not guilty.

Inspector Tobin, who was the prosecuting officer, when questioned by the court, stated that he had not seen the outfit and that the owner had not identified it, and accordingly the court was at a loss to understand how the man could be convicted. The case was continued for a day, pending the time the Lawrence police will come to this city to identify the horse and wagon.

ESSAY PRIZE WINNERS

PHILADELPHIA, July 7.—The National Municipal league announced today that the first prize offered by it to high school students for essays on "Keeping the Highways Clean" was awarded to Carroll Stansbury of the McKinley high school, Washington, D. C. Wellington G. Nicola of Attleboro, Mass., received honorable mention.

RECEPTION TO HUGHES

BRIDGEHAMPTON, N. Y., July 7.—Charles E. Hughes, the republican presidential nominee, and his wife went to Roslyn, L. I., today, where they were to be tendered a reception by the woman's auxiliary of the Hughes alliance. The reception was held at the home of Mrs. Harry Payne Whitney, a member of the executive committee.

The 60-mile trip was to be made by motor.

Four Mexicans were convicted of highway robbery in the superior court at San Diego, Cal., recently, by a jury composed of twelve women.

WOOLLEY DIRECTS DEMOCRATS' NATIONAL PUBLICITY CAMPAIGN

ROBERT W. WOOLLEY

Robert W. Woolley, director of the United States mint, is the newly appointed head of the democratic publicity bureau. Mr. Woolley will not relinquish his office to give his entire time to the campaign until Aug. 1. Just now Mr. Woolley is busy supervising the sculptors' models for the new coins. Mr. Woolley said that he expected the democratic campaign book to be completed by the middle of August, which would be two weeks earlier than in the campaign four years ago. Mr. Woolley is a Kentuckian by birth and a Virginian by residence and is forty-five years old. He was formerly a newspaper man and was the chief of the democratic publicity bureau in 1912 and editor of the campaign textbook, and his good work in the 1912 campaign won for him the well deserved recognition of reappointment this year. In 1911-12 he was the chief investigator of the Stanley committee which probed into the affairs of the United States Steel corporation. Before becoming director of the mint he was auditor of the treasury for the interior department.

DEATHS

LAVALLÉE—Cleophas Lavallee, an old resident of this city, died yesterday afternoon at his home, 636 Lakeview avenue, after a lingering illness, aged 74 years, 4 months, 11 days. He leaves four daughters, Misses Augustine, Aimee and Florida Lavallee, and Mrs. Albert Gauthier, all of Lowell; a brother, Joseph Lavallee of Montreal and one sister, Louise Lavallee, of Manchester, N. H.

SPOUR—Mrs. Alida Ladame Sproul, wife of N. A. Sproul, died yesterday afternoon at her home, 285 A. Boston avenue, Montford Hillside, Mass. She leaves, besides her husband, a son, Donald, a sister, Mrs. E. Shanahan of Beverly, and a brother, Louis Ladame of this city.

BOWMAN—Harold Bowman, aged 2 years, 5 months, child of William and Catherine Bowman, died this morning at St. John's hospital. He leaves one brother, William, and a sister, Mrs. John Lynch, 14 Wamsit street by Undertaker Higgins Bros.

FUNERALS

WATERMAN—The funeral services of Mrs. Mary Waterman were held yesterday afternoon from the rooms of Undertakers Young & Blake. The services were conducted by Rev. Mr. Craig, pastor of the Central Presbyterian church. Miss Laura Gillespie and Mrs. Roy Finch sang "Shall We Meet." Burial was in the family lot in the Westlawn cemetery.

MALHOT—The funeral of Donat Malhot, son of Mr. and Mrs. Ernest Malhot, took place yesterday afternoon from the home of his parents, 92 Acton street, South Lowell. Burial was in the family lot in St. Jean cemetery, under the direction of Undertakers Amodeo Archambault & Son.

GELINAS—The funeral of Mrs. Leon Gelinas took place yesterday afternoon from her home, 736 Moody street. Solemn high mass was celebrated in St. Basil's church, Rev. Arnold Bacon, O.M.I., officiating, and assisted by Rev. Charles Denzot, O.M.I., as sub-deacon. The bearers were Napoleon Gelinas of Springfield, Ludger and Ephrem Gelinas of Lowell, and Eugene and Savard and Philippe Fortin. Delegations from St. Anne's and the Third Order of St. Francis societies were sent. The parish, of which deceased was an old member, were in attendance at the services. Burial was in the family lot in St. Joseph's cemetery, where Rev. Charles Denzot, O.M.I., read the committal prayers. Undertakers Joseph Albert & Son had charge of funeral arrangements.

HOBBS—The funeral services of Miss Georgie L. Hobbs were held yesterday afternoon at her home at 124 Main street. Many relatives and friends gathered to show their deep regard. Rev. Milton V. McAllister officiated as clergyman, and funeral selections were sung by Mrs. Bertha L. Greely and Mrs. Estelle F. Hyde. Burial was in the family lot in the Gibson cemetery. A. L. Stevens, foreman, and R. L. Fletcher, organist of the Methodist church, were in charge, and C. Winthrop Hobbs and Samuel Hobbs were the bearers.

ROSSIGN—The funeral of Louis Rossign took place this morning from the home, 53 Fifth avenue. High mass of requiem was celebrated at St. Joseph's church at 8 o'clock by Rev. C. A. Paquette, O.M.I. The bearers were Victor and Raoul Rochette and Dewey and Amodeo Archambault, Jr., where was in St. Joseph's cemetery, where Rev. Fr. Paquette, O.M.I., funeral arrangements were in charge of Undertakers Amodeo Archambault & Son.

To wed a man she never saw, Viola Kleckner recently left Sunbury, Pa., on a 7000-mile trip to Seward, Alaska, where she will become the wife of James M. Foley, a mining engineer.

MATRIMONIAL

Joseph A. O'Brien, formerly of Lowell but now of Springfield, brother of D. S. O'Brien, the well known clothier of Merrimack street, was married recently in Springfield, to Miss Rose Lyons, one of the best known organists of that city. Mr. O'Brien is assistant manager in the Springfield store and both he and his wife are popular in Springfield circles. The happy couple are now on their wedding tour at the close of which they will reside in Springfield.

FUNERAL NOTICES

BOWMAN—The funeral of Harold Bowman will take place Sunday afternoon at 2 o'clock from the home of Mr. and Mrs. John Lynch, 14 Wamsit street. Burial will take place in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers Higgins Bros.

VAINE—Died in this city July 5th, Miss Hannah Vaine, aged 30 years and one month at her home, 265 Salem street. Funeral services will be held at 2 o'clock Saturday afternoon at 2 o'clock. Friends are invited without further notice. Burial private. Police omit flowers. The funeral arrangements are in charge of Undertaker George W. Healey.

SUN BREVITIES

Best printing: Tobin's, Asso. Bldg. Auto supplies, Beharrell, 23 Middle st. Jos. M. Dineen, cameras, photo supplies. With R. E. Jodoin, 411 Merrick st. Miss Grace Murphy of 18 Franklin street and Miss Conley will spend the next two weeks at the Ocean house, Revere beach.

The trustees of the City Institution for Savings on July 7th, declared a regular semi-annual dividend of 4% at the rate of 4% per annum, payable to depositors on and after July 31st, 1916, amounting to \$199,610.

Elmer R. Hill, a cadet at the Naval academy at Annapolis, is enjoying the summer cruise of the students and for the past several weeks has been in Cuban waters. He is aboard the Wisconsin.

Mr. and Mrs. Joseph Martin of 5 Garnet street have just observed the 30th anniversary of their wedding. Their friends assembled at their home a few evenings ago and presented them a purse of money. Refreshments and the usual good time followed.

A large number of women of Ellaria responded to the appeal of Mrs. Joseph F. Talbot yesterday afternoon and assembled at Thomas Talbot Memorial hall, where they made bandages and other hospital necessities for the Red Cross society. It was agreed to hold two meetings each week for this purpose.

The druggists are to join with other local stores next Thursday and enjoy a day at the beach. As it is impossible to send a branch of the city's business to be suspended for an entire day the stores will be open during the forenoon and close about 11 o'clock. Nantasket beach is the spot selected for this year's excursion and the committee in charge promises a good time to all.

CHARGES AGAINST OSBORNE WHITE PLAINS, N. Y., July 7.—Notwithstanding that Thomas Mott Osborne has been reinstated as warden of Sing Sing prison, District Attorney Frederick Weeks will, he said today, take every legal step to bring him to trial on the charge of immorality.

This accusation remains technically part of one of the two indictments brought against Mr. Osborne last November in connection with his administration of Sing Sing. One of these bills charged perjury and the trial resulted in acquittal.

U. S. FORMALLY ACCEPTS

Continued

D. C., for burial in Arlington cemetery. The body of Lieut. Henry Adair is being held here awaiting instructions from relatives for its disposal. It is expected the bodies of the seven troops brought from Carrizal will be buried at Arlington.

CONNECTICUT RECRUITS

ORDERED TO THE BORDER

CAMP HOLCOMB, Natick, Conn., July 7.—An order from Maj. Gen. Wood, commanding the department of the east, to Major E. A. Shuttleworth, U.S.A., the camp commander, today was to the effect that all recruits in camp here who pass the physical test should be sent to the southwest beginning Tuesday next.

REPORT THAT VILLA IS

AGAIN SOUTH OF PARRAL

SAN ANTONIO, Tex., July 7.—General Pershing reported to General Funston today that a rumor had reached him of Francisco Villa's re-appearance south of Parral. The report placed the estimate of Villa's men at from 500 to 2000.

U. S. REGULAR RESERVES

CALLED FOR FIRST TIME

WASHINGTON, July 7.—The war department was busy assembling for the first time in history the United States regular army in reserve of four thousand or five thousand enlisted men recently retired from active service but still subject to call in case of "war or emergency." Announcement was made last night that these men would be summoned to assist in organizing additional regular army units about to be formed under the new national defense act.

On the other hand a material diminution of National Guard forces for border duty was in prospect as a result of Secretary Baker's order authorizing discharge from service of guardsmen with dependent families.

The series of conferences between Counselor Polk of the state department and Eliseo Arredondo, Mexican ambassador designate, for which the forthcoming note doubtless prepares the way, may extend beyond the question of protecting the border against future bandit raids and go into the need of the Carranza government for financial support. This possibility created considerable interest here. It was regarded as an indication that the United States wishes to assist the neighbor republic to establish order. There was no thought, however, that the question of first importance in diplomatic discussions would be anything except protecting the border.

"VIVA GRINGOES!" CRY FOOD

RIOT LEADERS IN MEXICO

FIELD HEADQUARTERS IN MEXICO, July 5.—Via Radio to Columbus, N. M., July 6.—Starving Mexican women shouting "Viva Gringos!" have stormed the governor's palace at San Luis Potosi, according to reports received today by Gen. Pershing.

Food riots, the reports to the American commander said, are occurring in all the larger Mexican cities. At San Luis Potosi the government's supply of ground corn for distribution has been exhausted.

The gold paid to the natives by Gen. Pershing's men for supplies and labor is said to have increased the discontent of many Mexicans.

GUAYMAS, MEX., July 5, by Radio to

San Diego, Calif., July 6.—Women are leading bread riots in interior towns of the west coast Mexican states, according to reports received here today.

CARRANZA DECLARES JULY 9

A PUBLIC HOLIDAY

MEXICO CITY, Mex., July 7.—As a corollary to his last note to Washington, declaring the United States to be settling difficulties by accepting the mediation of South American republics, Gen. Carranza today issued a decree declaring Sunday, July 9, a public holiday in commemoration of the centenary of Argentina independence.

The decree said that the holiday was declared as a token of friendship for the people of Argentina.

MANY MEXICAN SOLDIERS

KILLED IN TRAIN CRASH

LAREDO, Tex., July 7.—Nearly 100 Carranza soldiers were killed and many injured in a rear-end collision which occurred June 29 between two north-bound troop trains at Catorce station, between San Luis Potosi and Saltillo, according to Mexican passengers arriving here last night from the south.

The wreckage caught fire, according to the report, incinerating many of the soldiers.

Two Cuban girls—Miss Marie Dolores Escanaveiro and Miss Agatha Karanaskas—who graduated from the Philadelphia College of Pharmacy this year, will open a drug store upon their return home and will be the first female druggists on the island.

THE FRENCH MAID SAYS

Hot Weather Cooking

"Many wants to go away for a month and I think she ought to have a vacation. But I am sure I don't know what I am going to do about the work while she is gone," sighed Marie as she languidly came in to Marie for comfort.

"It is too bad it comes in hot weather," sympathized Marie. "It is really no fun to cook in the atmosphere of a hot kitchen while the mercury is at blood heat, and the only possible alternative seems to be cold meals and a dissatisfied family. Even in summer most men appreciate a warm substantial dinner after a hard day at the office far more than a glass of milk and a chocolate éclair or a fruit salad, though these edibles are not to be despised in their places.

But really there is no excuse for either an overheated, tired out house-mother, or a cold dinner and a cross father these days when electric appliances are so moderate in cost and nearly every house or apartment is supplied with electricity. With a very modest supply of these labor saving implements the problem of summer cooking may be solved to the satisfaction of everyone in the family. These implements are not luxury, but as much a part of the household equipment as the kitchen sink or the vacuum. They are a little costly at first, but once installed soon pay for themselves in a dozen different ways.

If you cannot have all of the splendid labor and heat saving contrivances at once, I do hope that you will at least put in one or two of them this summer. Of course, if it were possible, I should recommend the electric range for every kitchen. With such an apparatus it is possible to cook all day without heating the room. However, if this cannot be managed, there is the splendid little hot plate, as compact and convenient as any code could wish, with one, two or three burners, as may be required. Then there is the electric table range that is a wonder and costs comparatively little. With it one can prepare the meal on the dining table, fill in the faintest way possible, serving chops, potatoes or muffins piping hot and deliciously brown and appetizing.

CARD OF THANKS

We, the undersigned, take this means for extending our appreciation to our relative friends and neighbors for the acts of kindness, words of comfort and beautiful floral tributes. All will be held in loving remembrance.

Mrs. Mary Lees,
Mrs. Elizabeth Lee,
Mr. and Mrs. Lot C. Goddard and family.

ATTACKING THE STRONG

If any proof of the strength of President Wilson with the masses were needed, it would be afforded by the methods of those who oppose him. The lines of the campaign have not yet been clearly defined, but it is generally admitted that there is no great issue and that the result shall be determined on personalities rather than on principles. Realizing that the administration is proof against attack and that the extraordinary burdens of the past few years imposed unusual burdens on the government, the opponents of President Wilson have trained all their guns on the person of the president, and during the campaign he shall be placed in a light as unfavorable as can possibly be thrown upon him.

In this respect the co-operation of Theodore Roosevelt shall prove very convenient for Judge Hughes who has always kept himself above personalities in politics. He would be untrue to his record and to his reputation should he prove grossly unfair to an opponent, but he is lined up with a defeated candidate who is not any too nice in his methods of dealing with a political rival. In the coming campaign Mr. Roosevelt may be expected to do all the mud slinging or most of it, while Judge Hughes can still keep the reserve and dignity that proves his greatest asset. Unfortunately, the great questions that confront the administration are such as to permit of partisan unfairness, and those who attack and criticize President Wilson do not have to commit themselves to their course of action under similar circumstances. They merely pick out what they think weak spots and harp on them as though there was nothing else in the official career of the present chief executive.

Thus far the republican candidate and his supporters act and speak on the assumption that the people are set on the defeat of the present administration. This is surely a fallacy. Americans are thinking more deeply on national questions than ever before, and while the mud slingers harp on personalities the people are stirred over principles. The republican party has no great issue in the campaign and their champions cannot make out a good case, but even so they may soon see how short-sighted a campaign of attack may prove with a people who, when all is said and done, give the president credit for trying to do the best when the best was not easy.

TO THOUGHTFUL PROGRESSIVES

The misguided progressives who were swayed by the appeal of their false leader after the Chicago convention are in a sorry plight, finding it not only difficult but impossible to reconcile their present allegiance with their former principles. They try to explain by saying that they are with Mr. Hughes rather than with his party, and they like to believe that the republican candidate will not be run by the stand pat leaders.

This is a foolish and an untenable position and the sooner the progressives see it the more consistent will be their stand before the country. If they are ready to swallow Mr. Hughes they must be ready to enter his party, heart and soul, and consequently they must renounce the party and the principles they have fondly cherished and paraded with so much pride. Mr. Hughes is first and last a republican and he cannot succeed unless he has the full support of his party leaders—the very men whom the progressives protested against. He has given the progressives no pledge and if they follow him they are simply republicans of the same brand as the republicans who were in the party before the first Taft-Roosevelt split. There is no progressive party officially or otherwise, and the former progressives are either republicans or democrats at the present time. Any progressive who still thinks he is true to his principles and who is with Judge Hughes is doomed to disappointment.

Drawing an apt comparison between a situation in Germany and that of the progressives in this country at the present time the Hartford Times says:

The only parallel to this collapse of a party of liberal aspirations is the case of the German progressives. After a campaign of ten years of eloquent speeches and the compacting of a party of three million voters, the social democrats went over to the autocrats, with a few notable exceptions, and helped prosecute a war which puts off for years the reforms they incessantly desired and strengthened the party they opposed. The difference is that the German progressives deserted their leader, Liebknecht, the American leader deserted his party.

Possibly there are some progressives who do not mind being under the republican banner again, but let them give up this talk of progressive ideals. The real progressives who cannot so easily surrender their principles belong in the democratic party, to which many of their most sincere leaders are turning.

TAKING ADVANTAGE

While we have been singularly free from the hoodlumism of other years in the celebration of Independence day this year, we have not been altogether immune. In at least two instances

plate glass windows of stores were broken, one by a bullet and the other by a torpedo. In each instance there is little doubt that the damage was deliberately done, through a perverted sense of celebrating. In Bridgeport, Conn., a shot was fired at random into a large crowd gathered to witness a fireworks display, immediately killing a woman onlooker. Instances like this could be multiplied ad infinitum, proving that any popular excitement is seized upon by the hoodlums as an opportunity to do harm. The chances of escape at such time are many and unfortunately it is very difficult for the authorities to apprehend the guilty. The activities of pickpockets and sneak thieves during festive days is too well known to need elaboration and police departments everywhere strive to anticipate it by taking unusual precautions.

With regard to the firing of bullets at clocks and windows, none but those with an abnormal moral sense would commit such offenses, but they should be guarded against, and one way to do it is to be more strict in the selling of firearms. "Children and fools should not handle edged tools" says the old proverb, and the same is more true of guns in this our time. There is altogether too much liberty in permitting foreigners and others to carry revolvers around as though they were a kind of harmless toy, and so long as we have this condition we shall have the many tragedies and offenses to which it gives rise. The man who would fire a shot through a costly plate glass window will in time fire a shot at some unfortunate person and each recurring instance should be looked upon as a new incentive to corrective effort on the part of the authorities.

SUMMER PLAYGROUNDS

The opening of the various summer playgrounds will be welcome news to those hundreds of parents who live in daily dread of street accidents. Talk as you will and watch children over so closely they will play on the most dangerous streets and unless there is an attractive substitute, warnings will have little avail. Every year the attendance at the summer playgrounds has grown and there can be no doubt of a liberal patronage this season. The children learn a great deal in organized play and in the many crafts taught, but the moral influence is still more beneficial. Taking advantage of the safe and sane surroundings the teachers have a fine opportunity to impress on children the value of caution and if the home lessons are supplemented by the lessons of the playgrounds there may be diminution in the number of deaths and serious accidents among Lowell juveniles. The opening of the proposed playground on Davidson street should not be long delayed as no section has suffered more through the lack of facilities for healthful and protected play. It seems too bad that the suggestions for a public bathing place have not yet been acted on, but this, too, must come in time.

THE GREAT OFFENSIVE

A million shells a day for five days! That is one estimate of the amount of ammunition now being used by the French and English in their vigorous attacks on the German line in the west. That it has been effective is evident, but whether in a degree commensurate with the effort only time can tell. For the first time there is a general allied offensive on all fronts and the Germans are hard pressed to keep their lines intact. They have been driven back at some points for a considerable distance and if the struggle can be kept up by the allies, it must have a far reaching effect. Experts have said that neither side can win a great victory in the west, but it now looks as though the side that can pay the price can produce the results. Unquestionably the allies have a tremendous advantage in men and munitions but it remains to be seen whether they will wage a war that must exact a terrible toll from the attacker as well as the attacked. One thing is certain: Whatever the future may hold for the allies, the day of the great German offensive is over and from now on Germany can only keep on the defensive hoping for the best peace terms possible.

LATE HETTY GREEN

Mrs. Hetty Green is a conspicuous example of a woman who minded her own business, demonstrating thereby a quality that is not generally ascribed to her sex. Shrewd in her judgment, simple in her tastes, retiring in her habits, she lived an uneventful life and amassed a great deal of wealth by methods that are more defensible than those of some of the nation's other millionaires. If she never became popular she was as popular as she cared to become and she saw to it that her wish for a quiet life was respected.

EYES EXAMINED

By experts at the

Caswell Optical Co.

39 MERRIMACK ST.

Nothing is easier than for the post mortem critic to show how she could have done better things with her money, but she followed her own counsel in piling it up and she did not take kindly to suggestions as to how she ought to spend it. She had a good eye for business, had all the friends she cared to make, was a Christian woman and lived her life in her own deliberate way. Those who keep to facts will find little to say about her—and this is as she would have wished.

SEEN AND HEARD

The voters, when the time comes, will probably vote for four years more of sanity and safety.

He Did Telephone

Paris—A court martial at the front. The presiding officer, speaking with a distinctly kindly intonation to the accused:

"Now, now, admit that you telephoned."

"No, my colonel, I did not telephoned."

"If you confess you will only have half the penalty."

"Well, then, yes, my colonel, I did telephoned."

All the court laughed and a nominal sentence was pronounced.

The civilian should not imagine that the use of a telephone is a crime in the French army. To "telephoned" in army slang is to bore a little hole in a full barrel of wine, to fit a rubber tube thereto and apply the mouth to the other end.

Like Fort Hill

"Spooning" in public places in New Rochelle even after dark, if others can see it, must stop. This was the edict of Acting City Judge Bazel of New Rochelle as he fined Peter Arvelli \$15 for loitering in Stenela park.

Miss Julia Gleason of Elmwood, the girl who was with Arvelli, was sent home and advised to be more circumspect.

"I don't care if you spoon in Hudson park or Lovers' lane or anywhere where people cannot see you, but you must not spoon right out in public," said Judge Bazel.

The residents of Stenela park have complained to the police that the park is a favorite place for "spooping" and that youths and maidens of 15 years gather there. Robert Lesser, manager of Hudson park, who placed "spooping benches" near the shore in the park, may plant a hedge behind the benches to protect the young lovers as a result of Judge Bazel's ruling.

Common Sense Holidays

One of the most important uses of general holidays is that of giving rest to the thousands of shut-in city workers. A plan of observation that is most efficient in this direction is certainly one to be sought for. The community gets more benefit from Labor Day (with less business disturbance) than from all the other holidays put together. A common sense readjustment would be as follows:

New Year's first Monday in January.

Washington's Birthday, third Monday in February.

Memorial Day, last Monday in May.

Independence Day, first Monday in July.

Lincoln Day, first Monday in August.

Labor Day, first Monday in September.

Columbus Day, second Monday in October.

For practical reasons, the two homecoming days, Thanksgiving and Christmas, and also election day—could not well be changed. The transfer of Lincoln Day from the shortest month in the year (which also has another holiday) to one of the longest summer months which now has no holiday, would mean a general observance that is impossible under present conditions. Keeping the exact natal day is of comparatively little importance. If this matter could be taken up by the energetic and efficient women of the Consumers League, who have accomplished so much for the comfort of business workers, it would probably not be difficult to have these changes made.

—New York Evening Post.

Why He Isn't Neutral

A house divided against itself is bound to fall. This axiom applies to a certain ruddy-faced conductor on a suburban line. His motorman is a great admirer of the Germans; while the conflict rages across the water, he hunts the papers for some note of German advance and victory. Each success is greeted with a smile, each repulse with a frown. There is no place on the front seat for those who aren't German sympathizers.

But we were talking about the conductor. He was orating one morning

recently about what a great people the Germans were.

"How is it you're a German admirer?" innocently inquired a passenger. "I should think you'd be a neutral. You come from down in the state of Maine, and despite your twenty years up here you've still got that good old down east twang. I can understand the other fellow's German enthusiasm, but not yours."

"Well, you see," the conductor replied, "I get paid for running this car and trying to keep it on time. If I didn't agree with him, we'd have the line hauled up all the time. I'm for the Germans! We got thirty minutes to make the trip, and if yelling for the Germans can help, I'm for the sparks flying from the trolley. I'm for 'em every time!"—Brooklyn Daily Enterprise.

Life's Weaver

I sit today at the loom of life and weave and weave and weave. The warp is laid by hands divine, but the weft is where I grieve. For every moment in every day the shuttle flies through and through.

And the patterns I scheme with the dreams I dream.

Are made up of the things I do. I have naught to do with the warp I tread, the threads that are ready and set.

But my duty lies as the shuttle flies in the fabric I'm weaving yet. Smiles and tears, kind words and fears are wound on the hobbins' wheel. And every thoughtless word is there and every word unkind.

And every act I would fain forget. And the thoughts that were dark and vain.

I view in the fabric of life I weave and see them and see them again. But I sit and weave with an aching heart and a world of intense regret.

And tears fall fast as I view the past and I pray that I may forget. But out of repining and soul recoil I look in the future and see.

My life stretch out in its future plan and a new hope comes to me. I know not the length of the warp I view, I know not my given span. But into the fabric I yet may weave, I'll put the best I can.

Smiles, and kindness, and patient care, unselfishness, service and love. Harmony, sunshine, faith and hope and thus my contrition prove.

When the "throw" shall fall from my nerveless hand and the shuttle lies at rest.

May I hear the voice of the Master say: You've done what you thought was best.

—Wm. J. Robinson.

DISSOLVED BY LANDIS

AMERICAN BILL POSTERS' COMBINE MUST QUIT BUSINESS AS TRUST—DECREE EFFECTIVE SEPT. 1

CHICAGO, July 7.—Judge Landis yesterday entered the formal decree dissolving the Associated Bill Posters and Distributors of the United States and Canada. The decree conforms with the decision he gave two months ago in which he ordered the members of the Bill Posters association to disband and cease doing business as a trust.

The operation of the decree was suspended until Sept. 1. The association is declared to be operated in restraint of trade and is permanently enjoined from continuing as such or entering into any further combinations to restrain the bill posting business in the United States.

The decree prohibits the defendants from agreeing in any way to maintain prices or to agree to limit the number of persons who may engage in the bill posting business, or hinder them in any way whatever. It provides that no competitor shall be restricted in any way from doing business with bill posters who are not members of the defendant organization. The decree further enjoins the defendants from inducing manufacturers of stock or posters not to sell their goods in open competition to any and all purchasers. The government is authorized to recover the costs in the case.

KILLED HIS YOUNG WIFE

JOHN G. WILLIAMS SHOT NIECE WHOM HE WED AND THEN ENDED HIS LIFE

NORRISTOWN, Pa., July 7.—John G. Williams shot and killed his niece, Martha Reynolds, yesterday, and then committed suicide. After the tragedy it developed that the two had been secretly married in Atlantic City a year ago. He was 53 and the woman 27 years old.

The shooting occurred in a bedroom on the second floor of the Reynolds residence at 264 East Elm street. Williams also shot at his sister, Mrs. Jennie Reynolds, mother of the dead woman, but the bullet missed her. When the police arrived at the house they found his victim with bullets through her head and breast. Williams had shot himself in the head.

JAPANESE STEAMER LOST

TOKYO, July.—Japanese authorities think that the cargo steamer Seiko Maru of the Osaka Steamship Kaisha, which left Tacoma for Japan on the first of March, has been lost in mid-Pacific. The steamer chiefly carried munitions of war ordered by the Japanese government. No information as to the exact fate of the steamer is forthcoming.

SCARCITY OF RUBBER

MAASTRICHT, Netherlands, July.—So great is the scarcity of rubber in Germany that \$20 can be earned by the smuggling of a kilogram of it across the frontier. A sign of the pitiable state of things in some sections of Belgium is found in the fact that manufacturers in Charleroi region are having to buy stockings bought up everywhere. Out of these a sort of soap is made for the factory hands and their families.

NEW MONSTER AIRSHIP

BERNE, Switzerland, July.—People living along the Swiss border of the lake of Constance have been greatly surprised over the movements of the new monster-airship, much larger than all other Zeppelins, that has been making trial trips over the lake. The length of this ship is said to be 240 yards, or almost double that of other Zeppelins. The cubic contents is even more than double, 54,000 cubic meters instead of 20,000, and the number of the gondolas is four instead of two. These gondolas are said to be armed with guns, machine guns, and a new kind of air torpedo.

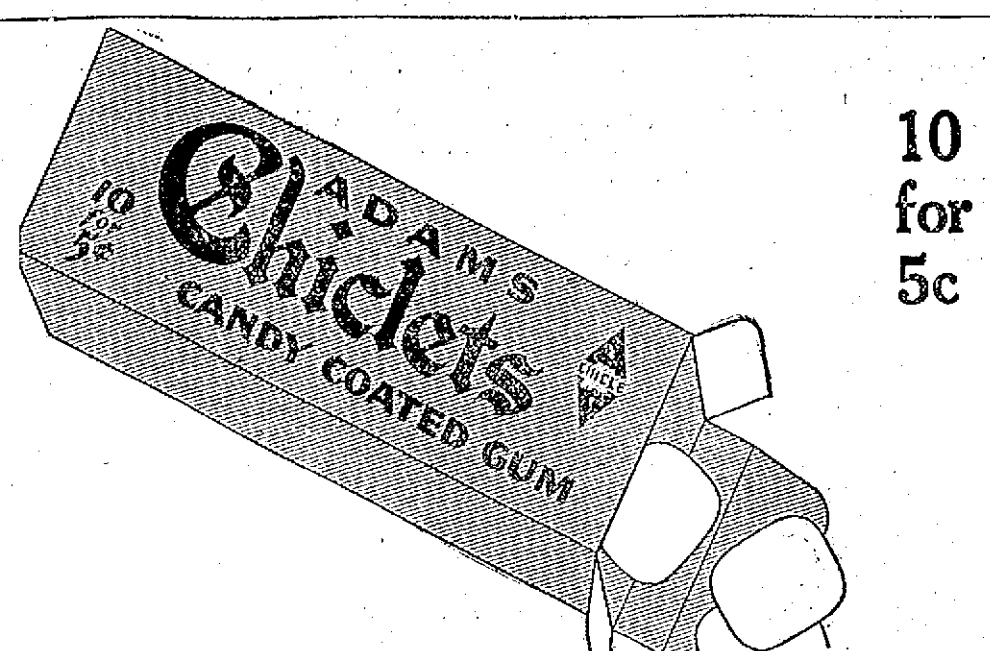

Despite its huge bulk the ship gives the impression of fish-like slenderness. The steering gear forms an exact cross. The motors are 3,000-4,000 horse power, able to give the airship a speed of 20 kilometers an hour. To avoid breakdowns, the motors are in double number. The crew is said to be 30 to 40 men. The ship can reach a height of three to four miles.

FRENCH FRUIT INDUSTRY

PARIS, July.—The minister of agriculture has just organized the French fruit industry, both the increase in production and processes of preserving, so as to compete with other fruit-producing countries.

The recent prohibition of the importation of fruit into France called attention to the fact that while no country is better adapted to the production of fruits, France consumed annually about 60,000 tons more than she produced.

M. Mellin, minister of agriculture, attributes the heavy importations of fruits into France to the fact that, aside from grapes, apples and pears, the French fruit growers generally have not developed as they might have done their method of canning and pre-

I like Adams Chiclets because they like me. Mother says they're just right—candy and gum all in one. I put them in my mouth and let the candy melt. Then I chew the gum. It's dandy, fine gum, too. They are white as can be and sweet—well, I should say so.

AMERICAN CHICLE COMPANY

nie Reynolds, mother of the dead woman, but the bullet missed her. When the police arrived at the house they found his victim with bullets through her head and breast. Williams had shot himself in the head.

The recent prohibition of the importation of fruit into France called attention to the fact that while no country is better adapted to the production of fruits, France consumed annually about 60,000 tons more than she produced.

M. Mellin, minister of agriculture, attributes the heavy importations of fruits into France to the fact that, aside from grapes, apples and pears, the French fruit growers generally have not developed as they might have done their method of canning and pre-

serving, and distribution of preserved fruits. The commission just appointed will be expected to report upon the favorable localities in France for the building of canning establishments and other ways of furnishing a quick market to fruit growers in the regions adapted to fruit culture.

OSBORNE REAPPOINTED

GOES BACK AS WARDEN OF SING SING PRISON—KIRCHWEY RE-SIGNED

NEW YORK, July 7.—George W. Kirchwey tendered his resignation as warden of Sing Sing to James M. Carter, state superintendent of prisons, here last night, and Thomas M. Osborne was reappointed to the office. Mr. Osborne, who retired as warden, after he had been indicted on several counts by a Westchester county grand jury, will resume his duties on July 10, Mr. Carter announced.

ASKS \$5000 FOR A KISS

BOSTON, July 7.—Lora Mae Gibbons, who claims to be under 21 years of age, has entered a suit in the Suffolk Superior court against Gregory S. Mceryack, a Boston dentist, seeking to recover \$5000 for a stolen kiss.

Miss Gibbons says that on July 26, 1915, while the dentist was about to give her a dental examination, he "deprived" her of her freedom, "violently held her down, and against her wishes" and with "force" indecently assaulted her by kissing her.

The dentist lives at 539 Columbus avenue.

Muscle Soreness

Prevent soreness and lameness when playing tennis, ball, golf and other out-of-door sports, by having for instant use Minard's Uniment the effective antiseptic which is pure and stainless, and which is so popularly used by most every one this season.

A Special Low Price for High Grade Dentistry

LOWELL BOY IN TRENCHES

Joseph P. Tremblay With Canadians in France — Tunnelling Under German Trenches

Mrs. Aurelie Tremblay of 19 Brookline street, this city, is in receipt of a very interesting letter from her son, Private Joseph P. Tremblay, a resident of this city, who is now fighting in the French trenches under the Canadian colors. The young man, who has a wife and two children in this city, left here over a year ago and went to Montreal, Que., where he enlisted in the 22d Canadian Volunteer regiment.

hope you are the same. I have just returned from a very enjoyable furlough spent in Scotland, and I wish to state it is the most wonderful country I have visited. I spent five days in Edinburgh and had a great time. The Scotchmen are very courteous to anything to have one feel at home. Upon reaching Edinburgh I met a friend, a young Scotchman and in his company I visited all the points of interest in that city and they are numerous. I was taken through the district which was recently raided by German Zeppelins and one could not imagine what damage was caused if he did not see it. I also visited an old battlefield and at this place I had a photograph taken. I will send you one as soon as I receive them. It is possible that you will not recognize me in this photograph, for I am wearing a full beard, and although I have not as yet reached my 30th year, my whiskers are practically grey.

I returned to the trenches a couple of days ago and now I am in "hell" again. Life in the trenches is not what it is cracked up to be, for we soldiers suffer terribly. The climate is almost unbearable, the mercury marking over 50 in the shade, while it is work and work all the time. Last evening I enjoyed a good sleep, but this morning was awakened bright and early by the thundering cannons. So far I have been very fortunate, for I cannot complain of the slightest injury, while numerous of my companions and friends have given up their lives for their country.

I believe it is safe to predict, moreover, that this brutal war will not be brought to an end until at least another winter is spent in the trenches. I feel, however, that I will return to Lowell some day, for I cannot believe that I am to be killed on the battlefield. My courage and health are good, but am very homesick. I hope you will be kind enough to send me a copy of The Lowell Sun at least once a week if not every day, for I am longing to read about my Lowell friends and what is doing in the good old Spindoo City.

I will now close, for I am very tired and it is quite late. I forgot to tell you that I have been transferred and am now connected with the tunnelling company, that is the company that digs underground. Our mission is to dig tunnels under the German trenches and then blow them up if possible. The work is very dangerous, for we are in the line of fire all the time. I like it for there is great satisfaction in seeing hundreds of Boches fly into the air and land on the ground in pieces. They describe it all for causing all this slaughter. Our work is very interesting and appealing for many of the "boys" have asked to be transferred to the tunnelling company. Remember, we are going to win, but none can tell how long it will take.

Best regards to all and write often. Do not forget to send me The Sun. Your loving son,

Private Joseph P. Tremblay, Third Canadian Tunnelling Co., B.E.F., France No. A 12 730.

If you want help at home or in your business, try The Sun "Want" column.

DROWNED IN MERRIMACK

LITTLE GIRL LOST HER LIFE AT HAVERHILL — BROTHER SAW HER GO DOWN

HAVERHILL, July 7.—Four-year-old Anna Sudol, daughter of Mr. and Mrs. Michael Sudol, was drowned in the Merrimack river late yesterday afternoon. She and several other children, including an older brother, were playing near the county bridge, when she reached over to grasp a rope which moored a boat to the bank, and lost her balance.

Her brother, who was only a year older, was so frightened that he was helpless to aid her or call for help. The other children ran for aid, but before any adult person could be found, the child was drowned.

BOY DROWNED AT CONCORD
CONCORD, N. H., July 7.—Howard Crafts, aged 12, was drowned in the Merrimack river near the public baths at noon yesterday while the swimming instructor was at luncheon. Young Crafts was the son of Mr. and Mrs. Roy Crafts, but had lived with his grandmother, Mrs. Yorke, in this city.

WATERVILLE LAD DROWNED
WATERVILLE, Me., July 7.—Clayton Noyes, aged 18, son of Edward F. Noyes, chief of the Elmwood hotel, was drowned in the Messalonskee stream yesterday, while learning to swim. He was taken with cramps, and when Roy Getchell, aged 16, tried to effect a rescue, he secured a grip on Getchell, which forced the latter to loose his hold. The body was recovered last night.

TENSE STRIKE SITUATION

Haverhill Police Asked to Guard Places of Employment When Strike-Breakers Appear Today

HAVERHILL, July 7.—Strike-breakers will be brought here to take the places of hod carriers and building laborers who are on strike here. As a result of the tense situation, the police were asked to guard various places of employment today.

The Masters Builders' association some time ago agreed to increase the wages of mortar and brick carriers, but declined to recognize the cellar diggers and laborers as members of the union. Yesterday's strike was the result.

Six contracting firms yesterday granted the demands of the union, but five companies are holding out.

Y. M. HEBREW ASSOCIATION
The member of the Young Men's Hebrew association met last night and elected officers for the ensuing term. The contest proved to be a hard one, but the officers were elected as follows: Henry Sokolsky, vice president; Aaron Patersky, recording secretary; Louis J. Blank, financial secretary; Louis Buckbaum, treasurer and William Barilsky, custodian; A. S. Goldman, Sigmond Rosler and Archie Barilsky, board of directors. A public installation will take place at the next meeting.

The following were elected delegates to the Y.M.H.A. convention to be held at Manchester, N. H., Sept. 1-4: A. S. Goldman, Sigmond Rosler, Isaac L. Katze, Aaron Patersky. The alternates chosen were Samuel Perlmutter, Henry Sokolsky, Archie Barilsky and Herman Selzer.

Digest Well Sleep Well

Sanford's Ginger

Helps digestion that goes on during sleep. Intestinal indigestion is a common cause of sleeplessness.

A delicious combination of ginger, aromatic and French brandy for the relief of cramps, pains, colds, chills, weakness, nervousness and indigestion. Look for the Owl Trade Mark on the wrapper, lest you get a cheap, worthless and dangerous substitute. Forty years the standard of purity, flavor and strength. Sold by all druggists and grocers.

SOCIAL AND FRATERNAL

The regular meeting of the Ladies' Auxiliary of the Street Carriers' union, divisions 220 and 651, was held Wednesday night with Mrs. Lowe. The principal business of the meeting was the election of officers for the ensuing six months which resulted as follows: Mrs. William Mahoney, president; Mrs. Oscar Charlton, second vice president; Mrs. W. E. Sprague, treasurer; Mrs. W. E. Sprague, secretary; Mrs. M. E. Sprague, and Mrs. M. E. Sprague, trustees. The lawn party and gentlemen's night held with Mrs. Charlton was reported a success, about 70 being present.

The next meeting will be held with Mrs. Murphy, Hovey square, July 19.

Central Council, A.O.H.
A well attended meeting of the Central council of the Ancient Order of Hibernians was held last night in A.O. H. hall to make arrangements for the state convention, which is to be held in this city next month. John P. Sheehan presided, and it was announced that rooms for the delegates are being provided.

The sessions of the convention will be held in Associate hall and the Ladies' Auxiliary will hold their convention in Hibernian hall at the same time. It was voted that the five divisions of Hibernians hold a grand field day some time during the month of August, and different sub-committees were appointed to make proper arrangements for the event. All reports from the sub-committees in charge of the convention showed much progress in relation to the affair and many forms of amusement for the 500 delegates will be provided. The committee adjourned to meet next Thursday evening.

PROHIBITIVE MEAT PRICES

To show that the prediction of higher meat prices in July is a matter of grave concern, only a brief reference to past figures is needed. From retail prices in forty cities the Statistical Abstract shows sirloin and round steak, rib roast, pork chops, bacon, ham and lard to have risen in price nearly 40 per cent between 1907 and 1914. Hard times and less demand for a few months kept prices stable, but they rose again toward the end of 1915. Now figures for New York show for the same list a further rise which would make the ten-year increase 84.6 per cent. The completed year may show an even greater increment.

As housewives know, pot fowls have not risen in the same proportion. Even here the ten-year increase, on data incomplete for 1916, is 56 per cent. Of other foods, prices have been much more erratic, rising and falling sharply, so that for meat substitutes the outlook is less dark. What appeals in the meat-price movement is that it has been a steady rise, every year of the decade showing its advance.

We may be a long way from meat cards yet, but unless means are found to check the increase the meat diet of millions of Americans will be scarier than in the past.—New York World.

OVATION FOR INDIAN POET
TOKIO, July.—Sir Rabindranath Tagore, the famous Indian poet, who has come to Japan to study the psychology of its people, has received remarkable ovations here. At each place his train stopped he was welcomed by the people. His path was strewn with flowers and garlands were hung about his shoulders. At one town a party of Buddhist priests headed the poet's train and performed a service of welcome, burning incense all the while. The poet will stay several months and as far as possible live a life of seclusion. This will be difficult, for admiration for Tagore and his writings is one of the powerful influences which dominate the Japanese mind and the people have arranged everywhere to show their homage.

CLEAN HANDS

Soap and water are insufficient. Keep nails trimmed and smooth, avoid hang-nails and dead cuticles. Ten minutes twice a week with the proper implements accomplishes all of this. See us.

GEO. RAPSON ARRAIGNED

Will Be Tried for Firing Shots at His Wife—Other Cases in the Police Court

George Rapson, who it is alleged fired several shots at his wife at their home in South Lowell on April 6th, was arraigned before Judge John J. Pickman in the regular session of the police court this morning. He was charged with assault with intent to commit murder, and through his counsel, Haven G. Hill, a plea of not guilty was entered. The court found probable cause of guilt and ordered him to be held under \$2000 bonds for the superior court.

It will be remembered that Rapson and his wife had some family trouble and upon returning home one day he fired several shots at her, most of which took effect and ordered him to be held under \$2000 bonds for the superior court.

Wincenty Sarna was also charged with neglecting his wife and the latter said that her main support was her husband's son, a boy of about 13 years, who had been earning between \$1 and \$2 a week, giving some money to her and some to his father. Sarna convinced the court that he had not been able to work for a long time. He admitted, however, that he is able to work at his trade at the present time and has been able for several weeks. The court after being assured by the defendant that he would go to work and support his family ordered him to pay \$3.50 each week towards her support.

James Ryan and Alex Campbell were charged with drunkenness and disturbing the peace and each entered a plea of guilty. According to the testimony of Patrolman Daniel Lane, the

men got into an argument in the vicinity of Towers corner and after a wordy battle they started to use their fists. The defendants were fined \$3 each on the charge of disturbing the peace and the cases of drunkenness were placed on file.

Alleged Non-support

George Bolivert pleaded not guilty to failing to provide support for his wife, Celina. After the complainant and her husband had offered testimony it was decided to postpone sentence until next Monday, it being deemed advisable to send Bolivert up to jail for a few days in order to re-educate.

Wincenty Sarna was also charged with neglecting his wife and the latter said that her main support was her husband's son, a boy of about 13 years, who had been earning between \$1 and \$2 a week, giving some money to her and some to his father. Sarna convinced the court that he had not been able to work for a long time. He admitted, however, that he is able to work at his trade at the present time and has been able for several weeks. The court after being assured by the defendant that he would go to work and support his family ordered him to pay \$3.50 each week towards her support.

James Ryan and Alex Campbell were charged with drunkenness and disturbing the peace and each entered a plea of guilty. According to the testimony of Patrolman Daniel Lane, the

men got into an argument in the vicinity of Towers corner and after a wordy battle they started to use their fists. The defendants were fined \$3 each on the charge of disturbing the peace and the cases of drunkenness were placed on file.

NEW BRITISH DRIVE

Continued

shelling the German positions and the roads in their rear, and until the infantry again leaves the trenches it will be uncertain where the next attacks are to be launched.

In addition to inflicting losses on the Germans in men, guns and territory, the Anglo-French offensive is reported to have compelled them to withdraw some of their forces from the Verdun front. Consequently it is expected in London that the army which for nearly two months withstood the German attacks in that region will have some relief from continual fighting.

On the eastern front the Russians, who now apparently have a better supply of guns and ammunition than their adversaries, seem to pass from one phase to another without interruption. Gen. Lechitzky's army which conquered Bukovina and cut the railway between Delatyn and Korosmezo, is advancing in an effort completely to overcome the Austrian forces on that front. Gen. Kaledin is continuing to deliver heavy strokes against the Austrians and Germans who are endeavoring to keep him from Kovel. With these operations in full swing, the Russians to the north have inau-

gured an offensive from Riga to Baranovichi. Along the northern end of the line from Riga to Dvinsk, a great bombardment has begun, while from a point east of Vilna, to Baranovichi, artillery preparation was followed by infantry attacks in which the Russians report they made many prisoners, repulsing German counter attacks. Near Smorgon also, the Russians and Germans are engaged in a severe struggle.

Rumania, it is said here, is awaiting some move by the entente forces at Saloniki. The near east is interested in the battles throughout the Caucasus and Mesopotamia. The Russian force which was advancing toward Bagdad has fallen back some 50 miles under pressure from great Turkish forces, but elsewhere from the Black sea to the Persian frontier the Russians are, according to their own statements, more than holding their own. No news has been received recently from the British force in Mesopotamia, but it is believed inactivity has been enforced by the great heat.

TEUTONS LOSE HALF A MILION IN RUSSIAN DRIVE

PETROGRAD, via London, July 7.

Nearly half a million Austrians and Germans have been pushed out of commission since Gen. Brusiloff began his great advance a month ago yesterday. The grand total of prisoners to date is in round numbers 235,000, of which 4600 are officers.

Without the actual figures regarding the dead and wounded, careful estimates by military experts, based on the best information, placed the latter at 200,000 to 220,000. The Austrians predominate overwhelmingly among the prisoners, but among the dead and wounded it is said that a fairly large percentage are Germans. The German losses in stopping the Russian advance on Kovel and in counterattacks made in solid ranks, were enormous.

"Incalculable" Figures

The body captured reaches incalculable figures. It is figured that 250 guns of various sizes and upward of 700 machine guns is a conservative estimate. In addition vast quantities of munitions, supplies and transports have fallen into the hands of the Russians.

The success of Gen. Lechitzky's advance west of Kolomea, where he has cut the railroad into Hungary at Mikuliczyn, is emphasized as a new body blow to the Austrian defense of East Galicia. Northwest of Kolomea his troops are within ten miles of Nadvornia, well to the rear of the Austrian right flank, facing Tarnopol between the Stripa and Zlota rivers.

Threaten German Flank

On the extreme right flank of Brusiloff's front the Russians are viciously attacking the Germans at Czernowitza and Kold. They have broken through several lines of the enemy's fortifications here, threatening the flank of the German positions before Lutsk. These successes have considerably lessened the pressure on the Russian center in that district.

An interesting situation is developing at Baranovichi, where the advancing forces of the Russian offensive have brought their heavy guns within reach of that important railway junction.

RUSSIANS BEGIN TREMENDOUS OFFENSIVE AT THE RIGA FRONT

LONDON, July 7.—The Russians have begun a tremendous offensive on the Riga front where their artillery is destroying the German trenches, says a despatch to the Exchange Telegraph Co. from Vienna, via Copenhagen. The bombardment, the despatch adds, lasted 24 hours and the Germans were helpless before the Russian artillery which can now fire 50 shells as against one in 1914.

AUSTRO-HUNGARIAN WAR OFFICE REPORTS REPULSE OF RUSSIAN ATTACKS

BERLIN, July 7. (By wireless to Sayville).—The text of the Austro-Hungarian war office statement of July 3, says:

"The fighting near Kolomea, (Galicia) was extended. A strong hostile advance west of the town was checked by a counter attack. South of Tlumacz, German and Austro-Hungarian troops broke up with artillery and infantry fire an attack by a large force of Russian cavalry.

"South of Lutsk, (Volhynia) the attack of the Teutonic allies gained further ground. A violent Russian advance was repulsed. A Russian cavalry attack in the Zloczevka district also was a failure.

"Northeast of Baranovichi German and Austro-Hungarian troops repulsed strong attacks for which preparation was made with violent artillery fire.

"Italian front: There was great activity on the part of the enemy's cannon and mine throwers against the Doherd heights, particularly south of Monte Delsedusi. Isolated and severe hand grenade engagements developed in the Marmolada district and on the Austro-Hungarian front between the Brenta and the Adige several attacks of the enemy were repulsed.

"In the vicinity of Monte Interroto, Lieut. Kaiser with a patrol of six men returned from a successful enterprise against hostile machine guns with 256 captured Italians, among whom were four officers. In other places yesterday 15 officers and 366 men were captured."

THE BRITISH CAPTURE GERMAN TRENCH EAST OF LA BOISSELLE

LONDON, July 7, 2.46 p. m.—Capture by the British of a German trench on

a front of 1000 yards east of La Boisselle, in the Somme region, was announced officially today.

The British assumed the offensive on certain sectors east of Albert at dawn today. At the same time the Germans launched heavy attacks on the British trenches near the Ancre. Violent fighting is now in progress.

In the vicinity of Ovillers and Contalmaison, as well as near La Boisselle, the British made progress. In the region of Thiepval the Germans regained a section of lost ground.

"This morning in certain sectors of the battlefield east of Albert we resumed a vigorous offensive at dawn. The Germans at the same time launched heavy attacks on our new trenches in the vicinity of the Ancre and north of Thiepval with the result that violent fighting is now in progress along the whole front between the Ancre and Montauban.

"Up to the present time several important tactical successes have been gained by our infantry in the vicinity of Ovillers, La Boisselle and Contalmaison, but northwest of Thiepval the enemy succeeded temporarily in regaining two or three hundred yards of lost ground."

The operations of last night, before the resumption of the offensive reported in the foregoing statement, are described in an earlier official communication as follows:

"Last night the enemy heavily bombarded our new positions at Bernafay wood and near La Boisselle with German aeroplanes yesterday threw down several bombs on the open town of Lure. Eleven persons were killed and three were wounded. With the exception of one soldier, all the victims were either women or children. This was an act of reprisal for our activity of July 6, when one of our air squadrons threw down with success 10 bombs from the railroad junction at Hém, to the west of Charleville. On the return trip from this point these were the number of engagements with German aeroplanes in which our escorting aeroplanes took part. Two German machines were brought down, one near Metzereux and the other in the region of Lethincourt."

TWO AMERICANS WOUNDED WHEN SHELL WRECKED AUTO ON VERDUN FRONT

PARIS, July 7.—A six-inch shell which burst near the Richard Norton section of the American army, wrecked one of the ambulance cars and fragments of the shell struck the two American drivers. Harry Howard Hollinshead of Sparta, N. J., suffered a flesh wound in the left forearm and Jacob Wendell of New York, formerly a shipyard worker, England, was wounded in the back. None of the French wounded in the ambulance was struck by the shell fragment. The Norton section of the American ambulance was filled with French wounded at the time.

BRITISH SHIP GANNET OF LONDON HAS BEEN SUNK

LONDON, July 7.—The British steamship Gannet of London has been sunk. She was unarmed.

The Gannet was 245 feet long and of 1112 tons gross.

SUBSTANCE OF THE RUSSO-JAPANESE CONVENTION SIGNED ON JULY 3

TOKIO, July 7.—The Japanese foreign office today announced as the substance of the Russo-Japanese convention signed at Petrograd on July 3, the following:

"First—Japan will take part in no arrangement or political combination directed against Russia. Russia will take part in no arrangement or political combination directed against Japan.

"Second—In case the territorial rights or special interests in the far east of one of the contracting parties which are recognized by the other contracting party, are menaced, Japan and Russia will consult with each other on measures to adopt with a view to supporting or extending assistance for the maintenance and defense of these rights and interests."

To a question from The Associated Press representative as to what effect the alliance would have upon the open door and the integrity of China, the foreign office replied:

"The convention is effectively an emphasis upon and an extension of the Anglo-Japanese alliance based upon the territorial integrity of China, whose open door and integrity are not endangered. American trade and interests are in no wise affected."

The foreign office denied affirmations in Japanese newspapers that the convention contained secret clauses. It was stated that while the summary given out was the substance of the convention it also was virtually the text of that document.

"The accord, which is virtually an alliance, is regarded here as of historic importance as it concerns the future development of the far east and world politics generally. It ends a long period of hostility between the two empires which culminated in the Russo-Japanese war, and strengthens the position of Japan as a first class power."

BRITISH STEAMER SEIZED BY GERMAN WARSHIPS NEAR ENGLISH COAST

BERLIN, July 7, via London, 3.05 p. m.—Official announcement was made today that the British steamship Lestriss was held up by German warships near the English coast and seized as a prize.

"The statement says the Lestriss was held up by a portion of the German high sea forces." The announcement follows: "The British steamship Lestriss from Liverpool, has been held up by a portion of the German high sea forces not far from the English coast and seized as a prize."

This German statement is the first indication that a part at least, of the English coast at the time the Lestriss was seized.

"The Lestriss is a steamship of 1381 tons gross, owned in Cork. This is the second exploit of the kind on the part of the Germans. On June 16 the British steamship Brussels was captured by German destroyers and taken with her passengers into Zebruge."

SORTING OF BOOTY TAKEN BY FRENCH BRINGS TO LIGHT CURIOUS FACTS

PARIS, July 7.—The work of sorting the booty taken by the French troops in the fighting at the Somme brings to light many curious facts. In the Mercourt was found a heap of German booty was found completely dismantled. The battery commander's shelter alone remained intact.

The luxury of the arrangements in the German positions on the Santerre plateau showed that they were considerably superior to the positions occupied by the French. The Germans had a piano, a brass bedstead and a complete hot and cold water supply. The greatest booty fell to General Balfourier's famous "Iron Corps" which distinguished itself at Verdun. This corps took enough material to set up a whole army.

QUIET PREVAILED LAST NIGHT ON BOTH SIDES OF THE SOMME RIVER

PARIS, July 7.—Quiet prevailed last night on both sides of the Somme river, says today's war office statement.

The artillery of both sides was active on the left and right banks of the Somme, especially on the Thiepval earthwork and the Fleury and Chenoy sections. A small German attack on the French trenches at the Le Pretre woods failed.

German aeroplanes, the report as-

serts, yesterday dropped bombs on the open town of Lure, killing eleven persons, all of whom except one were women and children. Two German machines were brought down near Metzereux.

The text of the statement follows:

"This night passed quietly on both sides of the Somme river."

"On the left bank of the River Meuse there was an intermittent bombardment last night while on the right bank the artillery fighting became very violent in the vicinity of the Thiepval and Chenoy. At the Le Pretre woods the enemy yesterday delivered a small attack upon one of our trenches, but they were at once driven out of the position where they succeeded in gaining lodgement. In this same sector a surprise attack by us was in all respects successful along a front of 200 yards. Our grenade throwers cleared out the trenches of the enemy and we brought back some prisoners."

"German aeroplanes yesterday threw down several bombs on the open town of Lure. Eleven persons were killed and three were wounded. With the exception of one soldier, all the victims were either women or children. This was an act of reprisal for our activity of July 6, when one of our air squadrons threw down with success 10 bombs from the railroad junction at Hém, to the west of Charleville. On the return trip from this point these were the number of engagements with German aeroplanes in which our escorting aeroplanes took part. Committee of Germans Plans an Honorable Conclusion of Peace

BERLIN, July 7, via London.—Numerous scientists, industrialists and representatives of commerce and agriculture, have formed a German national committee under the chairmanship of Prince von Wedel, says the Koelnische Zeitung with the aim of "awakening a uniform understanding of the German people for an honorable conclusion of peace, which shall guarantee a secured future empire."

"In doing this," says the Koelnische Zeitung, "all one-sidedness is to be avoided."

NO HALT AT CARTRIDGE CO.

REPORT THAT ONE DEPARTMENT WOULD SHUT DOWN WHEN ORDER IS COMPLETED IS NOT TRUE

The United States Cartridge Co. is completing a large order of primers for heavy artillery shells, which were being made for another ammunition company. It was stated this morning that the order will be completed about Aug. 1.

There are about 600 men and women employed in this department, and many feared they would be out of employment as soon as the order is completed, but it is understood that they will all be spared for the company, for as soon as the primer order is finished other work will be started in this particular department.

ENFORCING THE TRAFFIC RULES

Edward Butler of 201 Lewis street, Bridgeport, Conn., owner and driver of a Ford touring car, came to Lowell this morning and was taught a lesson about traffic rules and speed regulations in Massachusetts by Traffic Officer Sheridan.

Mr. Butler and his family were driving through Central street at a fair rate of speed, and when the machine rounded the corner of Merrimack street, the man at the wheel paid no heed to the signals of the traffic officer. The latter rushed to the machine and had it brought to a stop and then gave the chauffeur a bit of advice concerning traffic regulations. The man at the wheel said he knew all about the laws as he was from Connecticut and he did not have time to argue with the officer. He said he was on his way to Newburyport and from there he would ride to the White Mountains and he was not inclined to break any delay.

Officer Sheridan detained him long enough to impress upon him that the laws of Massachusetts are little different from those of Connecticut and he warned Mr. Butler that he will observe the traffic laws in Lowell every time he passes through.

If you want help at home or in your business, try The Sun "Want" column.

F. J. DONAHUE ESCAPED

HE BETRAYED CONFIDENCE OF OFFICER CAWLEY—SKIPPED IN BOSTON

Frank J. Donahue, convicted of complaints charging him with drunkenness, made his escape from Court Officer Peter Cawley while the latter was escorting Donahue and another prisoner to the state farm at Bridgewater yesterday. Donahue is still at large, but the police are confident that he will soon be re-arrested. A capias has been issued for his arrest.

Donahue appeared before the court yesterday morning and pleaded guilty to a complaint charging him with being drunk and owing to the fact that he was on parole from the state farm Judge Enright could do nothing but continue the case until this morning and return Donahue to the state farm. Donahue later changed his plea and said he was not guilty and pleaded with the court to be given just one more chance but Judge Enright told him that he had no jurisdiction in the case on account of Donahue being on parole.

As Donahue was leaving the dock to be taken down stairs he shouted, "I will never serve a day of that sentence."

Yesterday afternoon Officer Cawley took Donahue and another prisoner who was to be returned to the state farm. The other man was manacled to Officer Cawley, but Donahue, who it was thought would walk along peaceably, was not manacled. Upon reaching Boston it was necessary to cross over the city to the South station and all of a sudden Donahue, turning to Officer Cawley, bid him good-bye and made a dash for liberty. The officer was handicapped owing to the fact that he had another prisoner and Donahue made his get-away. It is expected the police will have him back in a day or two.

DEBATE ON REVENUE BILL

WASHINGTON, July 7.—The house today continued debate which started yesterday on the administration revenue bill. Beginning tomorrow the measure will be taken up, section by section, for discussion. A final vote is set for Monday.

Pure Refined Paraffine for sealing jelly glasses, fruit jars; used also for washing clothes, 10c package, 3 for 25c

CRYSTAL STRAINER
For straining jellies, preserves, etc., etc. Three sizes, specially priced at 10c, 25c, 49c

Electric Toasters
\$3.50 Value
The "Electro," complete with cord and plug, specially priced, \$1.98

LOWELL TRIMMED AT LYNN

Bonsack, Who Replaced Green, Failed to Make Good—Lowell Lost Four Run Lead

Special to The Sun
LYNN, July 7.—Kid Bonsack exploded with a loud report yesterday afternoon in the fifth inning of the festivities with Lowell at Ocean park and Lou Pieper's hired men took advantage of his lack of control and his inability to keep the horsehide sphere out of the groove and annexed enough runs to settle the game. Nevertheless, with the one secured in the fourth chapter and another one in the seventh the game was packed away in the Lynn leeches, 8-4.

Lou Pieper sent Frankie Muller, the former Lynn classical field twirler, back to the mound, and after the fourth inning "Dutch" sent the Lowell batters back to the bench as fast as they strode to the platter. Crank's support was not up to major league caliber as the first runs scored off his delivery in the second were the result of a bar chuck by Bobber Conley. Muller pitched a pretty good article of ball and was continually being applauded for his fine work by the 600 spectators in the bleachers.

Paddy Green started for Lowell and lasted until the fourth, when the Lynn players commenced to get to him in good shape. But Kihullen was ready and after two bingles introduced Bonsack, who must bear the loss of the game. Bonsack did not have anything and was hit hard.

Jud Daley and Joe Kihullen were the headliners in the hitting department with three crashes but one of the Lowell's managers went for a couple of hassocks on account of Porter's gallant after a long hold in the first chapter like a navigator. Denoville played a nice game at first, while Bobber Conley and Bobby Prysock pulled off some fine fielding stunts on the left side of the diamond. Daley put down a long home of Torphy's in deep right which was tagged for three sacks.

Kihullen got a double in Lowell's first on Porter's poor fielding, but Lowell failed to score. Daley got a cheap hit when Kane failed to hold his fly after a long run and stole second but could not get to the plate.

In the second Lowell scored three runs. Briggs, the first man up, got a hit when his crash bounded off the pitcher's rubber. Kane slugged into the right field bleachers for a couple of sacks. Torphy hit to left, where the first sack Briggs and the ball rolled to the fence, Briggs and Kane scoring. Greenough fanned and Green filed to Orelut. Stimpson singled and Torphy scored. Kihullen hit to right, but Daley's return peg nailed Stimpson.

Lowell added another and what proved their final run in the fourth. Torphy singled to left, Greenough sacrificed. Green filed to Orelut. Stimpson singled to left and Porter, playing in back of short, made a bad peg to

IS STAR OUTFIELDER

HAL CHASE BEING USED IN GARDEN BY MANAGER HERZOG—IS A VALUABLE MAN

When Charley Herzog signed Hal Chase for the Reds, many persons who professed to know asserted the one-time Yankee star was too temperamental to play for the high-strung Marylander, and that he would disrupt the harmony which then obtained among the Herzog tribe.

But the Highland chief, eager to win a pennant for the citadel beyond the Rhine for the first time in the history of the National league, did not hesitate. He knew that Hal wasn't the rough as a major leaguer. To be sure, Chase hadn't shown his old form while playing for the Buffeds, but Herzog decided to take a chance on him, and now he is envied by every other manager in the majors.

Hal Chase has come back. He has bolstered up the Red clan where it was weakest, in the outfield. He is a tower of strength to the offense, as well as if the Reds succeed in finishing well up, it is safe to say Chase will have figured prominently in the achievement.

"Why, of course, Hal and I hit it off well together. I don't find anything unusual in playing on the same team with Hal. I know he is a brilliant ball player and that he is perfectly human. He may be temperamental, but so am I."

"I think Hal Chase is the best first baseman in the game today. We are using him in the outfield because Mollwitz's hitting is too valuable an asset to have idle, and Hal is a corking outfielder. Chase is playing the game all the time and for all he is worth, and when a man does that he won't have much chance to go wrong with me."

There appears to be a strong sentiment among the fans in favor of the plan of numbering the players and it is surprising how few of the average spectators can point out with absolute certainty the various players upon the field, especially the members of the visiting club. Certain stars such as Ty Cobb, Tris Speaker, Johnny Evers, Benny Kauff, Walter Johnson, Grover Alexander and others of similar caliber are easily distinguished when the team is in the field. Players of lesser fame, however, are frequently mixed by these spectators who do not attend games regularly and the numbering of each member, both regular

DIAMOND GOSSIP

The crusade inaugurated by the officials of the New York American League Baseball club against the habit of certain spectators in retaining foul balls knocked into the stands and bleachers is already showing satisfactory results. The example made recently by the arrest and fining of a few spectators who refused to return balls that came into their possession has proved salutary and the club is now using fewer balls than was the case before the effort was made to curb the practice.

The officials state that they were forced to take action as a result of the number of baseballs lost during every game played upon the home grounds. It is estimated that close to 3000 balls are used during the season and at \$1.25 each they represented an outlay of more than \$3750 each year. A considerable percentage of these balls are lost in the manner described. While the team is on the road no difficulty is experienced in this direction as the parks of other cities are guarded by regular police and not special officers such as is the case in New York.

Major league baseball clubs have already started their annual tryout of college players who have made good on "carity" diamonds this season. While the scouts of the various leagues have been rather liberal in their recommendations, it is not likely that many of these youngsters will be able to successfully make the leap from the college team to the big league combinations. Both the Philadelphia Athletics and the New York Giants are at present trying out several of the more promising of the varsity recruits and it may be that one or two will stand the test.

The Giants will give Pitcher George Smith of Columbia, Pitcher Way of

Yale and Second Baseman Stafford of Tufts a tryout and hope to develop at least one of the trio before the season closes. Connie Mack has a team master of Tufts in Carroll, former catcher for Tufts, and Butcher Johnson of Tufts working with the team. Other clubs have added a collegian or two to their rosters within the past week or two but owing to the closeness of the race in the two leagues are loath to use them in the play at this time.

Rube Oldring, who obtained his release from the Athletics the other day on a plea that he wanted to retire from baseball owing to poor health, is now being sought by the Yankees. The accident to Gilhooly in Washington on Monday, and Fritz Malsbenden on the disability list, put the Yankees in a bad way for outfielders and yesterday Connie Mack received word from Bill Donovan asking for permission to click with Oldring. Mack informed Donovan that as Oldring had been released by the Athletics club he had no claim on his former star and that he had no objection to the New York club did business with Oldring. Mack, however, informed Donovan that inasmuch as Oldring had secured his release after promising that he was retiring, he did not think the New York club could secure him. Donovan is making a try and he sent an agent to see Oldring at his farm near Bridgeport, N. J.

A report from St. Louis that John McGraw has offered the Cardinals \$15,000 for Slim Larry Saltee was denied vehemently by John E. Foster, secretary of the Cardinals. "Yes, McGraw would give something for him," said Foster. "Anybody would be glad to have Saltee on his team, but as for that \$15,000 story—no chance! I don't know just what sort of an offer McGraw would make now or has made for the southpaw, whether players or money or both. I haven't discussed the thing with him at all lately. Don't worry about any \$15,000, though. There's nothing in that pipe dream."

and we might as well stop it now as later."

HORSE RACES TOMORROW
The races planned by the Lowell Driving club for the afternoon of July 4 and postponed because of the rain will be held at Golden Cove tomorrow afternoon. The program arranged for July 4 was a corker and inasmuch as several new features have been added it is expected that the entertainment Saturday afternoon will be the best ever. The program includes out-of-town horses and the piece of resistance will be the free-for-all. This race will take in some of the very best horses in this section of the country.

HERZOG TO JOIN CLUBS
CHICAGO, July 7.—Charles Herzog, manager and shortstop of the Cincinnati Reds, is to become a member of the Chicago Nationals, according to a story published here today. The cash price to be paid for Herzog is not given, but it is said to be a large amount and one or two players.

MOTOR BOAT CLUB
ANNUAL ILLUMINATION TO BE HELD ON MERRIMACK ON JULY 20TH

The annual illumination and celebration under the auspices of the Lowell Motorboat club will be held on the evening of Thursday, July 20, that is if the weather is favorable. The decision was reached at a meeting of the club held last night at the headquarters of the organization in Pawtucket street.

In previous years the carnival has

been held earlier but owing to the high water it was deemed advisable to make it later this year. The annual illumination is an event which attracts large numbers of spectators to the river above the Pawtucket falls.

This year's event promises to be the best ever held by the club. The boathouse and grounds will be illuminated by incandescent lights and Japanese lanterns. Four prizes have been offered for the most attractively decorated craft.

The river pageant will probably start shortly after 8 o'clock, and following there will be a supper or luncheon served members and invited guests in the club house. The committee in charge of the arrangements comprises Commodore James H. Walker, Daniel Shannahan, Rodney Moore and H. C. Gay.

AMATEUR BASEBALL
The U. S. Cartridge shop office boys accept the challenge of the Universal Seconds for a game for tomorrow at 2 o'clock but wait the contest to be played on Walsh's field owing to the late hour the office boys finish their work. The manager of the Universals is requested to call Tel. 4713.

The Pitts' South Ends and the Hutchisons of Lawrence will meet tomorrow afternoon on the South common in what promises to be a fast game.

INVITED TO USE POLO GROUNDS
SEATTLE, Wash., July 7.—J. Arthur Younger, graduate manager of athletic affairs of the University of Washington, announced today that he had received an invitation from John B. Fos-

ter, secretary of the New York National League Baseball club for the University of Washington football team to play on the Polo grounds in New York on Dec. 9.

Foster proposed that Washington play Dartmouth or some other eastern eleven of equal standing. Younger said he would submit the invitation to the faculty committee on athletics.

N. H. CONTINUES EMBARGO
BOSTON, July 7.—The movement of Massachusetts and other New England troops to the Mexican border in conjunction with the heavy summer and Independence day travel has so congested the traffic of the New York, New Haven & Hartford railroad moving by the Harlem river and Maybrook gateways that the temporary embargo issued June 28 to expire at midnight today is to be continued until midnight July 12.

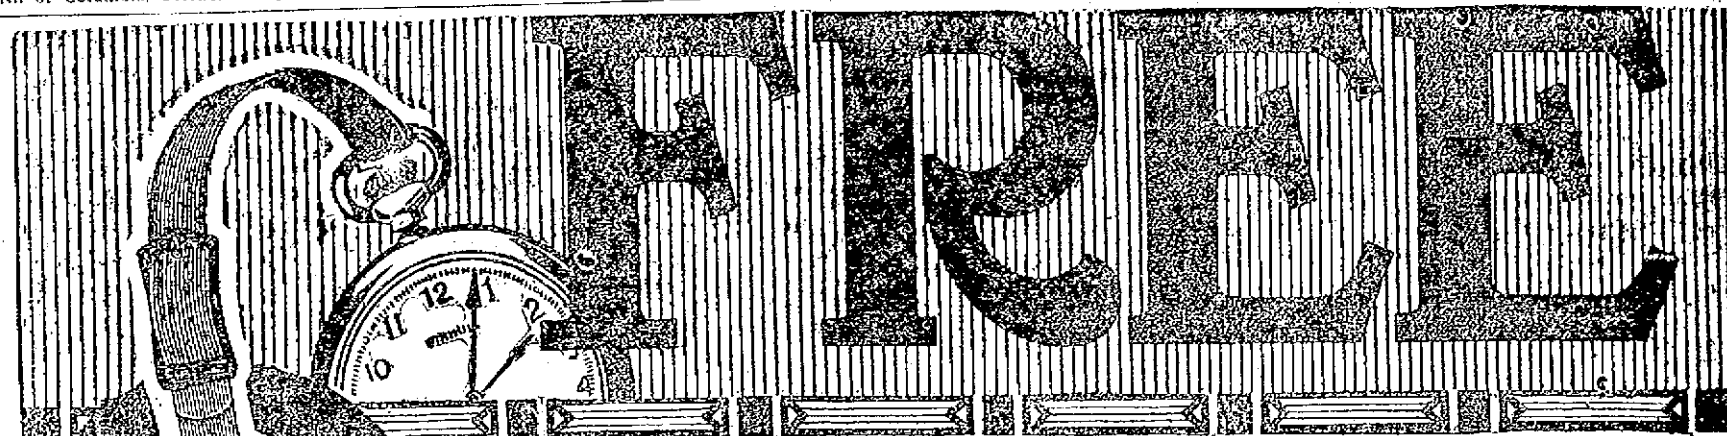

If you want help at home or in your business, try The Sun "Want" column.

(United States)

Great Seal of U.S. Watch Fob Warranted 14-K Gold Plated Rose Finish, Bronze Medallion

Free to Every Purchaser of 10c Worth of Tuxedo Tobacco

Every well-dressed citizen of the United States will take pleasure in wearing this fashionable Watch Fob. It stands for his national pride and loyalty.

The Medallion is warranted 14-K Gold Plated on Solid Bronze. Rich, lustrous, rose finish. Every detail of the Great Seal of the United States is brought out by heavy embossing. Strap is fine, grained black leather with nobby black-enameled metal buckle.

This handsome Fob is a splendid example of the jeweler's art—an elegant, dignified ornate decoration which will induce still more men of the United States to try Tuxedo Tobacco. That is the object of this remarkable offer—the reason we have gladly gone to considerable trouble and expense to have this National Seal Medallion produced for us from specially made dies. (Only one to a customer.)

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made from the very best selected Burley tobacco grown in Kentucky—carefully ripened, cured and aged until it is perfectly mild and mellow. Then treated by the famous original "Tuxedo Process" that removes the last trace of "bite" and bitterness, and develops all the wonderful mildness, fragrance and flavor of the Burley leaf.

The secrets of the "Tuxedo Process" are known only to the manufacturers of Tuxedo. That is why Tuxedo cannot be successfully imitated—and why imitation brands cannot compare with Tuxedo for all-day-long, steady pipe-enjoyment—as a trial will prove to you.

FREE

Take advantage of this Free Offer today and avoid disappointment. Dealers have only a limited supply of these Watch Fobs and cannot get more. Look for Free Offer sign on a dealer's window—get 10c worth of Tuxedo and ask for the Watch Fob Free.

THE AMERICAN TOBACCO COMPANY

We want every dealer in Lowell to be supplied with these "State Seal" Watch Fobs. All dealers who have not yet secured a supply of these Watch Fobs can do so by applying at Tuxedo Headquarters, Richardson Hotel, Phone 108.

and substitute, should increase interest in the game. Certain close followers of baseball have already suggested that the numbering innovation be extended to include the distribution of free score cards, containing concise rules for keeping a box score. In order that every spectator be encouraged to follow the play with a keener understanding of what is transpiring upon the diamond.

There is not the same unanimity regarding the proposed rule to eliminate the pinch hitter and reliever pitcher. Some enthusiasts hold that the idea with certain limitations would improve the game while others are equally positive that it would remove one of the most interesting features of baseball—strategy—which has been developed to a high standard in the big leagues. To those who dwell below the surface of the national sport, the battle of wits between managers and players is keenly appreciated. The switching of batters and pitchers at critical moments of the game frequently develops sensational plays and is in keeping with the American idea of bringing mental effort into sport as well as business.

GAMES TOMORROW

Eastern League
Lowell at Portland.
New London at Lynn.
Worcester at Lawrence.
Springfield at Hartford.
New Haven at Bridgeport (3 games).

American League
Cleveland at Boston.
Chicago at New York.
Detroit at Philadelphia.
St. Louis at Washington.

National League
Boston at Chicago.
Brooklyn at Cincinnati.
New York at Pittsburgh.
Philadelphia at St. Louis.

PRICE ONE CENT

FINANCES OF OUR CITIES

Increase in Net Indebtedness in 156 Having Population of Over 30,000 Was \$147,470,954

WASHINGTON, D. C., July 7.—In 156 of the 204 American cities of more than 30,000, the increase in net indebtedness, due to excess of expenditures for governmental costs, including interest and outlays for permanent improvements, over revenues, during the fiscal year 1917, was \$147,470,954, or \$5.48 per capita. In the remaining 48 cities the excess of revenues over expenditures amounted to \$7,715,139, or \$1.52 per capita. Taking the entire 204 cities as a group, the excess of expenditures over revenues was \$139,755,815, or \$4.45 per capita.

These are among the salient facts presented in a report, financial statistics of cities having a population of over 30,000, 1916, soon to be issued by Director Sam. L. Rogers of the bureau of census, department of commerce. This report, which was compiled under the direction of Mr. Starke M. Grogan, chief statistician for statistics of states and cities, gives detailed data in respect to the revenues and expenditures, the assessments, the taxes, and the indebtedness and assets of the 204 American cities, each of which, on the median date of its last fiscal year terminating prior to July 1, 1915, had an estimated population of more than 30,000.

The aggregate population of these 204 cities was estimated at 31,160,000. They range in size from New York city, with 5,334,000, to Bellingham, Wash., with 30,000. Nine cities—New York, Chicago, Philadelphia, St. Louis, Boston, Cleveland, Baltimore, Pittsburgh, and Detroit—have more than 500,000 inhabitants each; 10—Buffalo, San Francisco, Los Angeles, Milwaukee, Cincinnati, Newark, N. J., New Orleans, Washington, Minneapolis, and Seattle—have more than 300,000 but fewer than 500,000 inhabitants each; 43 range in size between 50,000 and 100,000; and 52, between 30,000 and 50,000.

Revenues

The aggregate revenues of all the cities during the year were \$940,385,311; the aggregate expenditures for current governmental costs, including interest, \$750,555,565; and the aggregate outlays, \$329,555,561.

Of the total revenues, \$641,972,943, or more than two-thirds, represented receipts from the various kinds of taxes. The bulk of this amount, \$570,330,561, was derived from the general property tax, made up of taxes on real estate and personal property. Of the remainder, the largest item, \$39,606,556, was contributed by taxes on the liquor traffic; \$12,741,765 was raised from other business taxes; \$12,598,625 was derived from special property taxes; \$4,402,375 came from license taxes other than on business; and \$1,792,355 from poll taxes.

Next to taxes, the largest source of revenue was found in the earnings of public-service enterprises, which amounted to \$58,553,379. This sum was somewhat more than double the amount of payments for expenses of public-service enterprises, which were \$43,322,511, thus leaving a net revenue from this source amounting to \$15,230,868. The bulk of the earnings of public-service enterprises came from water-supply systems, from which the receipts aggregated \$77,465,503.

Other sources of revenue were the following: Special assessments and special charges—nearly all of which were for outlays—\$19,590,321; subventions from federal, state, and county governments, \$33,594,919; interest on sinking funds, current deposits, investments etc., \$28,715,919; earnings of general departments, \$22,547,201; receipts from highway privileges (principally bus fares), \$15,069,314; fee-service corporations, \$11,256,451; and fines, forfeits, and escheats, \$4,449,351.

For all the cities taken as a group the net per capita receipts from property taxes were \$18.72; from other taxes, \$1.53; from earnings of public-service enterprises, \$3.10; from special assessments and special charges for outlays, \$2.62; and from all other sources combined, \$3.91.

The highest per capita property tax-

es, \$34.87, are shown for Boston; and the lowest, \$4.56, for Portsmouth, Va.

Expenditures

The expenditures during the year for governmental costs, which aggregated \$1,080,144,126, were, in the order of their importance: For expenses of general departments, \$578,206,186; for outlays, \$329,555,561; for interest on indebtedness, \$128,526,885; and for expenses of public-service enterprises (water-supply systems, electric light and power systems, docks, harbors, landings, etc.), \$143,322,511. The expenses of general departments comprised payments for education (schools and libraries), \$181,500,445; for protection to person and property (principally expenses for police and fire departments), \$127,510,291; for highways, \$65,509,363; for "general government" (mayors and executive boards, councils and boards of administration, financial officers, courts, elections, and maintenance of general government buildings), \$65,456,587; for sanitation (refuse collection and disposal, sewers and sewage disposal), \$45,836,906; for charities, hospitals and corrections, \$37,357,505; for recreation (parks, trees, etc.), \$21,358,597; for conservation of health, \$12,535,555; for pensions and gratuities, \$10,541,202; and for other general and miscellaneous items, \$8,335,605.

The average per capita expenditures for all governmental costs, including interest and outlays, in the 204 cities, were \$34.55, and for all governmental costs, including interest but excluding outlays, the average per capita payments were \$24.05. The highest figure shown under the latter head for any one city is that for Boston, \$40.72; and the lowest is that for Norristown, Pa., \$6.53.

For the entire 204 cities taken together, the payments for governmental costs, including interest and outlays, exceeded the revenues by \$139,755,815; but the revenues exceeded the current expenses and interest by \$139,829,745, an amount considerably more than one-half as great as that of the total outlays, which aggregated \$329,555,561. In other words, the 204 cities, taken as a group, are paying, from their revenues, all their current expenses and interest and somewhat more than half their outlays.

Revenues Exceed Expenditures

In all but three cities the revenue receipts exceeded the payments for current governmental expenses and interest, and in 48 the revenues exceeded the total expenditures for governmental costs, including interest and outlays. The largest city in which this condition obtained was St. Louis, where the excess amounted to \$17,373, or 30 cents per capita; and the next largest was Washington, D. C., for which it was \$2,440,399, or \$6.55 per capita. These two were the only cities of more than 300,000 in which the revenues thus exceeded the total expenditures for governmental costs. In the other 156 cities, the following showed excesses of revenues over expenditures: Spokane and Tacoma, Wash., Jersey City, N. J., Dayton, Ohio, Denver, Colo., Birmingham, Ala., and Atlanta, Ga.

Indebtedness

The net indebtedness (funded and floating debt less assets in general sinking funds) for the entire 204 cities amounted to \$2,355,140,392, or \$75.56 per capita. The net increase during the fiscal year for all the cities taken as a group, \$147,470,954, represents approximately the excess of payments for governmental costs, including interest and outlays, over revenues.

The net indebtedness of New York city, \$201,753,559, is nearly two-thirds as great as the total for all other cities of over 30,000 taken together, and is more than nine times as great as that of Philadelphia, which stands second in this respect, with a net indebtedness of \$101,563,626. The per capita net indebtedness of New York city, \$172.82, is greater than that of any other large city; but the corresponding per capita for Philadelphia, \$61.44, is considerably below the average for cities of 300,000 or more.

CARGO OF NITRATE SHIP DASHED TO PIECES

German Ship Discharged. Cargo at New York Valued at \$1,000,000

NEW YORK, July 7.—The German sailing ship *Indra* began to discharge here today a cargo of nitrate from Chile valued at \$1,000,000. When she arrived here bringing the cargo in September, 1914, it was worth only \$125,000, but the demand for the chemical for the manufacture of explosives has greatly increased its price since then. The result is that while lying in this port for nearly two years the value of the cargo has increased \$875,000.

The *Indra* was bound from a Chilean port to Dunkirk, France, when the European war began. The captain headed for New York on learning that war was declared. Consignees of the cargo began litigation to compel him to carry it to Dunkirk, but he declined to take his cargo to sea where it might be captured by British or French warships.

SHIP DASHED TO PIECES

24 MEMBERS OF CREW OF CAROLYN REACH NEW YORK ON RUSSIAN VESSEL

NEW YORK, July 7.—Twenty-six members of the crew of the steamship *Carolyn*, which went to pieces in the ice fields of the White sea on June 19, reached New York today among the 148 passengers aboard the steamship *Czar*, of the Russian volunteer fleet. The *Czar* had an uneventful voyage from Archangel.

The survivors of the *Carolyn*, which is owned in Boston, left New York last winter, bound for Archangel with a cargo of automobile parts, fish plates and rails. The survivors today told of being marooned for four days in the ice fields of the White sea on a wrecked vessel. Just before the *Carolyn* broke in two, the survivors of a Russian ice breaker reached the scene and rescued 25 of the crew. It was said that a score perished.

GREAT FRENCH VICTORY

Solidity of Conquest in Picardy Put to Test and it Has Come Out With Flying Colors

PARIS, July 7.—The solidity of the French conquest in Picardy at last has been put to the test and military men here say it has come out of the ordeal with flying colors, thus again demonstrating the soundness of the Brusiloff method.

The Germans, who managed to gather considerable forces, partly, apparently, from the British front, where the pressure was lessened during the day and partly from depots, delivered a series of violent attacks on two points. The first of these was between Hem and Marcourt and the Clercy road. The second was on the extreme right between Estrees and Belloir, the object being to drive a wedge between the French center and right, where the French line crosses the Somme river from Hem to Foulillers and between the extreme right and the rest of the French front.

The success of these maneuvers would have forced the eventual retirement of the whole French line.

The German reaction, however, came too late. The French, who were bound to strengthen their line, to advance and place in position heavy artillery and to bring up plentiful stocks of munitions. Consequently the attacking wave was caught in a whirlwind of machine gun fire from the trenches and was shot to pieces by the "seventy-fives" while the German supports following and reserves far in the rear were shattered by salvoes from medium and heavy batteries.

The German infantry plodded forward again and again, but now, French reports say, made any impression upon the French lines. Rarely did they even get to grips with the occupants of the trenches which accounts for the small number of prisoners taken. The Germans, say the reports, had striven the whole day without effecting the slightest modification of the situation.

The French remain two and a half miles from Peronne on the south side of the Somme and four miles from that city on the north side of the river and there are no formidable natural obstacles in the way of their occupation of the city when the French command judges the time ripe to advance.

PUBLIC SCHOOLS

What They Might Do to Promote Pan-Americanism

NEW YORK, July 7.—What the country's public schools might do toward promoting Pan-Americanism by teaching a proper conception of the political, economic and social development of Latin-America was called by William C. McAdoo, secretary of the treasury, in an address last night before the National Education association in session here. He declared that upon the teachers lay the ultimate responsibility of making effective President Wilson's policy of securing amity and co-operation among the republics of the hemisphere.

"I do not mean to criticize but simply to record a fact," said Mr. McAdoo, "when I say that the public schools of the United States have not contributed their full share toward inculcating in the youth of the country a proper understanding of the political, economic and social development of our sister republics. It is this lack of understanding that has prevented the growth of a sufficiently enlightened public opinion in the United States with reference to Latin-American affairs. It is this absence of sympathetic comprehension that makes it so easy to mislead public opinion in the United States, and so often to cause unwilling injury to our Latin-American relations."

"American history is taught as if it begins and ends with the history of the United States; American geography is interpreted as if it were the geography of the United States; the study of commerce and industry, the provincial view is too frequently taken that Latin-America is merely a sort of supply of raw material for the United States. Our present lack of understanding is a source of national weakness."

The history of the Spanish-American struggle for independence is a most inspiring record. The obstacles that the North American colonies had to overcome were not so formidable as those which confronted the revolted Spanish colonies. The story of this struggle, if properly presented and interpreted, would make the youth of our country appreciate the similarity of ideals which dominated the founders of the political system of the United States and the leaders of Latin-American independence, and would serve to develop a sympathetic understanding of the political life and institutions of these countries. During the last century the American continent has been the great laboratory of political evolution, furnishing a body of material to the teacher of history and civics which we have hardly begun to utilize.

The development of that true spirit of comradely solidarity with the peoples of Central and South America for which we are striving would be set forward immeasurably if we would give more attention to their language and literature. The teaching of Spanish should be made compulsory in our public schools. At the present time we rarely think of citing Latin-American publicists and scholars. Practically no reference is ever made to Latin-American literature. We pay little attention to the currents of thought of Central or South America; unmindful of the fact that important contributions have been made and are constantly being made in every department of literary and scientific endeavor.

Upon you the task of developing in the youth of the country a broader understanding of the forces that have shaped American history, a keener appreciation of the significance of the development of free institutions of the American continent and a deeper sympathy with the aspirations of sister nations, who, like ourselves, are endeavoring to translate into realities the ideals of American democracy."

LOST IN NAVAL BATTLE

GERMAN TOTAL TONNAGE 100,220 AS COMPARED WITH 112,000 FOR BRITISH

LONDON, July 7.—Two estimates of the total tonnage lost by the Germans in the Jutland naval battle have been made by British officials. The more conservative officials, which included the list of only vessels "seen to sink" and based his estimate on the theory that the battleships sunk were of the oldest dreadnought type, gives the German tonnage lost as 100,220, as compared with a British loss in tonnage of 112,000.

The more liberal estimate places the German loss at 115,220 tons.

JUBILATION IN MEXICO

MEXICO CITY, July 7.—The newspapers print dispatches from Washington saying that the United States government has definitely abandoned "the armed intervention which it had in project." Jubilation is expressed over the statements of Secretary Lansing, which are considered as favorable to a peaceful solution of the difficulties between Mexico and the United States.

MEAT PACKING INDUSTRY

HOUSE JUDICIARY SUB-COMMITTEE CONSIDERS RECOMMENDATION FOR FEDERAL INQUIRY

WASHINGTON, July 7.—Members of the house judiciary sub-committee were considering informally today whether they shall recommend a federal inquiry into the meat packing industry.

The committee had before them a mass of testimony taken during hearings which began in March and ended yesterday on Representative Borah's resolution for an investigation by the federal trade commission of the industry of the cattle producers favored such an inquiry while the packers opposed it on the ground that it would be detrimental to their business. Cattlemen argued that the action was necessary to insure reasonable meat prices to consumers.

TO RESTORE TAPESTRIES

PARIS, July.—Mr. Geyroff, director of the national tapestry manufactory, the Gobelins, says that the restoration of the rare tapestries that were damaged by shell fire at Rheims will be perfect.

Sixty-five wives of mobilized employees of the Gobelins are now employed in the fine-drawing department of the most important tapestries of the church of Saint Rami at Rheims and other rare pieces from the cathedral of Rheims. From the Louvre museum and from the museum of Lyons.

The Gobelins lost 25 of its 56 tapestry makers, five out of six of its laboratory men and half of the rest of the staff by mobilization but new work as well as important repairs has gone on interruptedly.

HELD ON ARSON CHARGE

PROVIDENCE, July 7.—George J. Wheelock, a former Woonsocket policeman, who was indicted on four counts charging setting fires in that city, pleaded not guilty to each charge before Judge Sweeney in the superior court yesterday and was held in \$500 in cash bail.

Wheelock's arrest created a big sensation.

Hairs Will Vanish After This Treatment

(Toilet Helps)

You can keep your skin free from hair or fuzz by the occasional use of plain delatone and in using it you need have no fear of marbling or injuring the skin. A thick mass is made by mixing some of the powdered delatone with water. Then spread on the hairs and after 2 or 3 minutes rub off, wash the skin and all traces of hair have vanished. Be careful, however, to get real delatone.

LLOYD GEORGE WAR LORD

MAN WHO SOLVED MUNITIONS CRISIS IS APPOINTED TO SUCCEED KITCHENER

LONDON, July 7.—David Lloyd George has been appointed secretary for war.

Sir Edward Grey, the secretary for foreign affairs, has been made an earl.

The Earl of Derby, director of recruiting, has been appointed under secretary for war.

The son of a poor Welsh schoolmaster whose every step upward has been the result of his own efforts, has now, at the age of 52, been chosen to succeed at the head of the war office one of the greatest generals England has had in a hundred years.

When Great Britain entered the European war the British government and public alike turned to Lord Kitchener to head the war office. When Lord Kitchener was killed, the British government turned to Lord Curzon, who was then minister of foreign affairs, to head the war office.

With the possible exception of Lord Kitchener, whose personality means so much in recruiting the new army, Lloyd George, as chancellor of the exchequer, has been the most conspicuous figure since the war started.

Although in pre-war days a strong advocate of a reduction of armaments Lloyd George is a born fighter. As a boy, out of from the military profession because of his military abilities, he did not believe in a paid clergy, he decided upon the law, learned Latin from the village schoolmaster and French from his uncle, Richard Lloyd, a shoemaker, who himself had to learn the language before he could teach his nephew. He was articled to a firm of solicitors and began practice at the age of 22, reporting for newspapers while waiting for clients.

He was elected in 1890 to the house of commons, where he became a follower of Gladstone.

At the time of the Boer war Lloyd George became so well known as favoring the Boers through his opposition to Jos. Chamberlain that he was mobbed in Birmingham. But his own constituency, Canarvon Borough, returned him again to parliament. In the Campbell-Bannerman cabinet he was president of the board of trade and made the greatest success of the entire ministry, receiving the plaudits even of the Unionists.

When Mr. Asquith became premier in 1905, Lloyd George was promoted to be chancellor of the exchequer. His first budget, that of 1906, designed to overcome a prospective deficit of some \$1,000,000, a budget which he described as a "war budget against poverty" caused dismay among financial interests and the moneyed classes generally, and the house of lords held it up. The government appealed to the country and was retained in office and the budget was adopted.

Early in the present war Lloyd George told the British public frankly that the expenditure of money and lives would be enormous and that unless the public was ready to pay the price England was doomed. The insatiable supply of modern high explosive shells for the army in France brought on a governmental crisis, which was

BOY OF NINE SENT TO JAIL

WOONSOCKET, July 7.—Philip Bordeaux, aged 9, son of Joseph Bordeaux, 413 Pond street, was taken to the county jail yesterday afternoon because his parents were unable to procure bail for him in a civil case alleging assault upon a girl neighbor. The boy, who is charged with the crime, was taken to the jail on June 5 again, but the public turned to one man as inevitably his successor—David Lloyd George.

With the possible exception of Lord Kitchener, whose personality means so much in recruiting the new army, Lloyd George, as chancellor of the exchequer, has been the most conspicuous figure since the war started.

Although in pre-war days a strong advocate of a reduction of armaments Lloyd George is a born fighter. As a boy, out of from the military profession because of his military abilities, he did not believe in a paid clergy, he decided upon the law, learned Latin from the village schoolmaster and French from his uncle, Richard Lloyd, a shoemaker, who himself had to learn the language before he could teach his nephew. He was articled to a firm of solicitors and began practice at the age of 22, reporting for newspapers while waiting for clients.

He was elected in 1890 to the house of commons, where he became a follower of Gladstone.

At the time of the Boer war Lloyd George became so well known as favoring the Boers through his opposition to Jos. Chamberlain that he was mobbed in Birmingham. But his own constituency, Canarvon Borough, returned him again to parliament. The insatiable supply of modern high explosive shells for the army in France brought on a governmental crisis, which was

THREE BURNED BY ROCKET

FAILED TO GO INTO AIR AT DISPLAY AT WORCESTER PARK—PLAY AT CRITICAL CONDITION

WORCESTER, July 7.—A rocket that failed to go into the air burned three persons, one of them seriously, last night at the city display of fireworks in East Park, postponed from Tuesday because of the rain.

Miss Marion Shays, aged 18, of 185 Russell street, sustained second and third degree burns on her arm and first degree burns on her face and neck, left shoulder, face and neck, right arm and both legs. Clayton Hunt of 172 Russell street was burned on the left side of his face, and Maurice Hutchinson was burned on the hands.

The three and a young woman who escaped injury together were on a hillside above the park watching the display, when next to the last piece fired shot straight into the group. The police ambulance was called, and Police Surgeon Cassels treated the three injured persons and took them home. Miss Shays is under the care of trained nurses, and her condition is considered critical.

BOY KILLED BY ELEVATOR

BOSTON, July 7.—In attempting to board a freight elevator at 29 Albany street yesterday afternoon, Wallace Fermoli, a 15-year-old high school boy of South Boston, was caught between the first and second floors and killed.

SUCCEEDS BOY-ED

ATHENS, via London, July 7.—Baron De Senarolens-Grancy, naval attaché to the German legation here, has been transferred to Washington, where he will take the place of Capt. Karl Boy-Ed. Baron Grancy has been active in the work of refitting submarines in the eastern Mediterranean and directing their movements.

LOWELL MAN AT HEAD

LIEUT. ALEXANDER GREIG, JR., WILL COMMAND NO. CAROLINA TROOPS

WASHINGTON, July 7.—Lieut. Alex. Greig, Jr., of Lowell, has been given command of the North Carolina troops on Mexican service with rank of lieutenant colonel.

TROOPS CULTIVATE LAND

PARIS, July.—The proposition of Mr. Meline, minister of agriculture, to effect cultivation of abandoned land by the civilian population has been extended to the army. While the war is in progress the proximity of garrisons or camps of troops, the auxiliaries and territorials not continually on other service are detailed for several hours' work each day in market gardening. The products are either to be sold for the earning profit of the soldier working the land and the owners or consumed by the troops. Civilians will not be allowed to draw any profit whatever from this exploitation.

Among the civilian groups will be organized similar to the workingmen's gardening societies that existed before the war, to work all lands abandoned by their proprietors in the neighborhood of towns. These will be co-operative and the produce as well as the expense divided equally among the participants.

EARTHQUAKE SHOCKS

NAPLES, July 6, via Paris, July 7.—Several strong earthquake shocks have occurred in the Neapolitan and Calabrian provinces. They are believed to have been connected with the Telluric movement which caused the disaster in the Sicilian sulphur mines.

RUSHED BACK TO PORT

NEW YORK, July 7.—The Norwegian steamer *Jarvold* which left New York late yesterday bound for Nantes, France, with a cargo of sugar, was back at her dock early today. When off Nantucket smoke was discovered issuing from the vessel's forehold. The captain returned with all speed, but upon arrival no evidence of a fire was found.

GERMANS FORCED TO WITHDRAW AFTER TRIPLE DEFEAT IN EAST

U. S. FORMALLY ACCEPTS CARRANZA'S PROPOSAL

Note Handed to Mexican Delegate
—Plans for Call to U. S. Regular
Army Reserves

WASHINGTON, July 7.—A note formally accepting Gen. Carranza's proposal that differences between the United States and the de facto government of Mexico be settled by direct negotiations, was handed today to Eliseo Arredondo, the Mexican ambassador designate.

Secretary Lansing took a draft of the note to today's cabinet meeting and had it delivered promptly after the cabinet adjourned. The course to be pursued already had been agreed upon by President Wilson and his advisers.

Text of Note

The text of the note, addressed to Mr. Arredondo, follows:

"Sir: I have the honor to acknowledge the receipt of your communication of July 1, 1915, in which you transcribe a note addressed to me by the secretary of foreign relations by your government and to request that you will transmit to him the following reply:

"Mr. Secretary: I have the honor to acknowledge the receipt of your courteous note transmitted to me by Senator Arredondo on the fourth instant, in which you refer to my notes of June 20 and June 25, and to assure you of the sincere gratification of my government at the frank statement of the difficulties which have unfortunately arisen in our relations along the international boundary, and the unserved expression of the desire of your government to reach an adjustment of these difficulties on a broad and amicable basis. The same spirit of friendship and of confidence for the continuance of cordial relations between our two countries inspires my government, which equally desires an immediate solution of the matters of difference which have long vexed both governments.

"It is especially pleasing to my government that the de facto government of Mexico is disposed to give quick as well as practical consideration in a spirit of concord to the remedies which may be applied to the existing conditions. Reciprocating the same desire, the government of the United States is prepared immediately to exchange views as to a practical plan to remove finally and prevent a recurrence of the difficulties which have been the source of the controversy.

"Accept, Mr. Secretary, the renewed assurances of my highest consideration.

"I am, sir, yours sincerely,
"Robert Lansing."

BRITISH LAUNCH NEW DRIVE EAST OF ALBERT

Great Battle Raging Along the Entire
Front of British Offensive in North-
ern France — British and French
Successes—Germans Begin to Move
Their Whole Front Toward West
After Triple Defeat in Russia—
German Warships Seize a British
Ship Near English Coast

A German retreat all along the line of the front in Russia from Riga to Volhynia is reported today.

The unofficial news to this effect comes from Petrograd through Rome. It declares that a triple defeat for the Germans in the Riga, Kolki and Baranovitch sectors caused them to begin a movement of their whole front westward.

Russians Capture 7500

Petrograd has recently announced successes in regions mentioned in the Rome despatch. The last report from the vicinity of Kolki, in the crucial Volhynia sector, recorded the capture by the Russians of more than 7500 prisoners, half a dozen cannon and 23 machine guns.

A great battle is raging along virtually the entire front of the British offensive in northern France.

New British Drive

At daybreak the British launched a new drive east of Albert. Important tactical successes were gained in several sectors, London announces.

The Germans simultaneously attacked in force near the river Ancre and north of Ercourt. They succeeded in temporarily occupying two or three hundred yards of ground lost in the earlier British drives.

Successes of British

The chief advantages gained by the British were in the vicinity of Ovillers, Contalmaison and La Boisselle. Near the last named place in an engagement last night a German trench more than a half mile in length was captured.

French Hold Ground

Meanwhile the French, both north and south of the Somme in the field of the great allied offensive, are resting on the ground won in their notable advances of the past week. Efforts by the Germans to break the line now held by the French before Peronne, at one point within two and

SUPPOSED MAD DOG BIT THREE CHILDREN

Great Excitement on First Street
This Forenoon—Bull Dog Ran
Amuck Among Children

There was a mad dog scare and a whole lot of excitement in First street this forenoon when three children were bitten by a bulldog that put in an abrupt and ferocious appearance at No. 64. The dog is now under observation at the police station. He wore a collar without a name. He is light brown in color. Dr. W. A. Sherman, inspector of animals for the city of Lowell, is of the opinion that the dog was affected by the heat and became excited. The dog did not act as if he

CHALIFOUX'S
ON THE SQUARE

THE PRETTY MAID
"Where are you going, my pretty maid?"
"Down to Chalifoux's, Sir," she said.
"Why are you going, my pretty maid?"
"To buy me a hat and suit," she said.
"Where did you get all your money, pray?"
"Oh, you don't need much money, I'm glad to say."
"If you shop at Chalifoux's on the Square."
"You get a lot for a little there."
"And may I go with you, my pretty maid?"
"You may, and you'll be glad you did."
"When you see all the bargains offered there."
So they both went to Chalifoux's on the Square.

INFANTILE PARALYSIS HERE

Case Discovered on Fenwick Street
Today Causes Alarm—Property is
Sold for Taxes—City Hall News

A case of infantile paralysis, the disease so dangerously epidemic in New York city, Brooklyn and elsewhere, was reported by Dr. Marshall L. Alling at the office of the board of health this morning. The victim of the dread disease is Arkoudoula Martacou, aged 1 year, and the place 54 Fenwick street. The child has been ill eight days and it was stated today that two doctors had examined the child before Dr. Alling was called in and that they failed to diagnose it as infantile paralysis.

Nothing would be thought of a case of the disease at this time except for the fact that it is doing such deadly work in other places, for several cases are reported in this city every year and health authorities have been heard to say that all of the cases are not reported to the board of health. The last case reported in Lowell was in May of the present year and several cases were reported last year.

So small are the germs of infantile paralysis that they are not visible under the most powerful microscope and that is why certain health authorities believe a great many cases are not reported. That the germ exists, however, has been proven by inoculations of matter taken from victims of the disease, but the doctors who know very much about the disease are few and very far between.

Sold For Taxes

The sale of parcels of real estate for the taxes of 1914 was continued in the office of the city treasurer this forenoon but after two lots had been sold the sale was postponed until tomorrow morning at 10 o'clock. The lots sold today were as follows: Ward 3—Geo. W. Hall, Jr., 11,495 square feet of land, more or less, on north side of River road, sold to William J. Lambert for \$175. The other parcel was the property of the heirs of George F. Woodward, 5055 square feet of land, more or less, on west side of Totman road, sold to A. B. Lichames for \$570.

Dog Warrants Issued

On Monday next the city clerk will hand over 500 dog licenses to the police and the police will do the rest. These 500 licenses will represent 500 unlicensed dogs. Some of the 500 may have been despatched to the happy hunting grounds, but it will be up to the police to find out all about it, and to summons into court the owners of dogs living and unlicensed. Inasmuch as there has been more or less talk of rabies within the last few days

It is more than ever important that the police should do their duty in this matter. The dog that bit the children in First street this morning, the story of which appears elsewhere, wore a nameless collar and that is as bad as no collar at all.

Snow in Montana

Mayor O'Donnell received a postal card today from Bartholomew Scannell, Jr., who is in Montana on his honeymoon and Lowell's many newlyweds will have to go some to beat Bart's trip. The card was mailed July 2 and Mr. and Mrs. Scannell had ridden 15 miles on horseback to see a glacier. Mr. Scannell stated in his postal to the mayor that there are several feet of snow there and the roads and passes are still closed. He said he indulged in a pitched battle with snowballs and that was going some on July 2. The glacier is 8000 feet above the sea level.

Band Concerts Sunday

Mayor O'Donnell announced today that the Lowell Military band would give a concert at Fort Hill on Sunday afternoon between the hours of 3 and 5 o'clock. There will also be a concert on the Chambers street playgrounds, weather permitting.

Examination for Chauffeurs

Twenty-five applicants for chauffeurs' licenses took the examination at city hall this forenoon. The examinations are given under the auspices of the state highway commission and the examiners today were Messrs. Hubble and Bowman.

**REPORT FROM ROME SAYS GER-
MANS WITHDRAWN FROM
EASTERN FRONT**

LONDON, July 7, 3 p. m.—A wireless despatch from Rome says word has been received there from Petrograd that, in consequence of their triple defeat in the sectors of Riga, Kolki and Baranovitch, the Germans have begun to move their whole front toward the west.

**SECOND PHASE OF GREAT BATTLE
ON WESTERN FRONT
HAS BEGUN**

LONDON, July 7.—The second phase of the great battle on the western front has now begun. The artillery has been brought up to new positions and again is battering the German defenses. The bombardment extends as far north as La Bassée and Arras and according to the latest unofficial advices is particularly intense. British long range guns are

SIX CENT FARES

Bay State Road Debt a
Mystery—Seven Year
Hunt Without Result

BOSTON, July 7.—Diogenes searching for an honest man had nothing on the Bay State Street Railway company searching for the reason for a large floating debt contracted by the company, according to testimony by President P. F. Sullivan of the Bay State company at the six-cent Bay State fare hearing before the public service commission yesterday.

Mr. Sullivan was telling of periods in the company's history when it was in good financial condition. He cited the years 1903 and 1906 as especially remunerative ones; the period following the financial panic in 1907; characterized as "fair" the years 1911 and 1912 and then spoke of the debt of 1912. The company, according to his testimony, was permitted to issue coupon notes for the purpose of taking care of a floating debt. Arthur G. Walsh, counsel for the remonstrants, desired to know what the debt was for.

"We have spent seven years trying to find out," replied Mr. Sullivan, "and we have not been able to."

The president of the road then added that he had never known, and that as far as he knew no one connected with the company ever had, either.

Mr. Walsh next asked Mr. Sullivan the same question he has previously asked Philip L. Salmon, the banker who engineered the consolidation which resulted in the Bay State, as to whether or not, if unwise purchases of trolley roads were made, it was "up to" the public or the stockholders to bear the burden.

"I think the stockholders have borne their share of the burden already," Mr. Sullivan answered.

Mr. Sullivan testified that it was his belief that the 7 per cent asked for in the fare-increase petition was a reasonable request, and one which, even though the public had to pay more, would materially benefit the public in the end.

Before the conclusion of the day's hearing the subjects of workingmen's tickets, movies and parks again entered into the inquiry. All three were held by Mr. Sullivan to be losing propositions as far as street railways were concerned.

HUTCHINS FOR GOVERNOR

DEMOCRATIC SITUATION IN NEW HAMPSHIRE TAKES NEW TURN WHEN JAMESON DECLINES

CONCORD, N. H., July 7.—Chairman George E. Farrand of the democratic state committee announced yesterday that John B. Jameson of Antrim will not be a gubernatorial candidate this year.

Mr. Jameson is in Joplin, Mo., where he has mining interests, and he writes that his business will require his closest attention for the next year. He had been urged for months by many democrats to come out for the governorship. His father, the late Nathan C. Jameson, was the party standard bearer 10 years ago.

Coinciding with the announcement of Mr. Jameson's decision came a statement from John C. Hutchins of North Stratford, a former state senator, saying that he will be a candidate for the nomination for governor.

The time for filing declarations for the primary opened this morning and Secretary of State Bean received Senator Hutchins' declaration in the first mail.

Hutchins is a prominent supporter of Senator Hollis. He ran for the governorship nomination two years ago and was defeated by Albert W. Noone of Peterborough by two votes. Noone is expected to be a candidate for renomination.

BOTH LEGS BITTEN OFF

SPRING LAKE, N. J., HOTEL BELLBOY ATTACKED BY SHARK WHILE BATHING

SPRING LAKE, N. J., July 7.—Attacked by a shark while swimming in the surf here yesterday afternoon, Charles Bruder, a bell-boy in a local hotel, had both legs bitten off and died within 10 minutes after life-guards brought him ashore.

The fatality happened during the afternoon bathing hour and was witnessed by hundreds of guests at the big beach front hotels, occurring directly in front of the New Monmouth, the largest house here.

Because of the low tide, Bruder, who was a strong swimmer, was about 100 feet beyond the outer life line. The guards, George White and Chris Anderson, were watching him because of the distance he was from the beach, when he suddenly yelled for help. At the same minute, a woman on the beach, confused by the bloody water shouted that "the man in the red canoe has upset."

The guards in the meantime had started launching their boat and just as they reached Bruder's side he said:

Big Mark Down Sale of
Trimmed Millinery

IN MILADY'S BOUDOIR

MASSAGING ELBOWS AND ARMS

The following directions for hand and arm massage are an exploitation of the exact process given in the most up-to-date beauty shops in Paris. The first need is cold cream. This formula is unexcelled: Spermaceti, two ounces; white wax, two ounces; sweet almond oil, ten ounces. Melt in a porcelain vessel which has been placed in a hot water bath. When the ingredients are thoroughly incorporated remove from the fire, adding: stronger rose water, three ounces; powdered borax, 40 grains. Fluff to a foam with an egg beater, pouring into small jars just before the mixture is sold.

Bathe the arms and hands in warm

water and with pure white unscented soap, drying thoroughly and frictioning of the exact process given in the most up-to-date beauty shops in Paris. The first need is cold cream. Freckle-Face

Sun and Wind Bring Out Ugly Spots—How to Remove Easily

Here's a chance, Miss Freckle-face to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

palms of the hands and your treatment is completed.

FIGS CONTRABAND OF WAR

ATHENS, July—A large number of Greek exporters and agriculturists have been hard hit by the decision of the British naval authorities in the Mediterranean that dried figs are to be regarded as contraband of war. After raisins, tobacco, olive oil, wine and silver-bearing lead, figs have been one of the principal articles of export from Greece.

If Too Fat Get
More Fresh Air

BE MODERATE IN YOUR DIET AND REDUCE YOUR WEIGHT. TAKE OIL OF KOREIN.

Lack of fresh air is said to weaken the carrying power of the blood, the liver becomes sluggish, the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat. Spend as much time as you possibly can in the open air; breathe deeply and get from A. W. Dows & Co., of Kansas City, Mo., a box of oil of korein. Take one after each meal and one before retiring at night.

Weigh yourself every few days and keep up the treatment. You are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion and even a few days' treatment has been reported to show a noticeable reduction in weight.

RECRUITING IS ACTIVE

ORDERING OF RECRUITS TO BORDER GIVES BIG IMPETUS ALL OVER STATE

BOSTON, July 7.—With the announcement yesterday that the recruits at Framingham were to be moved to the Mexican border Monday, enlisting received an impetus throughout the state.

At every armory more applications for service were received than for any day in the last week. Officers were busy throughout the afternoon, and evening examining the men volunteering for service.

There were 30 enlistments at the Commonwealth armory. Of these 20 were gathered in by Captain Dudley of the new ambulance company. He has reached the peace strength of his com-

pany, and by tonight expects to have enough men to complete the rolls on a war basis.

Seven men were registered at the Cambridge armory of the Eighth regiment, and ten were accepted at the East armory of the Ninth.

The organization of the new ambulance company is a record feat in recruiting. Last Sunday the announcement came that the war department

wanted more ambulance service. Monday the order was verified and signed by Gov. McCall. Today the company will be ready for inspection. Monday it will be sent south, among the first of the units to be moved.

"All we now need is some sort of conveyance," said Captain Dudley yesterday afternoon. "If some patriotically inclined person will give us some sort of a light motor truck we shall be in a position to do rapid service. We are just trusting that good fortune may send along such a vehicle."

Today the applicants of yesterday will be listed, equipment selected and they will be hurried to Framingham, where they will be put through two days of strenuous drill in preparation for the entrainment Monday.

"Henry is now a captain," he said. "Henry has received his promotion."

Lieutenant Adair was to have been made a captain July 1.

Morris Adair, another son, telegraphed to El Paso yesterday, asking that his brother's body be brought here. Father and son probably will be buried at the same time.

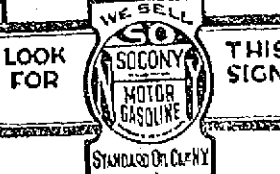

Samuel Adair was in his 50th year. He came with his father to Oregon in 1848 from Louisville, Ky.

SOLOMON

Solomon was wise—like the motorist who waits until he sees the Socony sign before he has his tank filled.

STANDARD OIL CO. OF N.Y.

A QUARTER CENTURY AGO

The remarkable epidemic of infantile paralysis in New York has aroused the civil authorities all over the country to consider the matter of the protection of the children against this disease, and the local board of health was one of the first to give the matter its consideration. Thus far this season there has been no dangerous hot weather and few reports of diseases of children outside of an outbreak of measles. Locally, interest thus far has centered upon finding sites for playgrounds, and having them properly supervised, with a view to keeping children off the streets, and out of danger from accidents during their vacation period, and providing wholesome recreation for them at the same time.

Quarter of a century ago, it would appear from the columns of the old Sun, the danger to children during this season of the year came from cholera infantum, of which there appeared to be an epidemic in the city. Editorials appeared in the Sun, together with communications from local physicians, on the subject of the care of children during the hot weather. At St. John's hospital, the late Dr. Robert E. Bell opened a free children's clinic which was held each Tuesday morning at a clinic, the object being to give special instruction to those living in the crowded districts of the city, whose means did not permit them to freely consult medical advice and suggestions in regard to the food and care of children during the warm weather.

Hard Luck, Willie
Says the Sun of quarter of a century ago:
"Willie Harrington got caught in a cable attached to the engine of flying-horses and was badly bruised. Dr. Jackson attended him."
It would appear that Willie started to follow the horses at a tender age and with his usual hard luck.

Congregational Singing
The Sun of quarter of a century ago on the occasion of the first Friday of the month had lengthy article upon the success of congregational singing, in connection with the evening services on the first Friday at the Immaculate Conception and Sacred Heart churches. It seems that the congregational singing was introduced in this city by the Oblate fathers quarter of a century ago. At that time, according to the old Sun, the congregations were timid about singing, but at the time of the article referred to, the new form of service had become very popular in both churches, and "The Sun" stated that while the first Friday, that year, fell on the "right" here, the fourth, nevertheless, both churches were crowded with young and old at the services.

Admitted to High School
Says the old Sun:
"The successful young people who recently took examinations for admission to the high school, and were reported favorably by the committee were: Mary Crotty, Mary J. Smith, Bernice P. Jewett, Annie T. McLaughlin, Mary D. Boulger, Joseph D. Evans, George F. Lynch, James Gorkin, Nicholas, Francis Quinn. The nine seven scholars from the Immaculate Conception school passed successfully."

Central Labor Union
The semi-annual election of officers of the old Central Labor union, quarter of a century ago was as follows: President, John J. Coyne; vice-president, Alexander Ray; recording secretary, Edward Greenhalge; treasurer, Ambrose Madden; financial secretary, William Rafferty; corresponding secretary, Bernard Roche; and Thomas E. Connolly, James Kendall, William Buckley, Thomas F. Connolly were elected to represent the textile union on the World's Fair commission. To give some of our latter day promoters of sporting events in Lowell an idea of what they used to do quarter of a century ago, it might be interesting to state that quarter of a century ago the Central Labor union had the fair grounds engaged a year in advance for a Labor day celebration. In those days the Caledonian club of this city conducted athletic events that drew the crowds of the fair and near. The Caledonian club wanted to run an athletic meeting on

HEALTH OF WOMEN WRECKED BY IGNORANCE.

A Prominent Brockton Woman's Advice.

Brockton, Mass.—"My mother started to take Dr. Pierce's Favorite Prescription forty years ago, when she was first married, and found it helped her greatly when she was about to become a mother. She had ten healthy children, all natural births, and her advice to her girls when they married was to always keep 'Favorite Prescription' in their homes. Dr. Pierce's book, 'The Common Sense Medical Adviser,' has been our family guide. My mother never failed to refer to it for any ailment and she raised all of her children to manhood and womanhood without ever having to call in a doctor."—Mrs. Mary A. Gervais, 212 Court St.

For every disease or ailment of a womanly character, no matter how recent or long standing, the one sure, reliable remedy of proved merit is Dr. Pierce's Favorite Prescription.

Women should never experiment with unknown preparations; the risk is too great. Dr. Pierce's Favorite Prescription is prepared from nature's roots and herbs and does not contain alcohol.

Women are earnestly advised to take it for irregular or painful periods, backache, headache, displacement, catarrhal condition, hot flashes, sallow complexion and nervousness.

For girls about to enter womanhood, women about to become mothers and for the changing days of middle age Dr. Pierce's Favorite Prescription should always be on hand.

Any medicine dealer can supply it in either liquid or tablet form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for free, confidential medical advice, or free book on Diseases of Women, and 10c for large trial package of tablets.

Dr. Pierce's Pleasant Pellets are the original little Liver Pills. These tiny, sugar-coated, anti-bilious granules—the smallest and easiest to take.

Labor day, but it had no suitable grounds, and accordingly offered the Central Labor union 15 per cent. of the gate for the use of the fair grounds on that day, and guaranteed to give away \$1000 in prizes. The Central Labor union accepted the offer and both made money.

Is With Us Yet
Says the Sun of quarter of a century ago, under the head of "Heard on the Street."

"There's a nice quiet little game of politics going on just now and it is said that another manufacturer would like to have a seat on the water board (take Agent Thomas' place). Manufacturers may come and manufacturers may go, and likewise water boards; but Robert is still doing business in the same old place."

Woolen Weavers Organize
As the result of the passage of the law abolishing fines for defective weaving, quarter of a century ago, the Middlesex Woolen mills, then a prosperous corporation, posted notices abolishing all previously existing contracts with their help and notifying them that henceforth, the wages of their weavers would depend upon the value of the services, that value to be decided by the overseers, and that those who didn't assent to this arrangement might look elsewhere for employment.

As a result of that notice, the woolen weavers of the city, upon invitation of the Central Labor union, met and organized the Woolen Weavers' union, which is in existence today. The preliminary meeting, which was well attended, was addressed by Alex Ray, then of the bricklayers' union, and others.

Set A Good Example
Says the old Sun:

"Through the kindness of Miss Sarah Cahill, the milliner, about 35 orphans of St. Peter's orphanage enjoyed an outing at Lakeview, Thursday. They were accompanied by two of the sisters from the orphanage, Miss Cahill and a corps of young ladies including Miss Minnie Davey, Maggie Smith, Josephine Riden, May Thurston and Miss Donnelly did their utmost to make the day an enjoyable one for the orphans. The return trip was made about five o'clock. The many courtesies extended by Manager Sullivan, Supt. Crowley and Manager Goings of the pavilion added much to the enjoyment of the occasion and was highly appreciated."

Frightened By Dan Lane
Says the old Sun:
"Through fright or excitement caused by the presence of Officer Lane, a woman jumped into the Concord river yesterday and was rescued by Patrick Moran, who is employed by D. Moody Prescott."

Then just as you are trying to figure out what Dan Lane must have looked like quarter of a century ago, the old Sun explains that the woman had just witnessed the drowning of a boy, and had become rather hysterical and when the officer suddenly appeared on the scene, she jumped. Officer Lane was always a mild-looking and mild-mannered patrolman.

AMUSEMENT NOTES

B. F. KEITH'S THEATRE

William S. Hart stands out as the dramatic idol of the moving pictures and no other man appearing on the screen at the present time gets as much applause for his acts as does he. Yesterday in "Hells Hinges" a five-act Triangle play, he appeared at the B. F. Keith theatre, and today and tomorrow the picture will be repeated. Hart has a wonderful jaw, a shrewd mouth and a pair of eyes that concentrate. He also handles a horse, pistol, and a gun, and a good trick with a horse. Once upon a time Gil Anderson was the cowboy par excellence, but Hart has him beaten 10 ways for Sunday. Hart has the advantage of being a mature actor, as well as much of a cow-puncher and a crack shot. Love scenes are not his forte, but he does have the personal magnetism and makes love after a prize-time fashion.

In "Hells Hinges" we run up against an only one, but character sketching. There is the weak-jawed clergyman, made a man of the cloth to suit his mother and not because he wanted to, and who was sent into the wild west to teach men and women to be good. And he went to a maudlin place called "Hells Hinges" where he was to convert the sinners, and this milk-and-water clergyman didn't have a ghost of a chance at making good. He had a sister, but he never saw her, and he was the son of the family, for, true to her name, her faith was the abiding sort, and right off the bat she was "Hells Hinges" the outfit of the town, to a Christian life. "Blaze" would never have been converted by the clergyman, but the minute he looked into the face of the good woman, something he hadn't seen for a long time, he felt there was something in life far better than whiskey-guzzling and far more interesting. So while the milk-and-water clergyman was letting temptation get the better of him, day by day, the former outlaw was taking on a considerable stature through his change of heart. The saloon-keeper, Silk Miller, laid a trap for the clergyman, through the aid of the prettiest girl of the dance hall pack, and got him drunk. Then the hoodlums of the place burned the church. "Blaze" Tracy, however, didn't have his faith shaken, even if the face of God seemed turned away altogether. He simply got stronger in his beliefs, and decided that there was just one way to convert Hells Hinges, and that was to burn it down, to every last dwelling. So he applied the torch on his own account, and the dance hall and the gambling dens and the saloon went up in flames in short order. The little band of Christians of the place was forced into the desert wastes where, after suffering, they brought up at a marvellously fertile land, and where they decided to settle and build a church. And the "Hells Hinges" took the place of the "Blaze" Tracy, the sister of the weak-hearted young minister who had been killed. This is a dramatic picture, splendidly acted.

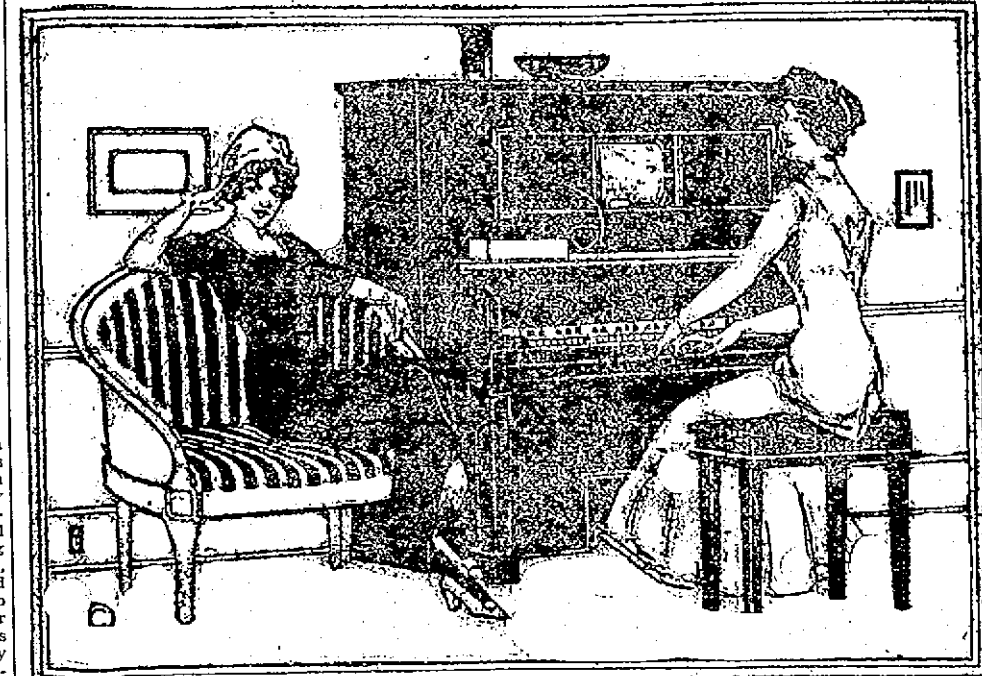

"Wife and Auto Trouble" is the title of a Keystone comedy, with Willie Collier, Mae Busch and Bert Stanton in it. It is funny as a Keystone way, and is the cause of many laughs. "Mutt and Jeff" are on the screen again, and the little of the animated cartoon being "The Foreign Legion." And a brand new news picture, the Hearst-International, is being shown for the first time. There are several other shorter pictures, including the Kalem, "The Bachelor's Alliance."

MERRIMACK SQUARE THEATRE

Many of the patrons who chose yesterday on which to witness the clever dramatic work of Myrtle Stedman in the role of the little model man in the appealing play, "The American Beauty," pronounced this to be her very best motion picture appearance. There is a change about Myrtle Stedman which is indelible and intangible but yet is felt by all who witness her. She does much in this drama to contribute to its great success. Be sure to see this picture at the Merrimack

One of the big advantages of this piano sale to you, the buyer, is the easy terms.

Compare these terms with regular terms

This sale makes it as easy to own as to rent a piano

\$5

per week

The initial payment necessary to obtain one of these pianos is FIVE DOLLARS. The five dollars is deducted from the price—two hundred and fifty-seven dollars—leaving TWO HUNDRED AND FIFTY-TWO DOLLARS to be paid at the rate of ONE DOLLAR AND FIFTY CENTS a week.

This makes seventeen dollars a month you have to invest for music—for at least TWO and ONE-HALF to THREE years.

But buy one of these Behr Bros. pianos during this sale and it will cost you but one dollar and fifty cents a week. Now add the five dollars a month for piano lessons to this amount and you have only eleven dollars a month invested in music. You are still buying and paying for your piano—paying out the same amount of money for musical instruction—and yet you have SIXTY DOLLARS A YEAR LEFT to spend in some other direction.

After reading over this plan can't you see the ease with which you can OWN a piano?

Can't you see that you can OWN a beautiful Behr Bros. piano more cheaply than you can rent the "other fellow's?"

Can't you see the ease with which you can educate your family in music?

Let us show you something: Suppose you bought a Behr Bros. piano, or some other similar high grade piano, in the regular way, paying twelve dollars a month for it. Add to this twelve dollars an additional five dollars a month, at least, for piano lessons.

GET A BEHR BROS. PLAYER PIANO

Fifty of these instruments are Behr Bros. player-pianos, which are also being sold on the same plan.

The usual price of Behr Bros. player-pianos is five hundred to six hundred dollars each.

Our sale price is three hundred and ninety-seven dollars.

The regular payments will be two dollars and twenty-five cents a week—giving you one hundred and seventy-four weeks' time in which to complete your payments.

All of the features of this sale are carried out in offering the Behr Bros. player, with the single exception, that the terms on the player-piano are five dollars and twenty-five cents a week instead of—as on the piano—one dollar and fifty cents a week.

SUPPOSE YOU HAVE come to the point of putting a piano in your home. You start out to look at pianos. In the first store you come to, they will evade the question altogether when you ask the terms on this or that piano. On the other hand, they will question you, with a view of finding just how much you can pay. In other words, they will try to get the highest terms that you will agree to pay.

At the next store you visit—when you have found a piano of grade and quality to compare favorably with the Behr Bros.—you will be asked to pay twenty-five dollars cash and ten, twelve, or fifteen dollars a month. Under NO circumstances will the terms be less than twenty dollars cash and ten dollars a month. In plain truth, the Behr Bros. has sold for years at three hundred and fifty to four hundred dollars and has always brought at least twenty-five dollars as the first payment, and ten dollars a month. Now come to see these Behr Bros. pianos. Look at THEM. There is no uncertainty about the price on these pianos.

The sale price is two hundred and fifty-seven dollars, and it is marked in plain figures on each and every piano.

There is no hesitancy about the terms. They also are plainly marked in plain figures.

This proposition has been carefully THOUGHT out and carefully worked out. The price has been made AS LOW as the most economical selling method will permit.

And the time in which to pay has been made AS LONG as the small profit will justify.

You pay only FIVE DOLLARS as an initial payment which is immediately placed to your credit and insures immediate delivery of your instrument.

This leaves a balance of two hundred and fifty-two dollars to be paid which you are permitted to pay in one hundred and sixty-eight weeks, at one dollar and fifty cents a week.

This is progressive merchandizing. It is a combined effort on the part of the manufacturer and our house to make two buyers where there used to be one, through the strongest incentive known—that of a GREATLY LESSENERED PRICE and GREATLY LENGTHENED TIME in which to pay.

Who Should Take Advantage of This Sale?

(1) Every Sunday School, Lodge, Society, Class, Club or Association, which can use a piano to advantage. An assessment of only a penny or two a week from EACH MEMBER will meet the dues.

(2) Music teachers—even those who may own other pianos, and especially those who are just beginning.

(3) Piano students will find this an exceptionally fine piano, and of greater value in exchange IN PROPORTION TO WHAT IT COST than any other piano in which you could possibly invest.

(4) Young persons, who, through one cause or another, are obliged to buy and pay for their piano if they ever expect to own one.

(5) ANYONE and EVERYONE who is NOW RENTING a piano.

(6) Theatres, moving picture shows and other places of amusement cannot possibly make a better investment than in one of these PLAYER-PIANOS.

(7) Bachelors should put one of these player-pianos in their dens. There are two styles especially suited for their use.

(8) Business and professional men who want to get completely away from their work for an hour or so a day should by all means get one of these beautiful Behr Bros. player-pianos.

CUT THIS OFF, AND MAIL TONIGHT.

The Bon Marche, Lowell, Mass.
Without obligation on my part, mail book of photographs and description of Behr Bros. pianos and player-pianos being sold on this easy plan.

DRY GOODS CO.

Square theatre either today or tomorrow, from Sheridan and Edna Wallace Hopper will surely take advantage of this opportunity to see her on the screen. "The Price of Happiness" is a photo-play of today. It tells in a powerful and vivid manner the story of more than one young girl of today who mistakes money and silk as tokens of absolute happiness, and in order to gain them these girls often-times sell what is dearest to them. This play is one which every woman and girl should see. It is one which teaches a powerful lesson. Showing on the same program with this feature film will be "The Silent Man of Timber Gulch," a gripping photo-play dealing with life in the great woods of the northwest, where law is unknown and where strength and a straight eye are a man's greatest assets. Appearing in the stellar roles are the two famous movie stars, Robert Leonard and Ella Hall. Other excellent attractions will also be presented at the Owl theatre today and tomorrow.

OWL THEATRE
Mary Boland, the dainty, charming and fascinating young Irish colleen, whose wonderful portrayal of character parts is as well known on the stages of Europe as on the stages of this country, has joined the ranks of the motion picture stars and will be seen at the Owl theatre today and tomorrow in "The Price of Happiness," a five-act World film production. This will be the first appearance in this city of this well-known actress, but

CASTORIA

For Infants and Children
In Use For Over 30 Years

Always bears the Signature of *Chas. H. Littleton*

Everybody is rooting hard for the big vaudeville attraction at Canobie Lake Park theatre this week, and will they might, for it's an exceptionally strong one with five big acts as attractions. Every one of the acts could well be termed a feature on any bill, especially Branigan's midjet horses, the equal of which has never been offered at the popular inland summer resort. They prance around the stage in their capers, the merriest troupe of horses

ON MILITARY TRAINING

VOTE DEFINING ATTITUDE OF NATIONAL EDUCATION ASSOCIATION TODAY

NEW YORK, July 7.—Election of officers and a vote defining the attitude of the National Education Association on compulsory military training in public and private schools, were the features of today's final sessions of the annual convention of that association.

Dr. Robert J. Avey, president of the University of Maine, has been named by the nominating committee for the presidency.

The military training question, one of the outstanding issues of the convention, is expected to come before the members in the form of a resolution presented by a committee.

Advocates of military training received encouragement on the eve of the vote from an address delivered last night by Maj. Gen. Leonard Wood. Criticizing the assertion that a military man would "spring to arms between sunrise and sunset," Gen. Wood said:

"We have been sitting up nights for

three weeks to see 30,000 men spring and it is a very heavy spring."

BIG ELM TREE FELL
A large elm tree on the land of the Locks & Canals in Lewis street fell into the street about 9.30 o'clock last night, breaking down a portion of the canal fence and falling across the street. A woman who was wheeling a baby carriage had a narrow escape from being struck when the tree fell.

Nearly 30,000 women are employed in the factories supplying the needs of the army in Germany.

TAX ON GREEN MILLIONS

ESTATE BEING LEFT TO CHILDREN ALMOST ENTIRELY ESCAPES TAXATION

BELLOWS FALLS, Vt., July 7.—A tax of \$1250 is the extent of the fee which Vermont may expect from the estate of millions disposed of in the will of Mrs. Hetty Green, long known as America's wealthiest woman, in the opinion of state and local officials who read the provisions of her will yesterday.

The document, which was filed for probate here after her burial yesterday because the mistress of finance maintained that the old family home in this village constituted her legal domicile, gave practically the entire estate to her son, Col. E. H. B. Green, and her daughter, Mrs. Matthew Astor Wilks.

Only on Requests to Friends

This fact made the bulk of the inheritance exempt, as there is no tax in this state on property willed from parents to children. Mrs. Green's household totaling \$25,000 to friends and other relatives, however, are subject to a 5 per cent. tax, and from this source the state will realize \$1250.

Although the will expressly stipulated that no inventory or appraisal of the estate should be required, it was said yesterday that the extent to which Mrs. Green had developed her birthright might be determined through an order from the probate judge.

Such an order, it was understood, might be issued on request of any immediate relative or an interested public official, but there was no indication yesterday that the state tax commissioner, Charles Plumley of Northfield, or any other official contemplated such a proceeding.

It was suggested that a possible source of such action might be an official of New York state, where the inheritance tax laws would exact a considerable sum from the estate if it were shown to be within its jurisdiction.

Local officials pointed out that Mrs. Green had claimed this village, which is in the town of Rockingham, as her legal residence during the most of the last quarter century. As her domicile for this purpose, she designated the old Green homestead on Church street.

Summer School for Boys AT THE Y. M. C. A.

For Grammar School Boys and Special Students. July 6 to Aug. 15, 5 weeks, \$5.00; to members, \$5.00; after before July 10. Phone 8794, 456.

The residence, of a type now obsolete, has been allowed to fall into disrepair. The bricks covered with faded yellow paint, are crumbling. The piazza framework is rickety tilted at one end. The shutters are closed, but are in effect open, on account of holes caused by fallen slats.

Opened House: Stared Elsewhere

It was to this house that Mrs. Green came annually to establish her legal residence. She caused the doors and windows to be opened during the two or three weeks she remained in the town, but did not enter or sleep within its walls. Instead, she became a guest of friends or, as last year, stayed at a small hotel in a nearby town.

Each year the tax lists of Rockingham placed a valuation of \$20,000 on the homestead, and also assessed a tax on \$100,000 of personal property. Her average tax payment has been about \$2500 annually, minus a discount of four per cent, for payment within 90 days.

Mrs. Green, it was said by town officials, always mailed a check for the amount of the tax promptly, and so saved the allowance. Her relations with the town, they said, were never marred by any dispute over property valuations. The hearing on the will is to be held July 22.

NEW YORK MAY ASSESS TAX

ALBANY, N. Y., July 7.—Officials of the state comptroller's office began an informal inquiry yesterday to ascertain whether New York state is entitled to an inheritance tax on the estate of Mrs. Hetty Green.

If such a tax is collectable it will amount to more than \$4,000,000. The largest inheritance tax heretofore collected by the comptroller's office was \$3,150,000 on the estate of John Jacob Astor. The next largest was \$2,350,000 on the estate of Anthony N. Brady.

The inquiry was begun with a view to learning how long Mrs. Green had lived in New York city with her son, at whose home she died.

The officials pointed out that under a law passed this year a person is deemed to be a resident of this state and as such amenable to its tax law, if he lived or lodged in the state for the major part of the year immediately preceding his death.

MALDEN CLEANEST CITY

BOSTON, July 7.—The big silver cup offered by the New England clean up and paint up week committee was awarded yesterday to the city of Malden by the board of judges, which was composed of Governor Samuel W. McCall, Governor Roland H. Spaulding of New Hampshire and C. F. Weed of Boston, the new president of the Boston chamber of commerce.

The judges met at Young's hotel and examined the reports offered by the many cities. Manchester, N. H., was awarded honorable mention.

ON THE WATER WAGON

GERMANS "HOP ABOARD" AS RESULT OF THE WAR AND WEATHER

BERLIN, July 7.—War, which has worked so many changes in the daily habits of the Germans, has now conspired with warm weather to induce the Germans to drink "soft drinks." Bottles of lemon sour, ginger ale, cream soda and other beverages included under the generic name of "pop" in the United States are beginning to make their appearance on shelves and bars formerly devoted to beer, and the thirsty people are drinking them, not from choice, but because they have to.

It is no longer possible to make enough beer to meet even fairly modest demands of the reduced home population. The majority of the larger beer gardens will not be opened at all this summer, and for some weeks it has been no unusual thing to find some of Berlin's biggest restaurants and beer halls without a drop of beer early in the evening of warm days.

not summer days of some of their territory, but even at best, the supply will be utterly inadequate.

AMERICANS IN AUSTRIA

DISTINCT CHANGE IN FEELING OF PUBLIC OF LATE—GOOD RELATIONS URGED BY PRESS

VIENNA, July 7.—Americans who have lived in Austria for the major part of the war have been delighted to notice a distinct change in the feeling of the public of late, a reversion to the old popularity which Americans always enjoyed here.

The change has been noticeable nowhere more plainly than in the press, which has insisted that good relations and if possible better relations between these countries and the republic are desirable for both sides.

One factor is the emigration question which touches Hungary more acutely than it does Austria. It is a factor that involves some \$150,000,000 a year, for this is the sum that it is estimated is sent back to Hungary annually from its citizens who in normal peace times wander out to America.

So consistently have these emigrants sent back part of their earnings that the government has come to take it into careful account when budget and taxation matters come up each year.

A second factor concerns the bath and cure resorts of Austria, formerly patronized chiefly by the English, French and Russians, and now suffering cruelly from the war and having to exist on none too free-handed and local German patronage. The shrewd owners figure the matter out this way: No matter how the war comes out, it will be a decade before the old peace-time patronage from England, France and Russia can be won back.

Americans, however, they estimate, will all certainly flock to Europe once peace is declared, and they hope that the resorts in Austria can be made to coexist from Americans the huge sums that they formerly drew from other foreigners.

The Austro-American steamship lines constitute a third factor in the friendly relations for the theorists count on an unprecedented influx of travelers to Europe from the United States, an influx that very conceivably may tax to the uttermost limit all existing transportation facilities, and reckon that if Austria-Hungary emerges from the war with the good will of Americans there is nothing to prevent a veritable avalanche of business for steamer lines to Austria, more particularly so if Americans develop a partiality for Austrian resorts.

Austro-Hungarians also do not hesitate to admit that, if this part of the world is to be put back on a normal basis more after the war, huge importations of raw materials are going to be imperatively necessary for a time, and, what is more, an extended credit to cover these importations is going to be almost essential.

Nearly all the nations at war, but particularly Germany and Austria-Hungary, have made remarkable advances in the creation of substitutes for articles and materials that have given out. Many of these substitutes will last far beyond the war, but conservative men among the central powers feel positive that everyone will go back to the old things in use. The fact that substitutes have had to be created is but the way of proving that importation of raw materials is absolutely necessary, and America is the greatest exporter of them in the world.

First and foremost, it is a question that is asked not infrequently whether the monarchy is not going, after the war, if not during it, to need its emigrants to America more than it needs their money. Several army corps of Austro-Hungarians are in the United States, many of most of whom have expressed themselves as willing and glad to come back, but who are unable to do so.

The financial burdens after the war are of course going to be very heavy in Austria-Hungary as in all other countries, and there is also in prospect everywhere a shortage of men for the reconstruction of affairs to a normal state. Whether the emigrants in America by sending their money to help relieve financial burdens can do more for the country of their birth than they could by being here to work for it is a question that has not been settled.

Though no one can say with assurance, prevailing opinion is that certainly for a long time after the war there will be a pull in emigration to America, because of the anticipated need for workers at home. Just as many employers and labor experts in Germany feel that wages there are going to go up or stay up on an attractively high level, so the feeling exists in Austria-Hungary that working conditions here will be such that the inclination to leave will be smaller than ever before. In fact, a return swing in the tide of emigration, bringing back many now in America, is by no means considered an impossibility.

Municipal phone girls in San Francisco receive \$50 a month.

GUARANTEED TO DARKEN GRAY HAIR

permanently with perfect ease and safety. We guarantee all over the world, the only guaranteed hair color restorer, every day and expose it to the sunlight and air—then your hair will gradually become dark again. It is the original uniform dark shade. Absolutely not a trace of gray hair will be left and nobody can ever tell how it happened. Your hair will be much more glossy, lustrous, soft and fluffy than ever before—and fascinating to behold.

The secret of this wonderful change in the color of your hair is mainly brought about by a process of oxidation (oxygen in the air) which results from drying your hair in the sunlight and air after Q-Ban has been applied. Sunlight and air are Nature's own medicines and very important part of the Q-Ban process. Only in this way—with Q-Ban and the aid of sunlight and air—can the color be permanently and safely restored to your hair. Make no mistake about this—all preparations claiming to instantly restore the color to your hair are fakes or treacherous dyes.

Q-Ban is made from a scientific formula of glycerine, sweet, alcohol, ethyle and perfume discovered after years of laboratory study and approved by the greatest chemical experts in the world, including Prof. Von Huber. Everybody uses Q-Ban and they only guarantee liquid hair color restorer that is absolutely free from dangerous, dirty, sticky dyes and paints and we want you to know the fact. Give Q-Ban a trial today—you can't do anything until you try—get it at Kiker-Jay Co., 121 State St., Lowell, Mass. or at a bottle or write Hestis-Edis Drug Company, Memphis, Tenn. Money refunded if not more delighted with the famous Hair Tonic, Hair Shampoo and Toilet Soaps are also made by us. Write for authoritative booklet on hair culture—free.

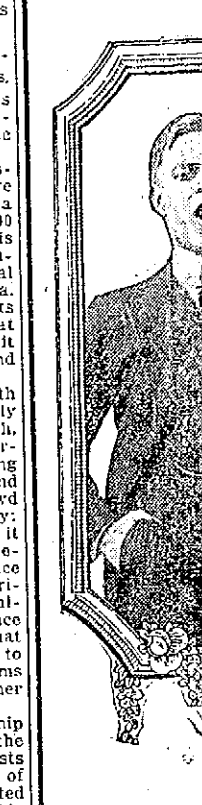

Largest and Most Complete Stock of Edison Diamond Disc Phonographs and Records in Lowell.

The Bon Marche

We have been Licensed by Mr. Edison to demonstrate and sell his new invention.

Over \$20,000.00 Worth of Edison, Diamond Disc Phonographs and Records to Select From.

Open windows and near neighbors are no reason for not asking Thomas Chalmers to sing

Thomas Chalmers

famous baritone of the Boston Opera, singing in direct comparison with Edison's Re-Creation of his voice.

Mr. Chalmers is but one of many great artists who have thus proved that Edison's new art successfully sustains the pitiless test of this astounding comparison.

Hear Edison's Re-Creation of Chalmers' magnificent voice; then hear Chalmers himself when this great baritone is on tour.

We are Headquarters in Lowell for The Edison Diamond Disc

re-creates all forms of music with absolute fidelity. It is not alone the voice of Thomas Chalmers which is so re-created. No voice or form of music is beyond Edison's new art.

Come to Us and Hear Edison's Re-Creation of the work of the world's great singers and instrumentalists. Already there are on sale. Over One Thousand different selections, and other selections are being produced every week.

WOBBURN TAXES DROP

CITY NO LONGER STATES "TAXATION LEMON" — EVERYBODY WORKING, EVEN FATHER

BOSTON, July 7.—Woburn is no longer the state's "taxation lemon." Three years ago the city was the worst of the state for taxation. Today it is among the best. Here are the figures of Woburn's tax rate:

1914	\$26.00
1915	24.50
1916	22.30

The decrease in the tax rate has been effected without the aid of artificial or deceptive means. More than a million in new tangible valuation is largely responsible, and a curtailment in city expenses has helped. This change has been effected notwithstanding that within the last two years Woburn has motorized her fire department and has repaired all her existing ones. All around, Woburn has become a new city, in which everybody works—even father for all the factories and shops, are going full blast.

MRS. WAITE WINS CASE

MARRIAGE TO MURDERER OF HER FATHER ANNULLED BY COURT YESTERDAY

GRAND RAPIDS, Mich., July 7.—A decree of annulment of marriage yesterday was granted Mrs. Clara Louise Peck Waite, wife of Dr. Arthur Warren Waite. The latter is in Sing Sing prison under sentence of death for the murder of his father-in-law, John E. Peck, of Grand Rapids.

Mrs. Waite, in petitioning for annulment of her marriage, alleged that Waite resorted to fraud in obtaining her consent to marry him.

CAMPAIGN FOR RECRUITS

Decided Upon by Nashua Citizens Interested in Filling Vacancies in Local Companies

NASHUA, N. H., July 7.—A meeting of citizens in the board of trade rooms last evening took measures for stimulating the enlistment of men to fill vacancies in the two Nashua militia companies caused by rejections on medical inspection. Pres. Austin of the board of trade presided and speeches were made by Mayor Crowley, Gen. Elbert Wheeler, Lester F. Thurber, James F. Whitney, Arthur Demontigny and others.

It was decided to have a float with 10 soldiers and a tent on the postponed Fourth of July parade Saturday and to open recruiting stations for that day in city hall and at the fair grounds.

LOCAL PASTORS UNITE

MINISTERS OF METHODIST EPISCOPAL CHURCHES ORGANIZE THEMSELVES INTO A UNION

The pastors of the Methodist Episcopal churches in Lowell have organized themselves into a union to be known as the Lowell Methodist Episcopal Preachers' union. Rev. Samuel Dupont of the Central M. E. church has been chosen president and Rev. H. Bailey of the Highland church, secretary.

The purpose is to encourage fraternity and co-operation among the Methodist Episcopal churches of Lowell. It is planned to have frequent and systematic exchanges of pulpits between the pastors. In September, Bishop E. H. Hughes, the new resident bishop for New England, will come from San Francisco to take up his residence in Malden. In every large city in New England the Methodists are planning to give the bishop a public welcome. The local union of ministers is already laying plans for a great reception to be tendered the bishop here.

THE

TROPICAL STORM GEMS WORTH \$5000 GONE

Wild Velocity at Mobile, Ala. — 100 Miles an Hour — Heavy Damage

WASHINGTON, July 7.—The tropical storm which struck the Gulf coast on Wednesday with a yet uncounted toll of lives and property is now over North Mississippi and moving north-eastward with diminished energy. The weather bureau today reported that the wind velocity at Mobile, Ala., during the height of the storm was 105 miles an hour, and at Pensacola, Fla., its velocity was 80 miles. There were torrential rains in Alabama and Mississippi and a heavy general downfall throughout the south as far north as Tennessee.

Reports of the damage done by the storm along the Gulf coast and in Mississippi and Alabama were still meagre today but enough had been established to make it certain the property loss would amount to several millions. Seventeen negroes lost their lives near Beloit, Ala.

VESSELS LOST IN STORM
MOBILE, Ala., July 7.—According to reports reaching Mobile the following vessels were lost or beached in coming into the bay from the Gulf during the recent storm:

Schooner A. L. Mangold, crew saved; schooner Nora, Belle, crew missing; hay packet James A. Carney sunk, and the packet Apollo slightly damaged. Near the wreckage of the Nora, Belle was found the stern of a schooner, the only identification mark being the words "Moss Point."

Reports not confirmed late yesterday said the schooners T. B. Wells, Newport; Koopersmith and Confidential, had gone ashore on the beach. The coast guard cutter Talapoosa was not damaged. She made unsuccessful attempts during the day to reach outside points with her wireless.

HER NAME OMITTED
The name of Katherine Pearl was accidentally omitted from the list of graduates of the Lowell Commercial college.

MYSTERY IN AUTO CRASH

PASSENGERS LEAVE WRECKED CAR IN NEWTON—LICENSE INDICATES BOSTON MAN OWNER

NEWTON, July 7.—The police of Newton are endeavoring to locate the driver and passengers of a large limousine which ran into a car operated by Samuel Webster of 677 Chamber street, Brighton, on Commonwealth avenue, late last night. In the car with Mr. Webster was his wife, but neither were injured by the collision. The other car, with a license number 4783 and listed as owned by Dr. Frederick A. Davis, 895 Beacon street, Boston, is a complete wreck. The accident happened near Hobart avenue. According to Webster's story, the other car, came along the wrong side of the road at a high rate of speed, and hit his running board. He lost control of his automobile, which went over on the trolley track.

The other car, of a powerful type, twisted around and turned turtle. E. K. Joel of 1165 Commonwealth avenue, Boston, and Henry H. White of 312 Massachusetts avenue, Cambridge, ran to the assistance of the passengers. They extricated a woman from the tonneau. The driver was missing. L. E. Blake of Boston came to the assistance of the woman with his car. He took her to Coolidge corner, and there he says she asked to be let off. She thanked him, and disappeared. Dr. Davis' home on Beacon street is closed for the summer.

FOR HYDROPLANE WORK

NAVAL MILITIA TO BE TRAINED IN USE OF THESE IMPLEMENTS OF WARFARE

Special to The Sun
WASHINGTON, D. C., July 7.—A bill for the establishment of an aerial coast patrol in connection with the naval militia of each state and providing for the education and training of aviation was introduced in the senate today by Mr. Johnson of Maine. The measure provides that naval militia of every state—whether inland or coastal—shall be furnished with a suitable course of instruction on hydroplanes, provided there are suitable bodies of water available in that state for operation of water and air craft. The bill calls for \$1,500,000 as an appropriation.

RICHARDS.

ABERCROMBIE APPOINTED

Lawrence Young Man Led in Recent Examination of Candidates for Annapolis Naval Academy

LAWRENCE, July 7.—Lawrence A. Abercrombie, aged 19, son of ex-Alderman John A. Abercrombie, received word last night from Congressman M. F. Phelan of Lynn that having led in the recent examination he had been appointed to the Naval academy at Annapolis. Young Abercrombie is a graduate of the local high school and attended Phillips Andover academy a year.

ALLIES' DRIVE FELT HERE

American Fund For French Wounded Gets Rush Request For Hospital Supplies

BOSTON, July 7.—The extensive drive of the allies now under way in the European war is making itself felt in Boston according to a cable message received yesterday by the American Fund for French Wounded, with headquarters at 305 Boylston street. The message: "Need great. Enormous demand sterilized dressings." A volunteer distributor of the organization's Paris depot tells of visiting a hospital where all the convalescents wore, in place of suits, the gray flannel pajamas sent by the fund. One of these men writes in acknowledgment: "I have been given a garment, light, warm and comfortable, such as I have not seen before. I never saw myself looking so handsome. Since then I inspire myself with a certain respect." "A point of the most recent elegance," "Jean Hudalot." In the last year the fund has sent abroad more than 4000 cases of surgical dressings and hospital supplies.

STOLEN FROM SUMMER HOME OF MRS. DOROTHY KEENE TAYLOR

NEW YORK, July 7.—Mrs. Dorothy Keene Taylor, daughter of the late James H. Keene, financier and horseman, reported to the police today that jewels valued at more than \$5000 were stolen from her summer cottage at Cedarhurst, N. Y., some time late last night.

TO EXPLORE AMAZON

Dr. and Mrs. Hamilton Rice, the former of Boston, Will Make Trip on Yacht

NEWPORT, R. I., July 7.—Dr. and Mrs. Hamilton Rice, the former a noted Boston explorer, are planning to make an extended trip, beginning next fall, through the Amazon river region, exploring the interior after a three months' cruise on the river on a specially built yacht, which is now being fitted out in New York. The trip will cover seven or eight months. Dr. and Mrs. Rice have arranged to take a number of tribesmen from the Amazon on the expedition.

JOE JACKSON'S START

CONNIE MACK HAD HARD WORK TO HOLD MILL HAND PICKED UP IN NO. CAROLINA

Eight years ago a green mill hand from the wilds of North Carolina was picked up by one of Connie Mack's scouts and after a few days of big league experience skipped out of the city, ditching his identity and causing consternation at Shibe park. He was Joe Jackson, today the American league's leading slugger and rival of Tris Speaker for hitting honors in that circuit.

How this youth turned down a big offer and boarded a train for Greenville, his native town, is a story colored with romantic adventure. It is a tale that will interest baseball fans at this time when the mighty bat of this fence-smasher has kept the Sox in the race in the American league, when the club was crippled and tottering from injuries and accidents. Mack, who has a keen eye for diamonds in the rough, watched the work of Jackson closely. According to the story which comes from Harry Davis, Jackson was ill at ease with the Athletics. He wanted to do things as he had been accustomed to do them down in Greenville, where the sun shines bright and warm most of the year. One innovation that Jackson brought to the big league was playing ball in his bare feet.

"What's the idea in playing barefooted?" asked Davis of Joe. "It helps me get a better grip on the ground," replied Jackson.

That was a stunner for Davis because he had to admit that one could get a better hold on old terra firma with his bare feet than with such cumbersome shoes. Jackson was so sure of himself that he spiked shoes would turn the trick, and after practicing with them much he acquired the habit of taking a toe hold on the ground that has made him one of the most feared swatters in all the world of baseball.

Jackson Goes Back Home

One day Jackson was missing in Philadelphia and Mack was greatly worried. He sent scouts to neighboring towns in quest of his wandering player. Finally he dispatched Harry Davis to seek Jackson in his home town.

"Go to — house on — street and you'll find Joe," said a townsman of Jackson.

When Davis approached the house he recognized Jackson sitting in a hammock with his best girl. "I have come to get you and take you back to Philadelphia to the big league," said Davis.

"I'm through with the big league," Greenville is good enough for me," replied Jackson.

Davis told Jackson that Mack would give him \$500 on his return, that he could come back and get married and everything would be lovely. Jackson was finally convinced that he could earn more in the major league than in Greenville and boarded a train with Davis for Philadelphia.

On the way back to Quakertown, Davis was busily engaged reading a paper and failed to watch his charge. Imagine his consternation to find that Jackson had left the train. Mack's sleuth again hustled off the train at the next station and boarded the next train for Greenville. The big league player resigned his fate in the minors and determined to remain in Greenville.

There was only one thing for Davis to do, and that was to arrange a wedding for Jackson and take him and his bride back to Philadelphia. Davis brought Jackson back to the big league, but it required baseball statesmanship of a high order to accomplish the task. Jackson was married and was contented to follow Davis back to the majors. He has never regretted his move.

Connie Mack declares he knew the present slugger, outfielder of the White Sox was destined to become a great player. Just why Mack let this bright star elude him later in a trade for Bris Lord is another story. Suffice it to say Connie wouldn't trade or sell Jackson today for any other player in the big league. Jackson is a devoted husband and is one of the few players in the big leagues who believes in having his better half accompany him on most of his tours around the circuit.

CASE OF TETANUS

A case of tetanus, or lockjaw, is being treated at St. John's hospital. It is reported that the case was the result of a July 4 accident, but it was stated at this hospital that this was not the fact. The patient is 63 years old and his chances for recovery are said not to be very great.

KNOW YOUR CAR

A wise old Greek said "Know Yourself." A more modern adage might be, "Know your motor car." It is equally essential to your well being. There is not an inconsiderable contingent of motorists who are completely at the mercy of the automobile's mechanism. Even if a man never expects to drive the car himself, he will be acting wisely in finding out what the transmission is, why the electrical system is arranged as it is, how the clutch is put together, and the way in which the differential works.

Somebody has remarked that what the boss doesn't know won't hurt him, but what the automobile owner does know is often his salvation in a tight pinch and a dark night.

NATIONAL ROAD SYSTEMS

WASHINGTON, D. C., June 21.—"Another ten years will see national road systems covering every section of the country—the greatest practical step in the direction of preparedness that could be made," comments Dr. H. M. Rowe, the newly elected president of the American Automobile association, from the Washington headquarters.

"In a decade we will begin to have separate roads for freight traffic and passenger traffic," predicts Dr. Rowe. "The horse and mule will have practically disappeared. Our present highways will be greatly multiplied and largely increased in width and improved in quality. No other country on the face of the earth can make such good and profitable use of good roads as the United States of America. We will eventually excel in that as we do in many other things. There have been wonderful changes in all matters relating to transportation since the introduction of the motor-car, but there are still greater things to come.

"But equal justice and fair treatment for the users of motor vehicles must continue to be sought for some time to come. Everything the motorist asks for, everything the A. A. A. and the clubs affiliated with it have worked for, has been based on these principles. We have worked for good roads for the reason that they are of equal economic benefit in the final analysis to all, and it is only just and right that the people of our country should have the advantages to which they are entitled. We have worked for unrestricted interstate commerce between the states through the use of motor cars, because that is a constitutional right that has been denied us. We have worked for equal taxation. That is another constitutional right that has been set aside, partly because we submitted to it willingly, I admit, but it is an injustice and constitutes unfair treatment just the same.

"In addition, the owners of motor cars are being subjected to all sorts of petty annoyances, special taxes, licenses and rules and regulations regarding traffic, use of lights, and many restrictions seldom alike in two places, and which subject decent men and women to arrest and reasons, often for the most trivial and unimportant of any kind as a disgrace, and when one is innocent of any intentional wrong, his arrest becomes a shameful disgrace, not only to him but upon the community which permits it. "Much has been accomplished, it is true. But there yet remains much to be done. Truly said that the owner of a motor car is not subjected to annoyances and unfair treatment, which is not visited upon those who employ other road vehicles.

"So we have our work cut out for us, and certainly the American Automobile association has a great mission to perform. Its friends are inspired by the thought that the body is going to further increase its prestige and influence shall possess the power and influence that it rightfully should exert as the national spokesman of the interests of the motorists of the entire country. No matter what the organization may be, however, it must work unselfishly and for the common interest of its members. The large majority of motorists are men of large views. They are capable of seeing things in the big picture and efforts should be of the same character."

Towa has rejected the proposed amendment to grant suffrage to women.

SIX CENT FARES

Pres. Sullivan Explains Floating Indebtedness — Cross-Examination

BOSTON, July 7.—Two millions of dollars in notes issued by the Bay State Street Railway Co., four years ago, which officials of the company have stated represented an indebtedness for which they could not account, were explained today by President P. F. Sullivan at the hearing by the public service commission into the road's petition for increased fares. It was a floating indebtedness, he said, inherited largely from loans of \$1,700,000 on the books of constituent companies which, "because it was not good business," was covered by the coupon notes, to be liquidated out of earnings.

The commission itself today took up the cross-examination of the company's witnesses, to determine whether increases in earnings and savings in expenses could not be effected by changes in the service. Various such sources of economy had been pointed out by experts during the hearing.

LEGAL PAY OF SOLDIERS

GOV. McCALL WIRES SENATOR LODGE TO PRESS THE PASSAGE OF BILL

BOSTON, July 7.—Gov. McCall today wired Senator Lodge to press the passage of a bill recently passed by the house of representatives supplementing the legal pay of soldiers who have dependent families.

DEATHS

THYNNE—John J. Thynne, an old resident of this city, died this noon at his late home, 69 Forrest street, after a long illness. He was a member of St. Margaret's Holy Name society. He leaves two daughters, Mary F. and Elizabeth A.; two sons, Lawrence J. of Marlboro and Frank P. of this city. Deceased has been well and favorably known for many years in the City district and recently to the Highlands. He had always been a devoted member of the parish in which he resided. He leaves many friends to mourn his loss.

CARD OF THANKS
We, the undersigned, wish to express publicly our sincere and heartfelt thanks to the many friends, relatives and neighbors who, by their kind acts, words and expressions of sympathy, by offerings, both spiritual and moral, helped to lighten our burden of sorrow at the sudden and untimely death of our beloved child, Margaret Mulligan.

All act were deeply appreciated by Mr. and Mrs. James Mulligan and Family.

A considerable number of wealthy American women who married Englishmen and are living in England will be hit heavily by the new income tax on American securities.

PARADE IN LAWRENCE

MANY LOWELL PEOPLE SAW PREPAREDNESS PARADE IN DOWN RIVER CITY

Many Lowell people went to Lawrence last night to view the preparedness parade in that city. The parade was postponed from July 4 and while it was fairly successful it was nothing as compared with the preparedness parade held in this city. There were about 5000 in line as compared with over 15,000 in the Lowell parade. There is no doubt, however, but what the Lawrence parade would have been a greater success but for the postponement.

Mayor James E. O'Donnell of Lowell was among the guests on the reviewing stand in Lawrence. At the close of the parade Mayor O'Donnell spoke on the common and Lawrence spoke on the city. There was singing of patriotic songs. Each participant in the parade carried an American flag, which was the only emblem displayed. The parade was indicative of Lawrence's cosmopolitan population, sons and daughters of various nationalities taking part.

A number of floats added to the effect of the display and for these the first prize of \$100 went to that of the Betsy Ross Chapter, D.A.R., showing the making of the flag, in which Mrs. Harold Austin impersonated Betsy Ross. The Lawrence Chapter of the D.A.R. won the second prize of \$75, and that of the Red Cross nurses in the French division. "Caring for the Defenders of the Flag," the third of \$50.

Win Honorable Mention
Honorable mention was given in order to the Chinese section, the Ladies Auxiliary of Lawrence Lodge, B.P.O.E., "Making the Flag," Emma Russell Auxiliary to Stephen J. Ryan Camp, U.S.W.V., displaying a boat with an eagle at the bow, and the Monomac Fishing company's exhibit, two Indians seated in a canoe.

The judges were Mayor O'Donnell and ex-Senator John E. Drury of Lowell and Rev. Donald E. Gerrish of this city. In making the awards they were governed by the patriotic and preparedness features.

Other division leaders were Frank E. Harding, Bartholomew P. Couture, James E. Connors, Geremia Campolano, Jan Szulk, Bernard A. O'Donnell, A. L. Dow, and John J. Cronin.

The Civil war veterans rode in automobiles in the first division and soldiers of the Spanish-American war and members of the Sons of Veterans were their escorts.

Postmaster M. F. Cronin and Assistant Postmaster J. Rodney Ball and Edwin H. Colby, who has been a carrier 55 years, led the mail clerks and letter carriers in this division.

THE IRISH QUESTION

MEETING OF UNIONISTS TO CONSIDER TERMS OF PROPOSED SETTLEMENT

LONDON, July 7.—The meeting of unionists to consider the terms of the proposed Irish settlement was held today at the Carlton club. A. Bonar Law, secretary for the colonies, presided.

MRS. YOUNG COMES BACK

SPRITED REPLY IN DEFENDING NEW YORK TEACHERS' UNIONS—ALEY OF MAINE, PRESIDENT

NEW YORK, July 7.—Teachers' unions were attacked by Jacob Loeb, president of the board of education of Chicago, in an address yesterday at a meeting of the department of school administration in connection with the convention of the National Education association.

Mrs. Ella Flagg Young, formerly superintendent of schools of Chicago, answered him in a spirited defense of the principle. She was on the program for a speech on a different subject, but said she felt called upon to reply to Mr. Loeb, after he characterized organizations of teachers as "making for a divided allegiance, breeding suspicion and discontent, encouraging class prejudice and engendering class hatred."

Officials of school boards, Mrs. Young said in a sharp rejoinder, would know more about school affairs if they sent their own children to the public instead of private schools.

Mr. Loeb, whose board is said to have dismissed 43 teachers in the Chicago schools a week ago, said, in part:

"I have no quarrel with trades unions properly conducted and in their proper place, but a trades union in the public schools is intolerable. Teaching is not a trade; it is a profession, and one of the noblest in principle and practice. Trades unionism is inconsistent with and unnecessary to a professional career."

Mrs. Young said: "Almost all members on boards of education have some powerful club or organization behind them. They owe their position to these people and must maintain the policy of the organization or the individual who put them there. The public school teachers throughout the country have the freedom to express their thoughts."

"I used to attend the meetings of the Chicago school board, and when the teachers came before it the members sat with immobile faces and when all had spoken the chairman asked if there were more to speak. Then the smile that went round that table—the teachers spoke, and the result was nothing. Again they came; they met the same courteous reception, and the same dismissal, and the result again was the same—nothing."

"After a while the teachers said: 'This is silly. We are a great deal like the suffragettes. We are sitting back quietly and take what is given us, and of all things we must not show any desire to push ourselves forward.' But at last, after years of waiting, the women have said: 'We have got to be more than weak waiters at the gate.'"

Dr. Robert J. Aley, president of the University of Maine, was nominated today for president of the association. Among other nominations submitted was that of Payson Smith, Massachusetts, for vice president.

WAS SCALDED TO DEATH

JOHN CINNO DIED IN TANK OF BOILING WATER AT MAYNARD MILL

MAYNARD, July 7.—John Cinno, employed in the dye house of the American Woolen company, was scalded to death in a vat of boiling water about 1:30 yesterday afternoon. As reported by one of his fellow employees, a load of wool had just been placed in the vat for cleaning. Cinno jumped upon the wool presumably to submerge it, but his weight carried him through to the boiling water. His cries were heard all through the building, but no one was able to assist him.

His regular work was in the shoddy department, but owing to the shortage of help in the dye house he was transferred there last Monday. Officials at the mill are at a loss to understand his action.

The body was viewed by Coroner J. J. Kelly of Maine at Maynard for the past four years. His home was at 111 Main street, and he is survived by a wife and two children. The body was removed to the undertaking rooms of Mrs. Susan Sheehan from which the funeral will be held today.

The meeting also was attended by the Marquis of Lansdowne, Lord Robert Cecil, who presented his resignation as a result of dissatisfaction with the government's attitude but subsequently reconsidered his action; Sir Edward Carson and other leaders.

The Exchange Telegraph Co. says no resolution was submitted to the meeting but that the situation was discussed and it was decided to await developments before taking any decisive action.

There are between 3,000,000 and 4,000,000 women voters in the United States.

BOY YEGGS TAKE SAFE

ALSO ROB CASH DRAWER AT EAST WATERTOWN—ENTER R. R. OFFICE IN DAYLIGHT

WATERTOWN, July 7.—A bold daylight robbery was committed at East Watertown yesterday afternoon when two boys entered the East Watertown station on the Watertown branch of the Boston & Maine railroad, broke the ticket office window and carried off a small safe containing bankbooks and other property. The safe was later found unopened in the bushes opposite the Leighton estate, a short distance from the station. The robbers got about \$3 in cash from the cash drawer, which they tried open with a short piece of broom handle.

Shortly before 3 P. M. Pearson, gate tender at the place, going toward the depot to get a drink, saw a thick-set fellow sitting on a bench just outside the entrance. The man got up and walked around the building as the railroad employee came toward him. On entering the depot Pearson saw that the ticket office had been entered. The floor was strewn with papers and the place turned topsy-turvy.

Pearson at once phoned to Agent A. H. Parsons, who was at dinner, and then notified the police.

He had just left the telephone when two young men ran past the station, closely followed by a man on a bicycle. The runners took to the railroad tracks and disappeared around Davonport's greenhouse.

Their pursuer informed Pearson that he had surprised the two fellows while they were trying to carry off a crowbar and sledge hammer from where town employees were at work on a sewer along Arlington street.

Upon the arrival of Agent Parsons it was learned that a small safe in the ticket office was missing, and it became evident that the men wanted the tools to force the safe door. A search of the vicinity revealed the missing safe.

Neither Gate-Tender Pearson nor the bicyclist who chased the men could give a very good description of them. They were about 18 years old, 5 feet tall and each weighed about 145 pounds. Their clothing, the men thought, was of dark material.

Mr. Pearson is convinced that there were three in the party and that the thick-set fellow who was sitting on the bench outside was the third member.

Mobile or Pensacola, the largest cities in the storm's path, according to messengers from those places, which still were cut off from direct wire communication.

Property damage in Mobile was reported to approximate a million dollars. The business section of the city was flooded and many buildings were demolished or unroofed. Damage in Pensacola was said to have been confined largely to the waterfront and wharves in the harbor. The maximum wind velocity was reported at 104 miles an hour.

Laurel, Miss., reported that the property loss there would aggregate \$200,000. There was no loss of life. Jacksonville and Meridian reported considerable damage to crops and farm buildings. Reports from Gulfport, Biloxi, Pass Christian and Bay St. Louis, Miss., told of little damage there with no loss of life.

Buildings and crops in and around Beloit and Tallahassee, in Alabama, were damaged, and crops suffered throughout the storm area.

The wire prostration extends throughout southwest Alabama and Mississippi as well as part of Florida. Accurate estimates of the damage probably will not be possible for a day or two.

The storm last night was central over Vicksburg, Miss., but was rapidly diminishing in intensity.

THOUSANDS WANT TO JOIN T. R.

NEW YORK, July 7.—Col. Roosevelt's division of volunteer soldiers (in the event of war with Mexico) is piling up a huge amount of work for Regis H. Post, former governor-general of Porto Rico, to whom the colonel has turned over all the mail on that subject that is pouring into the Metropolitan offices.

"I'm in a wastepaper basket up to my neck," lamented Mr. Post yesterday. "Thousands of persons seem to have heard about the colonel's division, and are trying to drive them away with letters. Keep track of the names and later perhaps send the writers a postal card 'thank you.'"

HERRMANN DENIES TRADE

CINCINNATI, O., July 7.—"There is nothing in the report that Herzog will go to the Chicago Nationals," August Herrmann, president of the Cincinnati club, said today. "I certainly would not consider any deal of this kind at this time."

"Chicago has nothing to trade that we want that they would trade in a deal of this kind. The present status of the team does not affect Herzog's standing at all, and it is as yet too early to predict where we will finish or how the team will play. At this time we must certainly have not considered the question of having any other manager than Herzog, and I do not believe

INDUSTRIAL AND STORE NEWS

A very interesting meeting of the members of the Trades & Labor council was held last evening at the quarters of the organization, 32 Middle st. The meeting was presided over by Frank Warnock and was largely attended. In the course of the meeting it was announced that a meeting of the committee in charge of the arrangements for the Labor day celebration, and which is composed of delegates from the various union organizations of this city, will be held at 32 Middle street, Saturday evening, and all members of the committee are requested to be present.

It is expected that the celebration will be in the form of a monster parade in the forenoon with outdoor sports in the afternoon.

In the course of last evening's meeting those present were addressed by Business Agent Kelley of the Boston Barbers' union. Frank Warnock and Thomas Morrison were elected delegates to the meeting of the Massachusetts state branch to be held at Springfield, Sept. 11, and P. R. Monahan and Edward A. Cunningham were chosen alternates. Considerable routine business was transacted and the following credentials of delegates were received:

Local 1468, Carpenters—Arthur Ferron, Fred Dronin, Charles Bretton, Arthur H. Holstein, Charles O. Davis, John H. Burns, Morris Greenbaum.

Partners—Michael McMullen, Hugh Maguire, John J. Quirk, Frank McMahon, Frank E. McNulty, Matthew H. Carney and Redmond Sullivan.

Stationary Firemen—Thomas J. McGee, Patrick Murphy, John W. Downing, John T. Hendricks, William J. Hart, M. P. Connolly, Michael Kinane.

Local 13, Brewery Bottlers—James Dillon, James Convery, John Conway, Michael McCabe, Michael Duffy, William Bagley, Henry O'Donnell.

Musicians—Timothy McCarthy, Harry Clay, Edward A. Perry.

Woolen Weavers—James Cassidy, Frank Mullen and Grace Sullivan.

Cotton Weavers—Annie O'Del, Mrs. Annie Regan, Bernard Foley.

Leather Workers—Charles Shanley, Joseph Labele, Jr., Benjamin Williams.

Want Statistics—The bureau of statistics at Washington has written a letter to Thomas Morrison, secretary of the Trades & Labor council, for a statement or compilation of the wage increases recently granted in Lowell and district.

New Organization—The new union composed of woolen weavers, recently organized in this city, has become affiliated with the Trades & Labor council and the following delegates to the latter organization have been elected: Grace Sullivan, Mrs. Healey, James Cassidy, Josephine Benson, Mr. Chisholm, Della Melbury and Frank Mullen.

Painters—The members of the Painters' union held their regular meeting in Carpenters' hall last evening with a large attendance. Seven new members were initiated and several applications for membership were received. An interesting meeting of the organization will be held on the evening of July 20 and the business will be followed by a social hour during which refreshments will be served. At this meeting also plans relative to the Labor day parade will be made and the uniforms will be chosen.

Business Agent—There is a lively contest on for the position of business agent for the local Carpenters' union, the contestants being the present incumbent, Michael A. Lee, who has held the position for a number of years, and Charles Patterson, a member of one of the unions. The first vote for the position was taken last Wednesday evening at local 1510, and the next will be taken next Tuesday evening at local 49. The final vote will be taken a week from tonight at the Millmen's union. The election is for six months.

B. & M. Trackmen Out—A meeting of the Boston & Maine trackmen who left their work some time ago after being refused an increase in wages, was held last evening in Odd Fellows hall, Middlesex street, and it was voted not to return to work until the demand is granted, despite the fact that a notice has been received from officials of the road, stating that unless the men return to work immediately they will lose their rating. It was stated at the meeting that most of the strikers had secured other employment and they are in a position to remain away from the road indefinitely.

Other meetings held last evening were as follows: Carpenters' union of the B. & M. shops, Odd Fellows hall, Local 57, Blacksmiths, 32 Middle st.

Cigar Makers' Union—At the regular meeting of the Cigar Makers' local union the following officers were elected: President, Daniel E. Callahan; vice, president, Fred Fielding; treasurer, Carl A. Wahlgren; general secretary, Thomas F. Garvey; sergeant at arms, Thomas Gill; finance committee, William Johnston and James A. Kane; trustees, E. A. Quirk, J. Flory, Thomas Gill; executive board, Edward Dillon, Frank Whitley, J. Flory.

President Daniel Callahan called the attention of the members to the fact that it was thirty-one years ago since Carl A. Wahlgren was elected treasurer and he is still in the same office. The president of the association, Mr. Norman deR. Whitehouse, president of the state suffrage organization, Mrs. Catt declared the assurances the nominee had given them were "more satisfactory than any others we have received heretofore."

Mr. Hughes then received a delegation of six anti-suffragists, who characterized their reception as "eminently satisfactory."

"Mr. Hughes is indeed the man of the hour," declared Mrs. Arthur M. Dodge, president of the National Association opposed to Woman Suffrage, who was the leader of the party.

NEW YORK, July 7.—Delegations of suffragists and anti-suffragists visited Charles E. Hughes yesterday and each declared the conference was entirely satisfactory.

Mr. Hughes was visited first by a committee composed of Mrs. Carrie Chapman Catt, president of the National Woman's Suffrage Association; Dr. Anna Howard Shaw, ex-president of the association; and Mrs. Norman deR. Whitehouse, president of the state suffrage organization. Mrs. Catt declared the assurances the nominee had given them were "more satisfactory than any others we have received heretofore."

Mr. Hughes then received a delegation of six anti-suffragists, who characterized their reception as "eminently satisfactory."

"Mr. Hughes is indeed the man of the hour," declared Mrs. Arthur M. Dodge, president of the National Association opposed to Woman Suffrage, who was the leader of the party.

NEW YORK, July 7.—After a conference between William G. McAdoo, secretary of the treasury of the United States, Mayor Mitchell, earth Commissioner Emerson and others it was announced last night that the United States public health service would cooperate with the New York authorities in their efforts to stamp out the epidemic of infantile paralysis which already has cost the lives of more than 150 children in New York.

The federal aid, it was said, would at once be directed to tracing the origin of the disease. This will consist largely in field epidemiological and laboratory studies, the latter being chiefly experiments with animal inoculations. In this connection it was said a telegram had been sent to Washington asking that 100 monkeys, procured in the Philippines for the Rockefeller Institute of Medical Research here, be not subjected to a recent embargo on which has delayed their arrival into the country. According to Commissioner Emerson, monkeys are regarded as the best possible animal mediums thus far discovered for proving the transmission of the disease.

Additional cases reported since 10 o'clock yesterday morning were 31. Of these 50 are in Brooklyn.

PROXY WEDDING OFF—Jersey Girl and Guardsman on Border to Sign Contract of Marriage—Legally Man and Wife.

NEWARK, July 7.—Unable to be married by proxy because of legal entanglements, Miss Maud Ethel Sargent of 50 Peck avenue and Louis Bansemmer, a private with the First regiment on the Mexican border, have resorted to the mails. A marriage contract was signed yesterday by Miss Sargent and immediately mailed to Mr. Bansemmer, who is at Douglas, Ariz.

That the couple will be legally man and wife was asserted by Eugene H. Meyer, counsel for Miss Sargent. Clerk Frank F. Crissey of the marriage license bureau also thought the contract would be binding. Miss Sargent signed the contract before a notary and witnesses. Now the bridegroom will sign it. The procedure is that of a common law marriage provided by law. The registration of the signed contract is a legal sense exactly as the recording of the marriage license. Bansemmer and Miss Sargent have been friends for years. The couple became engaged when the regiment was in camp at Sea Girt preparing for service in Mexico. It was too late then for them to be married by a minister and announcement was made. It developed that the marriage under these conditions would not be recognized by law, and the mail way was then brought to the rescue.

Local 1468, Carpenters—Arthur Ferron, Fred Dronin, Charles Bretton, Arthur H. Holstein, Charles O. Davis, John H. Burns, Morris Greenbaum.

Var-ne-sis is a simple vegetable

GEORGE CLARK AND HIS FAMOUS STALLION "GAUDAUR"

owns J. E. C. with a record of 2:13 1-4.

Mr. Clark was compelled to give up driving on account of rheumatism, and it will be a surprise to many to know that he has fully recovered.

He said: "I believe I know what it is to suffer from rheumatism. I was so bad that for weeks I was unable to turn in bed and had to have some one assist me to dress. It was impossible to get my hands to my head and particularly painful in the morning."

"There was at first a slight numbness in my fingers and then the pain extended to my arms, shoulders and back. It continued to grow worse and finally involved my legs. My hands were weak and I was unable to lift even small objects, as the strength seemed to have left me entirely."

"Reading so much about Var-ne-sis and what it had done for others, I decided to try it, with the result that gradually the pain left me, my strength returned and today I consider myself a well man."

"I have recommended Var-ne-sis to a number of friends suffering from

WYLIE SUED BY WIFE Plaintiff Names Mrs. Elinor Hichborn and Seeks to Protect Her Children

WASHINGTON, July 7.—Mrs. Katherine V. H. Wylie filed suit in the district supreme court yesterday for a divorce from Horace Wylie, whose elopement with Mrs. Elinor M. Hichborn six years ago caused a stir in capital society.

Mrs. Wylie declares that when Wylie disappeared from Washington in 1910 he left a written confession that he had eloped with Mrs. Hichborn. The latter's husband, Philip S. Hichborn, committed suicide here in 1912. The petition sets forth that Wylie returned to the United States twice to attempt a reconciliation, leaving the last time, September, 1911, a message that his separation was final and that he must go back and live permanently with the correspondent. The Wylies were married in 1895 and have four children.

Wylie is a son of the late Andrew Wylie, a justice of the supreme court of the District of Columbia. Mrs. Hichborn is a daughter of the late Henry M. Hoyt, solicitor of the department of justice under Presidents Roosevelt and Taft.

Mrs. Wylie informed the court that unless she obtains a divorce with custody of the children, Wylie, should survive her, might lay claim to a paternal authority, which she asserts he has forfeited both in law and in morals. To preclude any such claim on the children, she avers, is the reason for filing the suit.

GREATEST SEA BATTLE OF WAR

Admiral Jellicoe's Official Report on the Engagement Off Jutland—High Praise for Officers, Men and Germans—Fought Great Battle in Mist

LONDON, July 7.—"Be pleased to inform the lords commissioners of the admiralty that the German high sea fleet was brought to action on the 31st day of May, 1916, off the coast of Denmark."

In these words Vice Admiral Sir John R. Jellicoe, commander-in-chief of the home fleet, opens his report to the admiralty on the battle over which there has been so much discussion. Continuing, Admiral Jellicoe says:

CHILDREN WE WORRY ABOUT

Careful confinement in school during the past winter, overstudy perhaps, an attack of the grip or tonsillitis, some one of these things is doubtless responsible for the condition of the child who shows a decline in health now.

What are the symptoms? Pallor and languor, a fickle appetite, dark rings under the eyes, bronchial colds. Very often the best efforts of the family physician fail in such cases and the condition of the child causes the most intense anxiety. Cod-liver oil, so often prescribed, generally fails because the weak stomach is unable to digest fats.

Try this treatment. Before breakfast each morning give the child the juice of half an orange. After the noon meal give one of Dr. Williams' Pink Pills. Keep this up for a few days and then give one of the pills after the evening meal also. Watch the child before beginning the treatment and again after two weeks. An increase in weight of from two to five pounds will show you that you are on the right track at last. Care is necessary in the diet of the patient and it will be well to send to the Dr. Williams' Medicine Co., Schenectady, N. Y., for a diet book and pamphlet, "Building Up the Blood." Both are free. Your own druggist sells Dr. Williams' Pink Pills.

cal sweeps through the North sea, had left its base on the previous day in accordance with instructions issued by me. In the early afternoon of Wednesday, 31st day of May, the first and second battle cruiser squadrons, the first, second and third light cruiser squadrons and destroyers from the first, ninth, tenth and thirteenth flotillas, supported by the fifth battle squadron, were, in accordance with my directions, moving to the southward of the battle line, which was accomplished by the third battle cruiser squadron, the first and second cruiser squadrons, the fourth light cruiser squadron, and the fourth, eleventh and twelfth flotillas.

"The junction of the battle fleet with the scouting force after the enemy had been sighted was delayed owing to the southerly course taken by our advanced force during the first hour after commencing their action with the enemy battle cruisers. This, of course, was unavoidable, as had our battle cruisers not followed the enemy to the southward the main fleets would never have been in contact.

Two Dreadnoughts Sunk

"The battle cruiser fleet, gallantly led by Vice Admiral Beatty, and admirably supported by the ships of the fifth battle squadron under Rear Admiral Evan-Thomas, fought the action under, at times, disadvantageous conditions, especially in regard to light, in a manner that was in keeping with the best traditions of the service."

Without maps and charts many of the details of the report cannot be made clear. It states that "the list of ships and commanding officers, which took part in the action, has been withheld from publication for the present in accordance with the usual practice," which also detracts from the interest of the document.

Admiral Jellicoe estimates the German losses at two battleships of the Deutschland type, one of the Deutschland type, which was seen to sink, the battle cruiser Lutzow, admitted by the Germans, one battle cruiser of the dreadnought type, one battle cruiser, seen to be so severely damaged that its return was extremely doubtful, five

light cruisers, seen to sink—one of them possibly a battleship—six destroyers, seen to sink, three destroyers so damaged that it was doubtful if they would be able to reach port, and a submarine sunk. In concluding, Admiral Jellicoe says:

Many Ships Damaged

"The conditions of low visibility, under which the day action took place, and the approach of darkness enhanced the difficulty of giving an accurate report of the damage inflicted on the name of the ships sunk by our forces. But, after a most careful examination of the evidence of all the officers who testified to seeing enemy vessels actually sink, and personal interviews with a large number of these officers, I am of the opinion that the list shown in the enclosure gives the minimum numbers, though it is possible it is not accurate as regards the particular class of vessel, especially those which were sunk during the night attack. In addition to the vessels sunk, it is unquestionable that many other ships were very seriously damaged by gunfire and torpedo attack."

Loss Of British Vessels

"I deeply regret to report the loss of his majesty's ships Queen Mary, Indefatigable, Invincible, Defence, Black Prince, Warrior, Tipperary, Ardent, Fortitude, Shark, Sparrow Hawk, Nestor, Nomad and Turbulent. Still more do I regret the resultant heavy loss of life. The death of such gallant and distinguished officers as Arbuthnot, Hood, Captain Sowerby, Captain Prowse, Captain Cay, Captain Bonham, Captain Charles J. Wintour and Captain Stanley B. Eills, and those who perished with them, is a serious loss to the navy and to the country. They led officers and men who were equally gallant and whose death is mourned by their comrades in the Grand Fleet. They fell doing their duty nobly—a death which they would have been first to desire."

Enemy Fought With Gallantry

"The enemy fought with the gallantry that was expected of him. We particularly admired the conduct of those on board a disabled German light cruiser which passed down the British line shortly after deployment under a heavy fire, which was returned by the only gun left in action. The conduct of the officers and men was entirely beyond praise. "On all sides it is reported that the glorious traditions of the past were most worthily upheld, whether in the heavy ships, cruisers, light cruisers or destroyers; the same admirable spirit prevailed. The officers and men were cool and determined, with a cheerfulness that would have carried them through anything. The heroism of the wounded was the admiration of all. I cannot adequately express the pride with which the spirit of the fleet filled me."

Engine Department Praised

"It must never be forgotten that the pride of action is the work of the engineering department. During an action the officers and men of that department perform their most important duties without the incentive which a knowledge of the course of action gives to those on deck. The qualities of discipline and endurance are taxed to the utmost under these conditions. They were, as always, most fully maintained throughout the operations. Several ships attained speeds that had never before been reached, thus showing very clearly their high state of steaming efficiency. Failures in material were conspicuous by their absence."

Of the medical officers Admiral Jellicoe says: "Lacking in many cases all essentials for performing critical operations, with their staffs seriously depleted by casualties, they worked untiringly with the greatest success."

Hardest Fighting

The hardest fighting fell to the battle cruiser fleet, says Admiral Jellicoe, the units of which were less heavily armored than their opponents, and he expresses high appreciation of the handling of all the vessels and commends Admirals Burney, Jerram, Sturdee, Evan-Thomas, Duff, and Leveson, and continues: "Vice-Admiral Sir David Beatty once again showed his fine qualities of gallant leadership, firm determination and correct strategic fighting. He appreciated situations at once on sighting the first enemy's lighter forces, then his battle cruisers, finally his battleships. "I can fully sympathize with his feelings when the evening mist and fading light robbed the fleet of that complete victory for which he had manoeuvred, nor with the vessels in which he had him had striven so hard. The services rendered by him, not only on this, but on two previous occasions, have been of the very greatest value."

Report from Beatty

Vice Admiral Beatty's report to Admiral Jellicoe particularly mentions the work of the Engineer. Commander Robinson, which covered the Warrior 75 miles during the night of May 31, and continues: "It is impossible to give a definite statement of the losses inflicted on the enemy. Visibility was for the most part low and fluctuating. Caution forbade me to close the range too much with my inferior force. A review of all the reports leads me to conclude that the enemy's losses were considerably greater than those sustained by our ships. The superiority, and included battleships, battle cruisers, light cruisers and destroyers. This is eloquent testimony to the very high standard of gunnery and torpedo efficiency of his majesty's ships. The control and drill remained undisturbed throughout in many cases, despite the heavy damage to material and personnel."

"Our superiority over the enemy in this respect was very marked, their efficiency becoming rapidly reduced under punishment. As was to be expected, the behavior of the ships' companies under the terrible conditions of a modern sea battle was magnificent, without exception. The strain on their morale, a severe test of discipline and training. The officers and men were imbued with one thought—a desire to defeat the enemy. "The fortitude of the wounded was

admirable. A boy of the first class, John Travers Corvair, of the Chesapeake, was mortally wounded early in the action. He nevertheless remained standing alone at a most exposed post quietly awaiting orders until the end of the action, with the gun's crew dead or wounded all around him. His age was under sixteen and a half years. I regret that he has since died. I recommend his case for special recognition, in justice to his memory and as an acknowledgment of the high example set by him.

Battle Raged Five Hours

"In such a conflict as raged for five hours it was inevitable that we should suffer severe losses. It was necessary to maintain touch with greatly superior forces in fluctuating visibility, often very low. We lost the Invincible, the Indefatigable and Queen Mary, from which ships there were few survivors. The casualties in the other ships were heavy. I wish to express my deepest regret at the loss of so many gallant comrades, officers and men. They died gloriously."

Extracts from Vice Admiral Beatty's report give the course of events before the battle fleet came on the scene of action. At 2.30 o'clock in the afternoon, the Galatia reported the presence of enemy vessels. At 2.35 o'clock considerable smoke was sighted to the eastward. This made it clear that the

enemy was to the northward and eastward and that it would be impossible for him to round Horn Reef without being brought to action. The course of the British ships consequently was altered to the eastward and subsequently northward.

German Cruisers Sighted

The enemy was sighted at 3.31 o'clock. His force consisted of five battle cruisers. Vice Admiral Beatty's first and third light cruiser squadrons, without awaiting orders, spread eastward, forming a screen in advance of the battle cruiser squadron under Admiral Evan-Thomas, consisting of four battleships of the Queen Elizabeth class. The light cruisers engaged the enemy and the cruiser squadron came up at high speed, taking station ahead of the battle cruisers. At 3.30 o'clock Vice Admiral Beatty increased the speed to 25 knots and formed the line of battle, the second battle cruiser squadron forming astern of the first with two destroyer flotillas ahead.

Vice Admiral Beatty then turned east-southeast, slightly converging on the enemy now at a range of 23,000 yards. The fifth battle cruiser squadron was then bearing north-northwest 10,000 yards distant. The visibility was good. Continuing his report, Vice Admiral Beatty said: "The sun was behind us. The wind was southeasterly. Being between the enemy and his base our situation was both tactically and strategically good."

Opened Fire Simultaneously

"Both forces opened fire simultaneously at 3.45 at a range of 15,500 yards. The course was altered southward, the enemy steering parallel distant 18,000 to 14,500 yards. The fifth battle cruiser squadron opened fire at a range of 20,000 yards at 4.05. The enemy fire then seemed to slacken. Although the presence of destroyers caused inconvenience on account of smoke, they preserved the battleships from submarine attack."

"Two submarines being sighted and a flotilla of ten destroyers being ordered to attack the enemy with torpedoes, moved out at 4.15 o'clock simultaneously with the approach of German destroyers. The attack was carried out gallantly with great determination. Before arriving at a favorable position to fire torpedoes they intercepted an enemy force consisting of one light cruiser and 15 destroyers. A fierce engagement at close quarters ensued and the enemy was forced to retire on their battleships, having two destroyers sunk and their torpedo at-

tack frustrated. Our destroyers sustained no loss, but the attack on the enemy cruisers was rendered less effective.

"The Nestor, Nomad and Mincator, under Commander Edward Bingham, pressed the attack on the battle cruisers and fired two torpedoes. Being subjected to a heavy fire at 3,000 yards, the Nomad was badly hit and remained between the lines. The Nestor also was badly hit but was afloat when last seen. The Petard, Nerissa, Turbulent and Termagant also are praised.

British Fire Began to Tell
"These destroyer attacks," continues Vice-Admiral Beatty, "were indicative of the spirit pervading the navy and worthy of its highest traditions."

From 4.15 to 4.43 o'clock the conflict between the battle cruiser squadrons was fierce and the resolute British fire began to tell. The rapidity and accuracy of the German's fire depreciated considerably. The third German ship was seen to be afloat. The German battle fleet was reported.

SON OF HETTY GREEN LEFT HAND BLOWN OFF

COL. E. H. R. GREEN TO CONTROL
FORTUNE LEFT BY RICHEST
WOMAN IN WORLD

EDWARD H. R. GREEN

By the will of Mrs. Hetty Green the bulk of her estate is bequeathed to her son, Colonel E. H. R. Green, and her daughter, Mrs. Matthew Astor Wilks. The remainder is distributed in smaller bequests to old friends of Mrs. Green. No estimate of the total value of the estate is contained in the will, and the closing clause provides that the son and daughter shall not be required to file an inventory or appraisal or give bonds, and "shall not be required to account in or to be subject to the jurisdiction of the probate court." It is estimated that the estate of "the richest woman in the world" amounts to more than \$125,000,000. Colonel Green has been associated with his mother in the management of her properties for many years.

LIEUT. S. R. WALLER HERE

THE POPULAR OFFICER CAME
HERE LAST NIGHT TO ATTEND
CO. G DRILL

Lieut. Schuyler R. Waller of Company G, who is doing duty at Camp Whitney, South Framingham, in the form of drilling the rookies with other officers of the three local companies of the Sixth regiment, came to Lowell last evening to attend the paid rendezvous drill of Company G. The attendance at the drill was very large and for one hour and a half the men were kept on the floor and put through various evolutions under the command of Lieut. Waller. The latter was seen by a Sun reporter before he left the city this morning and when asked if he were going to the Mexican border, he replied he did not know a thing about it. He said the men at South Framingham know nothing about the order except what they read in the newspapers. The lieutenant said the Lowell "rookies" are getting along nicely and making rapid progress in the military art. They are a good class of boys and very willing to learn the war game.

WOOLLEY DIRECTS DEMOCRATS' NATIONAL PUBLICITY CAMPAIGN

PRIVATE OF CO. M, 12TH INFANTRY,
ATTACKED AT NOGALES,
ARIZ.

NOGALES, Ariz., July 7.—Private Charles Nelson, Company M, 12th Infantry, today is minus a left hand, which was blown off last night in a mysterious explosion which followed, he said, an attack by two unidentified persons. The surgeon who attended him said that nothing less than the explosion of a bomb, stick of dynamite or point blank discharge of a double barreled shotgun could have caused the injury.

MAN - EATING SHARKS

SUMMER RESORTS ALONG NEW
JERSEY COAST ESTABLISH PA-
TROLS

ASBURY PARK, N. J., July 7.—Summer resorts along the New Jersey coast established motor boat patrols today to protect bathers from man-eating sharks. The boats' crews are armed with rifles.

The action was taken by resort proprietors as the result of the death of two bathers, one yesterday and one Sunday, who were attacked by the big fish, unheard of heretofore in these waters. Some beaches are being enclosed with wire netting.

ORPET MURDER TRIAL

DEFENSE RESTED CASE—PROSECUTION
FAILS IN ATTEMPT TO RE-
CALL DEFENDANT

WAUKESHA, Wis., July 7.—The defense, after introducing documentary evidence bearing on the sale of pistols rested today in the case of Will H. Orpet, the college student, charged with the murder of Marion Lambert. Attorney David Joslyn of the prosecution said that he wanted Orpet recalled for further cross-examination with regard to Celestia Youker, the young woman to whom he was reported engaged.

James Witherspoon and Ralph E. Potton, defense attorneys, and Judge Donnelly ruled that the defendant could not be recalled.

FOR MILITARY TRAINING

NATIONAL EDUCATION ASSOCIATION
FAVORS INSTRUCTION IN
SCHOOLS

NEW YORK, July 7.—The National Education association went on record today as assenting to military training in schools providing that "military ends should not be permitted to pervade the educational purposes and practices of the school." This is a change of attitude. Last year the convention came out flatfootedly against such training.

BUCKLEY NOT CONVICTED

John Buckley, who was arrested by the police of this city for the Lawrence police charge of larceny of a horse and wagon, the property of Henry Schonland of Lawrence, was arraigned in court in the down river city yesterday and entered a plea of not guilty.

Inspector Tobin, who was the prosecuting officer, when questioned by the court, stated that he had not seen the outfit, and that the owner had not identified it, and accordingly the court was at a loss to understand how the man could be convicted. The case was continued for a day, pending the return of the Lawrence police with the horse and wagon to identify the horse and wagon.

ESSAY PRIZE WINNERS

PHILADELPHIA, July 7.—The National Municipal league announced today that the first prize offered by it to high school students for essays on "Keeping the Highways Clean" was awarded to Carroll Stansbury of the McKinley high school, Washington, D. C. Wellington G. Nicola of Attleboro, Mass., received honorable mention.

RECEPTION TO HUGHES

BRIDGEHAMPTON, N. Y., July 7.—Charles E. Hughes, the republican presidential nominee, and his wife went to Roslyn, L. I., today, where they were to be tendered a reception by the woman's auxiliary of the Hughes alliance. The reception was held at the home of Mrs. Harry Payne Whitney, a member of the executive committee.

The 50-mile trip was to be made by motor.

Four Mexicans were convicted of highway robbery in the superior court at San Diego, Cal., recently, by a jury composed of twelve women.

ROBERT W. WOOLLEY

Robert W. Woolley, director of the United States mint, is the newly appointed head of the democratic publicity bureau. Mr. Woolley will not relinquish his office to give his entire time to the campaign until Aug. 1. Just now Mr. Woolley is busy supervising the sculptors' models for the new coins. Mr. Woolley said that he expected the democratic campaign book to be completed by the middle of August, which would be two weeks earlier than in the campaign four years ago. Mr. Woolley is a Kentuckian by birth and a Virginian by residence and is forty-five years old. He was formerly a newspaper man and was the chief of the democratic publicity bureau in 1912 and editor of the campaign textbook, and his good work in the 1912 campaign won for him the well deserved recognition of reappointment this year. In 1911-12 he was the chief investigator of the Stanley committee which probed into the affairs of the United States Steel corporation. Before becoming director of the mint he was auditor of the treasury for the interior department.

DEATHS

LAVALLÉE—Cleophas Lavallee, an old resident of this city, died yesterday afternoon at his home, 635 Lakeview avenue, after a lingering illness, aged 74 years, 4 months, 11 days. He leaves four daughters, Misses Augustine, Alma and Florida Lavallee and Mrs. Albert Gauthier, all of Lowell; a brother, Joseph Lavallee of Montreal and one sister, Louise Lavallee, of Manchester, N. H.

SPROUT—Mrs. Alida Lafamme Sprout, wife of N. A. Sprout, died yesterday at her home, 260 A. Boston avenue, Medford Hillsides, Mass. She leaves, besides her husband, a son, Donald; a sister, Mrs. G. N. Shannahan of Beverly; and a brother, Louis Lafamme of this city.

BOWMAN—Harold Bowman, aged 2 years, 5 months, child of William and Catherine Bowman, died this morning at St. John's hospital. He leaves one brother, William. The body was removed to the home of Mr. and Mrs. Lynch, 14 Wameit street by Undertaker Higgins Bros.

FUNERALS

WATERMAN—The funeral services of Mrs. Mary Waterman were held yesterday afternoon from the parlors of Undertakers Young & Blais. The services were conducted by Rev. Mr. Craig, pastor of the First Presbyterian church. Mrs. Waterman was 61 years of age. Burial was in the family lot in the Westlawn cemetery.

MAILHOT—The funeral of Donat Mailhot, son of Mr. and Mrs. Ernest Mailhot, took place yesterday afternoon from the home of his parents, 92 Acton street, South Lowell. Burial was in the family lot in St. Joseph's cemetery, under the direction of Undertakers Amedee Archambault & Son.

GELINAS—The funeral of Mrs. Leon Gelinas took place yesterday afternoon at her home, 736 Moody street. Solemn high mass was celebrated in St. Joseph's church at 3 o'clock by Rev. C. Paquette, O.M.I. The bearers were Victor and Raoul Rochette and Dewey and Amedee Archambault. Burial was in St. Joseph's cemetery, where the communal prayers were read by Rev. Fr. Paquette, O.M.I. Funeral arrangements were in charge of Undertakers Amedee Archambault & Son.

HOBBES—The funeral services of Miss George L. Hobbs were held yesterday afternoon at her home at Pelham Center, many relatives and friends gathering to show their deep regard. Rev. Milton V. McAllister officiated as clergyman, and funeral selections were sung by Mrs. Bertha L. Grosley and Mrs. Estelle F. Hyde. Burial was in the family lot in the Gibson cemetery. A. L. Stevens, foreman, and R. L. Fletcher, shipper of the Nashua Saddlebury Hardware Co., and C. Winthrop Hobbs and Samuel Hobbs were the bearers.

ROUSSIN—The funeral of Louis Roussin took place this morning from the home, 53 Fifth avenue. High mass of requiem was celebrated at St. Joseph's church at 8 o'clock by Rev. C. Paquette, O.M.I. The bearers were Victor and Raoul Rochette and Dewey and Amedee Archambault. Burial was in St. Joseph's cemetery, where the communal prayers were read by Rev. Fr. Paquette, O.M.I. Funeral arrangements were in charge of Undertakers Amedee Archambault & Son.

To wed a man she never saw, Viola Kieckner recently left Sunbury, Pa., on a 7000-mile trip to Seward, Alaska, where she will become the wife of James M. Feyer, a mining engineer.

MATRIMONIAL

Joseph A. O'Brien, formerly of Lowell but now of Springfield, brother to D. S. O'Brien, the well known clothier of Merrimack street, was married recently in Springfield, to Miss Rose Lyons, one of the best known organists of that city. Mr. O'Brien is assistant manager in the Springfield store and both he and his wife are popular in Springfield circles. The happy couple are now on their wedding tour at the close of which they will reside in Springfield.

FUNERAL NOTICES

BOWMAN—The funeral of Harold Bowman will take place Sunday afternoon at 2 o'clock from the home of Mr. and Mrs. John Lynch, 14 Wameit street. Burial will take place in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers Higgins Bros.

VARNUM—Died in this city July 5th, Miss Hannah Varnum, aged 80 years and 1 month, at her home, 55 Salem street. Funeral services will be held at 2 o'clock Saturday afternoon at 2 o'clock. Friends are invited without further notice. Burial private. Pallbearers: Messrs. The funeral arrangements are in charge of Undertaker George W. Healey.

SUN BREVITIES

Best printing: Tobin's, Asso. Bldg. Auto supplies: Belknap, 23 Middle st. Joe M. Dineen, cameras, photo supplies. With R. E. Jordan, 44 Merr'k st. Miss Grace Murphy of 15 Franklin street and Miss Conley will spend the next two weeks at the Ocean house, Revere beach.

The trustees of the City Institution for Savings on July 5th, declared a regular semi-annual dividend of 2% at the rate of 4% per annum, payable to depositors on and after July 5th, 1916, amounting to \$199,640.

Elmer R. Hill, a cadet at the Naval academy at Annapolis, is enjoying the summer cruise of the students and for the past several weeks has been in Cuban waters. He is aboard the Wisconsin.

Mr. and Mrs. Joseph Martin of 8 Garret street have just observed the 30th anniversary of their wedding. Their friends assembled at their home a few evenings ago and presented them a purse of money. Refreshments and the usual good time followed.

A large number of women of Billerica responded to the appeal of Mrs. Joseph F. Talbot yesterday afternoon and assembled at Thomas Talbot Memorial hall, where they made bandages and other hospital necessities for the Red Cross society. It was agreed to hold two meetings each week for this purpose.

The drugists are to join with other local stores next Thursday and enjoy a day at the beach. As it is impossible for this branch of the city's business to be suspended for an entire day the stores will be open during the forenoon and close about 11 o'clock. Nantasket beach is the spot selected for this year's excursion and the committee in charge promises a good time to all.

CHARGES AGAINST OSBORNE WHITE PLAINS, N. Y., July 7.—Notwithstanding that Thomas Mott Osborne has been reinstated as warden of Sing Sing prison, District Attorney Frederick Weeks will, he said today, take every legal step to bring him to trial on the charge of immorality.

This accusation remains technically part of one of the two indictments brought against Mr. Osborne last December in connection with his administration of Sing Sing. One of these bills charged perjury and the trial resulted in acquittal.

U. S. FORMALLY ACCEPTS

D. C., for burial in Arlington cemetery.

The body of Lieut. Henry Adair is being held here awaiting instructions from relatives for its disposal. It is expected the bodies of the seven troopers brought from Carrizal will be buried at Arlington.

CONNECTICUT RECRUITS

ORDERED TO THE BORDER

CAMP HOLCOMB, Niantic, Conn., July 7.—An order from Maj. Gen. Wood, commanding the department of the east, to Major E. A. Shuttleworth, U.S.A., the camp commander, today was to the effect that all recruits in camp here who pass the physical test should be sent to the southwest beginning Tuesday next.

REPORT THAT VILLA IS

AGAIN SOUTH OF PARRAL

SAN ANTONIO, Tex., July 7.—General Pershing, according to General Funston today that a rumor had reached him of Francisco Villa's reappearance south of Parral. The report placed the estimate of Villa's men at from 800 to 2000.

U. S. REGULAR RESERVES

CALLED FOR FIRST TIME

WASHINGTON, July 7.—The war department was busy assembling for the first time in history the United States regular army reserve of four thousand men, who were called to the colors today. Announcement was made last night that these men would be summoned to assist in organizing additional regular army units about to be formed under the new national defense act.

On the other hand a material diminution of National Guard forces for border duty was in prospect as a result of Secretary Baker's order authorizing discharge from service of those guardsmen with dependent families.

The series of conferences between Counselor Polk of the state department and Eliseo Arruando, Mexican ambassador designate, for which the forthcoming note doubtless prepares the way, may extend beyond the question of protecting the border against future raids by "Gingoes" to the need of the Carranza government for financial support. This possibility created considerable interest here. It was regarded as an indication that the United States wishes to assist the neighbor republic to establish order. There was no thought, however, that the question of first importance in diplomatic discussions would be anything except protecting the border.

"VIVA GRINGOS!" CRY FOOD

RIOT LEADERS IN MEXICO

FIELD HEADQUARTERS IN MEXICO, July 5, via Radio to Columbus, N. M., July 5.—Starring Mexican women shouting "viva Gringos!" have stormed the governor's palace at San Luis Potosi, according to reports received today by Gen. Pershing.

Food riots, the reports to the American commander said, are occurring in all the larger Mexican cities. At San Luis Potosi the government supply of ground corn for distribution has been exhausted.

The gold paid to the natives by Gen. Pershing's men for supplies and labor is said to have increased the discontent of many Mexicans.

GUAYMAS, Mex., July 5, by Radio to

San Diego, Calif., July 6.—Women are leading bread riots in interior towns of the west coast Mexico states, according to reports received here today.

CARRANZA DECLARES JULY 9

A PUBLIC HOLIDAY

MEXICO CITY, Mex., July 7.—As a corollary to his last note to Washington inviting the United States to settle pending difficulties by accepting the mediation offers of South American republics, Gen. Carranza today issued a decree declaring Sunday, July 9, a public holiday in commemoration of the centenary of Argentine independence.

The decree said that the holiday was declared as a token of friendship for the people of Argentina.

MANY MEXICAN SOLDIERS

KILLED IN TRAIN CRASH

LAREDO, Tex., July 7.—Nearly 100 Carranza soldiers were killed and many injured in a rear-end collision which occurred June 29 between two north-bound troop trains at Calorote station, between San Luis Potosi and Saltillo, according to Mexican passengers arriving here last night from the south.

The wreckage caught fire, according to the report, incinerating many of the soldiers.

Two Cuban girls—Miss Marie Dolores Escanaveiro and Miss Agatha Karnauskas—who graduated from the Philadelphia College of Pharmacy this year, will open a drug store upon their return home and will be the first female druggists on the island.

THE FRENCH MAID SAYS

Hot Weather Cooking

"Mary wants to go away for a month and I think she ought to have a vacation. But I am sure I don't know what I am going to do about the work while she is gone," sighed Marie as she languidly came in to Marie for comfort.

"It is too bad it comes in hot weather," sympathized Marie. "It is really no fun to toll in the atmosphere of a hot kitchen while the mercury is at blood heat, and the only possible alternative seems to be cold meals and a dissatisfied family. Even in summer most men appreciate a warm substantial dinner after a hard day at the office far more than a glass of milk and a chocolate éclair or a fruit salad, though these edibles are not to be despised in their places."

But really there is no excuse for either an overheated, tired housewife, mother, or a cold dinner and a cross father these days when electric appliances are so moderate in cost and nearly every house or apartment is supplied with electricity. With a very small supply of these labor saving implements the problem of summer cooking may be solved to the satisfaction of everyone in the family. These implements are not luxury, but as much a part of the household equipment as the kitchen sink or the broom. They are the modern necessities of the first female druggists on the island, but once installed soon pay for themselves in a dozen different ways.

If you cannot have all of the splendid labor and heat saving conveniences at once, I do hope that you will at least put in one or two of them this summer. Of course, if it were possible, I should recommend the electric range for every kitchen. With such an apparatus it is possible to cook all day without heating the room. However, if this cannot be managed, there is the splendid little hot plate, as compact and convenient as any one could wish, with one, two or three burners, as may be required. Then there is the electric table range that is a wonder and costs comparatively little. With it one can prepare an entire meal on the dining table, all in the daintiest way possible, serving chops, potatoes or muffins piping hot and deliciously brown and appetizing."

CARD OF THANKS

We, the undersigned, take this means of expressing our appreciation to our relatives, friends and neighbors for the acts of kindness, words of comfort and beautiful floral tributes. All will be held in loving remembrance.

Mrs. Mary Lees,

ATTACKING THE STRONG

If any proof of the strength of President Wilson with the masses were needed, it would be afforded by the methods of those who oppose him. The lines of the campaign have not yet been clearly defined, but it is generally admitted that there is no great issue and that the result shall be determined on personalities rather than on principles. Realizing that the administration is proof against attack and that the extraordinary burdens of the past few years imposed unusual burdens on the government, the opponents of President Wilson have trained all their guns on the person of the president, and during the campaign he shall be placed in a light as unfavorable as can possibly be thrown upon him.

In this respect the co-operation of Theodore Roosevelt shall prove very convenient for Judge Hughes who has always kept himself above personalities in politics. He would be untrue to his record and to his reputation should he prove grossly unfair to an opponent, but he is lined up with a defeated candidate who is not any too nice in his methods of dealing with a political rival. In the coming campaign Mr. Roosevelt may be expected to do all the mud slinging or most of it, while Judge Hughes can still keep the reserve and dignity that proves his greatest asset. Unfortunately, the great questions that confront the administration are such as to permit of partisan unfairness, and those who attack and criticize President Wilson do not have to consult themselves to their course of action under similar circumstances. They merely pick out what they think weak spots and harp on them as though there was nothing else in the official career of the present chief executive.

So far the republican candidate and his supporters act and speak on the assumption that the people are set on the defeat of the present administration. This is surely a fallacy. Americans are thinking more deeply on national questions than ever before, and while the mud slingers harp on personalities the people are stirred over principles. The republican party has no great issue in the campaign and their champions cannot make out a good case, but even so they may soon see how short-sighted a campaign of attack may prove with a people who, when all is said and done, give the president credit for trying to do the best when the best was not easy.

TO THOUGHTFUL PROGRESSIVES

The misguided progressives who were swayed by the appeal of their false leader after the Chicago convention are in a sorry plight, finding it not only difficult but impossible to reconcile their present allegiance with their former principles. They try to explain by saying that they are with Mr. Hughes rather than with his party, and they like to believe that the republican candidate will not be run by the stand pat leaders.

This is a foolish and an untenable position and the sooner the progressives see it the more consistent will be their stand before the country. If they are ready to swallow Mr. Hughes they must be ready to enter his party, heart and soul, and consequently they must renounce the party and the principles they have fondly cherished and paraded with so much pride. Mr. Hughes is first and last a republican and he cannot succeed unless he has the full support of his party leaders—the very men whom the progressives protested against. He has given the progressives no pledge and if they follow him they are simply republicans of the same brand as the republicans who were in the party before the first Taft-Roosevelt split. There is no progressive party officially or otherwise, and the former progressives are either republicans or democrats at the present time. Any progressive who still thinks he is true to his principles and who is with Judge Hughes is doomed to disappointment.

Drawing an apt comparison between a situation in Germany and that of the progressives in this country at the present time the Hartford Times says:

The only parallel to this collapse of a party of liberal aspirations is the case of the German progressives. After a campaign of ten years of eloquent speeches and the compacting of a party of three million voters, the social democrats went over to the autocrats, with a few notable exceptions, and helped prosecute a war which went off for years the reforms they so passionately desired and strengthened the party they opposed. The difference is that the German progressives deserted their leader, Liebknecht, the American leader deserted his party.

Possibly there are some progressives who do not mind being under the republican banner again, but let them give up this talk of progressive ideals. The real progressives who cannot so easily surrender their principles belong to the democratic party, to which many of their most sincere leaders are turning.

TAKING ADVANTAGE

While we have been singularly free from the hoodlumism of other years in the celebration of Independence day this year, we have not been altogether immune. In at least two instances

plate glass windows of stores were broken, one by a bullet and the other by a torpedo. In each instance there is little doubt that the damage was deliberately done, through a perverted sense of celebrating in Bridgeport, Conn., a shot was fired at random into a large crowd gathered to witness a fireworks display, immediately killing a woman onlooker. Instances like this could be multiplied ad infinitum, proving that any popular excitement is seized upon by the hoodlums as an opportunity to do harm. The chances of escape at such time are many and unfortunate it is very difficult for the authorities to apprehend the guilty. The activities of pickpockets and sneak thieves during festive days is too well known to need elaboration and police departments everywhere strive to anticipate it by taking unusual precautions.

With regard to the firing of bullets at clocks and windows, none but those with an abnormal moral sense would commit such offenses, but they should be guarded against, and one way to do it is to be more strict in the selling of firearms. "Children and fools should not handle edged tools" says the old proverb, and the same is more true of guns in this our time. There is altogether too much liberty in permitting foreigners and others to carry revolvers around as though they were a kind of harmless toy, and so long as we have this condition we shall have the many tragedies and offenses to which it gives rise. The man who would fire a shot through a costly plate glass window will in time fire a shot at some unfortunate person and each recurring instance should be looked upon as a new incentive to corrective effort on the part of the authorities.

SUMMER PLAYGROUNDS

The opening of the various summer playgrounds will be welcome news to those hundreds of parents who live in daily dread of street accidents. Talk as you will and watch children ever so closely they will play on the most dangerous streets and unless there is an attractive substitute, warnings will have little avail. Every year the attendance at the summer playgrounds has grown and there can be no doubt of a liberal patronage this season. The children learn a great deal in organized play and in the many crafts taught, but the moral influence is still more beneficial. Taking advantage of the safe and sane surroundings the teachers have a fine opportunity to impress on children the value of caution and if the home lessons are supplemented by the lessons of the playgrounds there may be diminution in the number of deaths and serious accidents among Lowell juveniles. The opening of the proposed playground on Davidson street should not be long delayed as no section has suffered more through the lack of facilities for healthful and protected play. It seems too bad that the suggestions for a public bathing place have not yet been acted on, but this, too, must come in time.

THE GREAT OFFENSIVE

A million shells a day for five days! That is one estimate of the amount of ammunition now being used by the French and English in their vigorous attacks on the German line in the west. That it has been effective is evident, but whether in a degree compatible with the effort only time can tell. For the first time there is a general allied offensive on all fronts and the Germans are hard pressed to keep their lines intact. They have been driven back at some points for a considerable distance and if the struggle can be kept up by the allies, it must have a far reaching effect. Experts have said that neither side can win a great victory in the west, but it now looks as though the side that can pay the price can produce the results. Unquestionably the allies have a tremendous advantage in men and munitions but it remains to be seen whether they will wage a war that must exact a terrible toll from the attacker as well as the attacked. One thing is certain: Whatever the future may hold for the allies, the day of the great German offensive is over and from now on Germany can only keep off the defensive hoping for the best peace terms possible.

LATE HETTY GREEN

Mrs. Hetty Green is a conspicuous example of a woman who minded her own business, demonstrating thereby a quality that is not generally ascribed to her sex. Shrewd in her judgment, simple in her tastes, retiring in her habits, she lived an uneventful life and amassed a great deal of wealth by methods that are more defensible than those of some of the nation's other millionaires. If she never became popular she was as popular as she cared to become and she saw to it that her wish for a quiet life was respected.

EYES EXAMINED

By experts at the

Caswell Optical Co.

39 MERRIMACK ST.

Nothing is easier than for the post mortem critic to show how she could have done better things with her money, but she followed her own counsel in piling it up and she did not take kindly to suggestions as to how she ought to spend it. She had a good eye for business, had all the friends she cared to make, was a Christian woman and lived her life in her own deliberate way. Those who keep to facts will find little to say about her—and this is as she would have wished.

SEEN AND HEARD

The voters, when the time comes, will probably vote for four years more of sanity and safety.

He Did Telephone

Paris.—A court martial at the front. The presiding officer, speaking with a distinctly kindly intonation to the accused: "Now, now, admit that you telephoned." "No, my colonel, I did not telephone." "If you confess you will only have half the penalty." "Well, then, yes, my colonel, I did telephone." All the court laughed and a nominal sentence was pronounced. "The civilian should not imagine that the use of a telephone is a crime in the French army. To 'telephone' in army slang is to bore a little hole in a full barrel of wine, to fit a rubber tube thereto and apply the mouth to the other end."

Like Fort Hill

"Spooning" in public places in New Rochelle even after dark, if others can see it, must stop. This was the edict of Acting City Judge Bizez of New Rochelle as he fined Peter Arnyell \$15 for loitering in Stonelea park. Miss Julia Gleason of Echo Manor, the girl who was with Arnyell, was sent home and advised to be more circumspect. "I don't care if you spoon in Hudson park or Lovers' lane or anywhere where people cannot see you, but you must not spoon right out in public," said Judge Bizez. The residents of Stonelea park have complained to the police that the park is a favorite place for "spooning" and that youths and maidens of 15 years gather there. Robert Lesser, manager of Hudson park, who placed "spooning benches" near the shore in the park, may plant a hedge behind the benches to protect the young lovers as a result of Judge Bizez's ruling.

Common Sense Holidays

One of the most important uses of general holidays is that of giving rest to the thousands of shut-in city workers. A plan of observation that is most efficient in this direction is certainly one to be sought for. The community gets more benefit from Labor Day (with less business disturbance) than from all the other holidays put together. A common sense adjustment would be as follows:

New Year's first Monday in January.
Washington's Birthday, third Monday in February.
Memorial Day, last Monday in May.
Independence Day, first Monday in July.
Lincoln Day, first Monday in August.
Labor Day, first Monday in September.
Columbus Day, second Monday in October.

For practical reasons, the two homecoming days, Thanksgiving and Christmas—and also election day—could not well be changed. The transfer of Lincoln Day from the shortest month in the year (which also has another holiday) to one of the longest summer months which now has no holiday, would mean a general observance that is impossible under present conditions. Keeping the exact natal day is of comparative little importance. If this matter could be taken up by the energetic and efficient women of the Consumers' league, who have accomplished so much for the comfort of business workers, it would probably not be difficult to have these changes made.

—New York Evening Post.

Why He Isn't Neutral

A house divided against itself is bound to fall. Thus soliloquizes a certain ruddy-faced conductor on a suburban line. His motorcar is a great admirer of the Germans; while the conductor rages across the water, he hunts the papers for some note of German advance and victory. Each success is greeted with a smile, each repulse with a frown. There is no place on the front seat for those who aren't German sympathizers.

But we were talking about the conductor. He was orating one morning.

recently about what a great people the Germans were.

"How is it you're a German admirer?" innocently inquired a passenger. "I should think you'd be a neutral. You come from down in the state of Maine, and despite your twenty years up here you've still got that good old down east twang. I can understand the other fellow's German enthusiasm, but not yours."

"Well, you see," the conductor replied, "I get paid for running this car and trying to keep it on time. If I didn't agree with him, we'd have the line balled up all the time. 'Hurrah for the Germans!' We got thirty minutes to make the trip, and if yelling for the Germans can keep the sparks flying from the trolley, I'm for 'em every time!'—Brooklyn Daily Enterprise.

Life's Weaver

I sit today at the loom of life and weave and weave and weave; The warp is laid by hands divine, but the weft is where I grieve. For every moment in every day the shuttle flies through and through. And the patterns I scheme with the dreams I dream. Are made up of the things I do. I have naught to do with the warp I tread, the threads that are ready and set. But my duty lies as the shuttle flies in the fabric I'm weaving yet. Smiles and tears, kind words and fears are wound on the bobbin's wind. And every thoughtless word is there and every word unkind. And every act I would fain forget and every thought that were dark and vain. I view in the fabric of life I weave and see them and see them again. But I sit and weave with an aching heart and a world of intense regret. And tears fall fast as I view the past and I pray that I never forget. But out of repining and soul recoil I look in the future and see My life stretch out in its future plan and a new hope comes to me. I know not the length of the warp I view, I know not my given span, But into the fabric I yet may weave, I'll put the best I can. Smiles, and kindness, and patient care, unselfishness, service and love, Harmony, sunshine, faith and hope and thus my career I'll weave. When the "throw" shall fall from my nerveless hand and the shuttle lies at rest. May I hear the voice of the Master say: You've done what you thought was best.

—Wm. J. Robinson.

DISSOLVED BY LANDIS

AMERICAN BILL POSTERS' COMBINE MUST QUIT BUSINESS AS TRUST—DECREE EFFECTIVE SEPT. 1

CHICAGO, July 7.—Judge Landis yesterday entered the formal decree dissolving the Associated Bill Posters and Distributors of the United States and Canada. The decree conforms with the decision he gave two months ago in which he ordered the members of the Bill Posters association to disband and cease doing business as a trust. The operation of the decree was suspended until Sept. 1. The association is declared to be operated in restraint of trade and is permanently enjoined from continuing as such or entering into any further combinations to restrain the bill posting business in the United States.

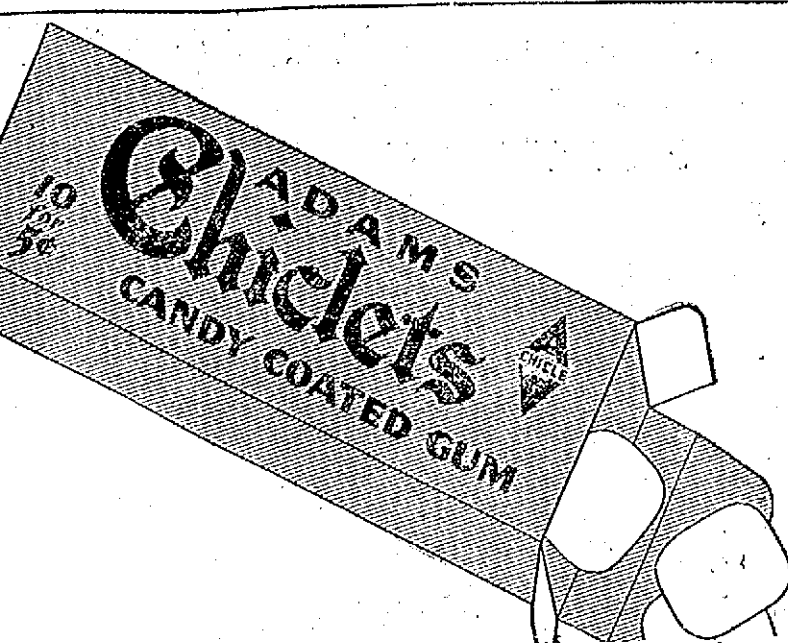

The decree prohibits the defendants from agreeing in any way to maintain prices, or to agree to limit the number of persons who may engage in the bill posting business, or hinder them in any way whatever. It provides that no competitor shall be restricted in any way from doing business with bill posters who are not members of the defendant organization.

The decree further enjoins the defendants from inducing manufacturers of stock or posters not to sell their goods in open competition to any and all purchasers. The government is authorized to recover the costs in the case.

KILLED HIS YOUNG WIFE

JOHN G. WILLIAMS SHOT NIECE WHOM HE WED AND THEN ENDED HIS LIFE

NORRISTOWN, Pa., July 7.—John G. Williams shot and killed his niece, Martha Reynolds, yesterday, and then committed suicide. After the tragedy it developed that the two had been secretly married in Atlantic City a year ago. He was 53 and the woman 27 years old. The shooting occurred in a bedroom on the second floor of the Reynolds residence at 295 East Elm street. Williams also shot at his sister, Mrs. Jennie Reynolds, mother of the dead woman, but the bullet missed her. When the police arrived at the house they found his victim with bullets through her head and breast. Williams had shot himself in the head.

I like Adams Chiclets because they like me. Mother says they're just right—candy and gum all in one. I put them in my mouth and let the candy melt. Then I chew the gum. It's dandy, fine gum, too. They are white as can be and sweet—well, I should say so.

AMERICAN CHICLE COMPANY

nie Reynolds, mother of the dead woman, but the bullet missed her. When the police arrived at the house they found his victim with bullets through her head and breast. Williams had shot himself in the head.

JAPANESE STEAMER LOST

TOKIO, July.—Japanese authorities think that the cargo steamer Soloko Maru of the Osaka Shosen Kaisha, which left Tacoma for Japan on the 22nd of March has been lost in mid-Pacific. The steamer chiefly carried munitions of war ordered by the Japanese government. No information as to the exact fate of the steamer is forthcoming.

SCARCITY OF RUBBER

MAASTRICHT, Netherlands, July.—So great is the scarcity of rubber in Germany that \$20 can be earned by the smuggling of a kilogram of it across the frontier. A slogan of the pitiable state of things in some sections of Belgium is found in the fact that manufacturers in Charleroi region are having potato peelings bought up everywhere. Out of these a sort of soup is made for the factory hands and their families.

NEW MONSTER AIRSHIP

BERNE, Switzerland, July.—People living along the Swiss border of the lake of Constance have been greatly surprised over the movements of the new monster-airship, much larger than all other Zeppelins, that has been making trial trips over the lake. The length of this ship is said to be 249 yards, or almost double that of other Zeppelins. The cubic content is even more than double, 54,000 cubic meters instead of 20,000, an number of the gondolas is four instead of two. These gondolas are said to be armed with guns, machine guns, and a new kind of air torpedo.

Despite its huge bulk the ship gives the impression of such like slenderness. The steering gear forms an exact cross. The motors are 3,000-horse power, able to give the airship a speed of 90 kilometers an hour. To avoid breakdowns, the motors are in double number. The crew is said to be 30 to 40 men. The ship can reach a height of three to four miles.

FRENCH MILITARY INDUSTRY

PARIS, July.—The minister of agriculture has just organized the French fruit industry, both the increase in production and processes of preserving, so as to compete with other fruit-producing countries.

The recent prohibition of the importation of fruit into France called attention to the fact that, while no country is better adapted to the production of fruit, France consumed annually about 60,000 tons more than she produced. M. Melhne, minister of agriculture, attributed the heavy importations of fruit into France to the fact that, aside from grapes, apples and pears, the French fruit growers generally have not developed as they might have done their method of canning and pre-

serving, and distribution of preserved fruits. The commission just appointed will be expected to report upon the favorable localities in France for the building of canning establishments and other ways of furnishing a quick market to fruit growers in the regions adapted to fruit culture.

OSBORNE REAPPOINTED

GOES BACK AS WARDEN OF SING SING PRISON—KIRCHWEY RESIGNED

NEW YORK, July 7.—George W. Kirchwey tendered his resignation as warden of Sing Sing to James M. Carter, state superintendent of prisons, here last night, and Thomas M. Osborne was reappointed to the office. Mr. Osborne, who retired as warden after he had been indicted on several counts by a Westchester county grand jury, will resume his duties on July 16, Mr. Carter announced.

ASKS \$5000 FOR A KISS

BOSTON, July 7.—Lora Mae Gibbons, who claims to be under 21 years of age, has entered a suit in the Suffolk Superior court against Gregory S. Meeryack, a Boston dentist, seeking to recover \$5000 for a stolen kiss.

Miss Gibbons says that on July 25, 1915, while the dentist was about to give, or was giving her professional treatment, he "deprived" her of her "freedom," violently held her down, "against her wishes" and with "force," indecently assaulted her by kissing her. The dentist lives at 599 Columbus avenue.

Muscle Soreness

Prevent soreness and lameness when playing tennis, ball, golf and other out-of-door sports, by having for instant use Micaard's Liniment the effective antiseptic which is pure and stainless and which is so popularly used by most every one this season.

LOWELL BOY IN TRENCHES

Joseph P. Tremblay With Canadians in France — Tunnelling Under German Trenches

Mrs. Aurelle Tremblay of 19 Brook-
ing street, this city, is in receipt of a
very interesting letter from her son,
Private Joseph P. Tremblay, a resident
of this city, who is now fighting in
the French trenches under the Cana-
dian colors. The young man, who has
a wife and two children in this city,
left here over a year ago and went to
Montreal, Que., where he enlisted in
the 22d Canadian Volunteer regiment.

hope you are the same. I have just
returned from a very enjoyable fur-
lough spent in Scotland, and I wish to
state it is the most wonderful coun-
try I have visited. I spent five days in
Edinburgh and had a great time. The
Scotchmen are very courteous to the
Canadian soldiers and they do any-
thing to have one feel at home. Upon
reaching Edinburgh I met a friend, a
young Scotchman and in his company
I visited all the points of interest in
that city and they are numerous. I
was taken through the district which
was recently raided by German Zepp-
elins and one could not imagine what
damage was caused if he did not see
it. I also visited an old battlefield
and at this place I had a photograph
taken. I will send you one as soon as
I receive them. It is possible that
you will not recognize me in this
photograph, for I am wearing a full
beard, and although I have not as yet
reached my 30th year, my whiskers
are practically grey.

I returned to the trenches a couple
of days ago and now I am in "hell"
again. Life in the trenches is not what
it is cracked up to be, for we suf-
fer from lack of sleep. The climate is
almost unbearable, the mercury mark-
ing over 50 in the shade, while it is
work and work all the time. Last eve-
ning I enjoyed a good sleep, but this
morning I was awakened bright and
early by the thundering cannons. So
far I have been very fortunate, for I
cannot complete the slightest in-
jury, while numerous of my compan-
ions and friends have given up their
lives for their country.

I believe it is safe to predict, moth-
er, that this brutal war will not be
brought to an end until at least an-
other winter is spent in the trenches.
I feel, however, that I will return to
Lowell some day, for I cannot believe
that I am to be killed on the battle-
field. My courage and health are good,
but am very homesick. I hope you
will be kind enough to send me a
copy of The Lowell Sun at least once
a week if not every day, for I am
longing to read about my Lowell
friends and what is doing in the
good old Spindle City.

I will now close. I am very tired
and it is quite late. I forgot to tell
you that I have been transferred and
am now connected with the tunnelling
company, that is the company
that digs underground. Our mission is
to dig tunnels under the German
trenches and then blow them up with
dynamite. The work is very dangerous
but I like it, for there is great satis-
faction in seeing hundreds of Boches
fly into the air and land on the op-
posing side. They deserve it all
for causing all this slaughter. Our
work is very interesting and appealing
for many of the "boys" have asked
to be transferred to the tunnelling
Co. Remember, we are going to win,
but none can tell how long it will
take.

Best regards to all and write often.
Do not forget to send me The Sun.
Your loving son,
Private Joseph P. Tremblay, Third
Canadian Tunnelling Co., B.E.F.,
France No. A 10 136.

business, try The Sun "Want" column.

DROWNED IN MERRIMACK

LITTLE GIRL LOST HER LIFE AT
HAVERHILL — BROTHER SAW
HER GO DOWN

HAVERHILL, July 7.—Four-year-
old Anna Sudol, daughter of Mr. and
Mrs. Michael Sudol, was drowned in
the Merrimack river late yesterday af-
ternoon. She and several other chil-
dren, including an older brother, were
playing near the county bridge, when
she reached over to grasp a rope which
moored a boat to the bank, and lost
her balance.

Her brother, who was only a year
older, was so frightened that he was
helpless to aid her or call for help.
The other children ran for aid, but be-
fore any adult person could be found,
the child was drowned.

BOY DROWNED AT CONCORD
CONCORD, N. H., July 7.—Howard
Crafts, aged 12, was drowned in the
Merrimack river near the public baths
at noon yesterday while the swimming
instructor was at luncheon. Young
Crafts was the son of Mr. and Mrs. Roy
Crafts, but had lived with his grand-
mother, Mrs. Yorke, in this city.

WATERVILLE LAD DROWNED
WATERVILLE, Me., July 7.—Clayton
Noyes, aged 18, son of Edward F.
Noyes, chief of the Elmwood hotel, was
drowned in the Messalonskee stream
yesterday, while learning to swim. He
was taken with cramps, and when Roy
Getchell, aged 16, tried to effect a re-
scue, he secured a grip on Getchell,
which forced the latter to loose his
hold. The body was recovered last
night.

TENSE STRIKE SITUATION

Haverhill Police Asked to Guard
Places of Employment When Strike-
breakers Appear Today

HAVERHILL, July 7.—Strike-break-
ers will be brought here to take the
places of hod carriers and building la-
borers who are on strike here. As a
result of the tense situation, the po-
lice were asked to guard various
places of employment today.

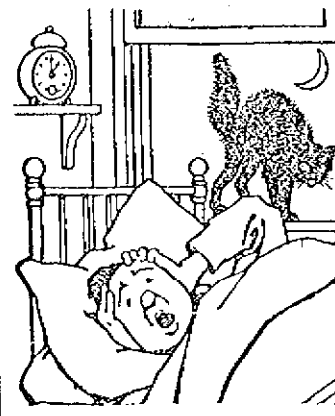

The Masters Builders' association
some time ago agreed to increase the
wages of mortar and brick carriers, but
declined to recognize the cellar dig-
gers and laborers as members of the
union. Yesterday's strike was the re-
sult.

Six contracting firms yesterday
granted the demands of the union, but
five companies are holding out.

Y. M. HEBREW ASSOCIATION
The member of the Young Men's
Hebrew association met last night
and elected officers for the ensuing
term. The contest proved to be a
spirited one and Max L. Korte was
elected president. The other officers
elected were as follows: Henry So-
kolsky, vice president; Aaron Water-
house, recording secretary; Louis J.
Blunk, financial secretary; Louis
Ducksham, treasurer; and William
Barlosky, custodian; A. S. Goldman,
Sigmund Rosler and Archie Barlofs-
ky, board of directors. A public in-
stallation will take place at the next
meeting.

The following were elected dele-
gates to the Y.M.H.A. convention to
be held at Manchester, N. H., Sept. 1-
3: A. S. Goldman, Sigmund Rosler,
Max L. Korte, Aaron Waterhouse.
The alternates chosen were Samuel Per-
lmuter, Henry Sokolsky, Archie Bar-
lofsky and Herman Soler.

Digest Well Sleep Well

Sanford's Ginger

Helps digestion that
goes on during sleep.
Intestinal indigestion is
a common cause of
sleeplessness.

A delicious combination of ginger, aromatic
and French brandy for the relief of cramps,
colic, indigestion, flatulence, nervousness and
insomnia. Look for the Owl Trade Mark on
the wrapper, lest you get a cheap, worthless or
dangerous substitute. Forty years the standard
of purity, flavor and strength. Sold by all
druggists and grocers.

SOCIAL AND FRATERNAL

The regular meeting of the Ladies'
Auxiliary of Street Clemen's union
divisions 250 and 551, was held Wednes-
day night with Mrs. Lowe. The principal
business of the meeting was the elec-
tion of officers for the ensuing six
months which resulted as follows:
Mrs. William Mahoney, president;
Miss Ada Wood, first vice president;
Mrs. Oscar Charlton, second vice
president; Mrs. E. A. Welch, secreta-
ry; Mrs. W. E. Sprague, treasurer;
Mrs. Westcott, and Mrs. Mc-
Leod and Mrs. Quinlan, trustees.
The lawn party and gentlemen's
night held with Mrs. Charlton was re-
ported a success, about 70 being pres-
ent.

The next meeting will be held with
Mrs. Murphy, Hovey square, July 13.

Central Council, A.O.H.

A well attended meeting of the Cen-
tral council of the Ancient Order of
Hibernians was held last night in A.O.
H. hall to make arrangements for the
state convention, which is to be held
in this city next month. John P.
Sheahan presided and it was an-
nounced that rooms for the delegates
are being provided.

The sessions of the convention will
be held in Associate hall and the La-
dies Auxiliary will hold their conven-
tion in Hibernian hall at the same
time. It was voted that the five divi-
sions of Hibernians hold a grand field
day some time during the month of
August, and different sub-committees
were appointed to make proper ar-
rangements for the event. All re-
ports from the sub-committees in
charge of the convention showed much
progress in relation to the affair and
many forms of amusement for the 500
delegates will be provided. The com-
mittee adjourned to meet next Thurs-
day evening.

PROHIBITIVE MEAT PRICES

To show that the prediction of high-
er meat prices in July is a matter of
grave concern, only a brief reference
to past figures is needed.

From retail prices in forty cities
the Statistical Abstract shows sirloin
and round steak, rib roast, pork chops,
bacon, ham and lard to have risen in
price nearly 40 per cent between 1907
and 1914. Hard times and less de-
mand for a few months kept prices
stable, but they rose again toward the
end of 1915. Now figures for New
York show for the same list a further
rise which would make the ten-year
increase 61 per cent. The completed
year may show an even greater in-
crement.

As housewives know, pot fowls have
not risen in the same proportion. Ev-
en here the ten-year increase, on
data incomplete for 1916, is 36 per cent.
Of other foods, prices have been much
more erratic, rising and falling sharp-
ly, so that for meat substitutes the
outlook is less dark. What appeals in
the meat-price movement is that it
has been a steady rise, every year of
the decade showing its advance.

We may be a long way from meat
cured yet, but these means are found
to check the increase the meat diet
of millions of Americans will be scan-
tily thin in the past—New York
World.

OVATION FOR INDIAN POET

TOKIO, July.—Sir Rabindranath
Tagore, the famous Indian poet, who
has come to Japan to study the psy-
chology of its people, has received re-
markable ovations here. At each place
his train stopped he was acclaimed by
the people. His path was strewn with
flowers and garlands were hung about
his shoulders. At one town a party
of Buddhist priests boarded the poet's
train and performed a service of wel-
come, burning incense all the while.

The poet will stay several months
and as far as possible live a life of
seclusion. This will be difficult, for
admiration for Tagore and his writ-
ings is one of the powerful influences
which dominate the Japan of today
and the people have arranged every-
where to show their homage.

CLEAN HANDS

Soap and water are insufficient.
Keep nails trimmed and smooth,
avoid hang-nails and dead cuticle.
Ten minutes twice a week with
the proper implements accomplishes
all of this. See us.

GEO. RAPSON ARRAIGNED

Will Be Tried for Firing Shots at His Wife—Other Cases in the Police Court

George Rapson, who it is alleged fired several shots at his wife at their home in South Lowell on April 6th, was arraigned before Judge John J. Pickman in the regular session of the police court this morning. He was charged with assault with intent to commit murder, and through his counsel, Hayden G. Hill, a plea of not guilty was entered. The court found probable cause of guilt and ordered him to be held under \$2000 bonds for the superior court.

It will be remembered that Rapson and his wife had some family trouble and upon returning home one day he fired several shots at her, none of which took effect, and later he entered the woods and fired another shot. It was thought that the shot fired in the woods was one that Rapson had fired in order to end his own life, but he was uninjured when found by the police.

When he was arraigned in court it was deemed advisable to place him under observation in order to ascertain whether he was sane. As a result a report was submitted to the court, claiming that Rapson is sane, therefore he will be held for trial.

Other Cases Heard

James Ryan and Alex Campbell were charged with drunkenness and disturbing the peace and each entered a plea of guilty. According to the testimony of Patrolman Daniel Lane, the

men got into an argument in the vicinity of Tower's corner and after a wordy battle they started to use their fists. The defendants were fined \$3 each on the charge of disturbing the peace and the cases of drunkenness were placed on file.

Alleged Non-Support

George Bolsvert pleaded not guilty to failing to provide support for his wife, Celina. After the complainant and her husband had offered testimony it was decided to postpone sentence until next Monday, it being deemed advisable to send Bolsvert up to jail for a few days in order to recuperate.

Wincenty Sarna was also charged with neglecting his wife and the latter said that her main support was her husband's son, a boy of about 15 years, who had been earning between \$7 and \$8 a week, giving some money to her and some to his father. Sarna convinced the court that he had not with an injury several months ago and for that reason he had been unable to work for a long time. He admitted, however, that he is able to work at his trade at the present time and has been able for several weeks. The court after being assured by the defendant that he would go to work and support his family ordered him to pay \$3.50 each week towards her support.

NEW BRITISH DRIVE

Continued

shelling the German positions and the roads in their rear, and until the infantry again leaves the trenches it will be uncertain where the next attacks are to be launched.

In addition to inflicting losses on the Germans in men, guns and territory, the Anglo-French offensive is reported to have compelled them to withdraw some of their forces from the Verdun front. Consequently it is expected in London that the army which for nearly five months withstood the German attacks in that region will have some relief from continual fighting.

The eastern front the Russians, who now apparently have a better supply of guns and ammunition than their adversaries, seem to pass from one phase to the next without intermission. Gen. Letchitzky's army which conquered Bukovina and cut the railway between Delatyn and Koromez, is advancing in an effort completely to overcome the Austrian forces on that front. Gen. Kaledin is continuing to deliver heavy strokes against the Austrians and Germans who are endeavoring to keep him from Kovel. With these operations in full swing, the Russians to the north have inau-

gured an offensive from Riga to Baranovich. Along the northern end of the line from Riga to Dvinsk, a great bombardment has begun, while from a point east of Vilna to Baranovich, artillery preparation was followed by an attack in which the Russians report they made many prisoners, repulsing German counter attacks. Near Smorgon also, the Russians and Germans are engaged in a severe struggle.

Rumania, it is said here, is awaiting some move by the entente forces in the Balkans. The near east is interested in the battles throughout the Caucasus and Mesopotamia. The Russian force which was advancing toward Bagdad has fallen back some 80 miles under pressure from great Turkish forces, but elsewhere from the Black sea to the Persian frontier the Russians are, according to their own statements, more than holding their own. No news has been received recently from the British forces in Mesopotamia, but it is believed inactively has been enforced by the great heat.

TEUTONS LOSE HALF A MILLION IN RUSSIAN DRIVE

PETROGRAD, via London, July 7.—

Nearly half a million Austrians and Germans have been put out of commission since Gen. Brusilov began his great advance a month ago yesterday. The grand total of prisoners to date is in round numbers 235,000, of which 4600 are officers.

Without the actual figures regarding the dead and wounded, careful estimates by military experts, based on the best information, place the latter at 200,000. The Austrians predominate overwhelmingly among the prisoners, but among the dead and wounded it is said that a fairly large percentage are Germans. The German losses in stopping the Russian advance on Kovel and in counterattacks made in solid ranks, were enormous.

"Incalculable" Figures

The body captured reaches incalculable figures. It is figured that 350 guns of various sizes and upward of 900 machine guns is a conservative estimate. In addition vast quantities of munitions, supplies and transports have fallen into the hands of the Russians.

The success of Gen. Letchitzky's advance west of Kolomea, where he has cut the railway into Hungary at Jilichiryn, is emphasized as a new body blow to the Austrian defence of East Galicia. Northwest of Kolomea, his troops are within ten miles of Nadworna, well to the rear of the Austrian right flank, facing Tarnopol between the Strips and Zlota rivers.

Threaten German Flank

On the extreme right flank of Brusilov's front the Russians are viciously attacking the Germans at Czartorsky and Kozki. They have broken through the German line of the enemy's fortifications here, threatening the flank of the German positions before Lutsk. These successes have considerably lessened the pressure on the Russian centre in that district.

Another interesting situation is developing at Baranovich, where the advancing forces of the Russian offensive have brought their heavy guns within reach of that important railway junction.

RUSSIANS BEGIN TREMENDOUS OFFENSIVE AT THE RIGA FRONT

LONDON, July 7.—The Russians have begun a tremendous offensive on the Riga front where their artillery is destroying the German trenches, says a despatch to the Exchange Telegraph Co. from Vienna, via Copenhagen.

The bombardment, the despatch adds, lasted 24 hours and the Germans were helpless before the Russian artillery which can now fire 50 shells at a point in 1914.

AUSTRO-HUNGARIAN WAR OFFICE REPORTS REPULSE OF RUSSIAN ATTACKS

BERLIN, July 7. (By wireless to Saville).—The text of the Austro-Hungarian war office statement of July 3, says:

"The fighting near Kolomea, (Galicia) was extended. A strong hostile advance west of the town was checked by a counter attack. Southeast of the town, German and Austro-Hungarian troops fought with artillery and infantry an attack by a large force of Russian cavalry.

"South of Lutsk, (Volhynia) the attack of the Teutonic allies gained further ground. Violent Russian advances west and south of Lutsk were repulsed by a Russian cavalry attack in the Zloczevka district also was a failure.

"Northeast of Baranovich German and Austro-Hungarian troops repulsed strong attacks for which preparation was made with violent artillery fire. In the vicinity of the town there was great activity on the part of the enemy's cannon and mine throwers against the Doherd heights, particularly south of Monte Dolseidus. Isolated and severe hand grenade engagements developed. In the Marmolats district and on the Austro-Hungarian front, between the Brenita and the Adige several attacks of the enemy were repulsed.

"In the vicinity of Monte Interoto, Lieut. Kaiser with a patrol of six men returned from a successful enterprise against hostile machine guns with 26 captured Italians, among whom were four officers. In other places yesterday 14 officers and 366 men were captured."

THE BRITISH CAPTURE GERMAN TRENCH EAST OF LA BOISSELLE

LONDON, July 7, 2:45 p. m.—Capture by the British of a German trench on

a front of 1000 yards east of La Boisselle, in the Somme region, was announced today by the British.

The British assumed the offensive on certain sectors east of Albert at dawn today. At the same time the Germans launched heavy attacks on the British trenches near the Ancre. Violent fighting is now in progress.

In the vicinity of Ovillers and Contalmaison, as well as near La Boisselle, the British made progress. In the region of Thiepval the Germans regained a section of lost ground.

The statement follows: "This morning in certain sectors of the battlefield east of Albert we resumed a vigorous offensive at dawn. The Germans at the same time launched heavy attacks on our new trenches in the vicinity of the Ancre and north of Pricourt with the result that violent fighting is now in progress along the whole front between the Ancre and Montauban.

"Up to the present time several important tactical successes have been gained by our infantry in the vicinity of Ovillers, La Boisselle and Contalmaison but northwest of Thiepval the enemy succeeded temporarily in regaining two or three hundred yards of lost ground."

The operations of last night, before the resumption of the offensive reported in the foregoing statement, are described in an earlier official communication as follows:

"Last night the enemy heavily bombarded our new positions at Bernafay wood and Montauban and near La Boisselle using in some places Lacrimatory shells. East of La Boisselle, after severe fighting in which the enemy suffered heavy casualties, we captured another trench on a front of 1000 yards where we are now firmly established."

"Southwest of Thiepval a determined attack on our new lines was completely crushed."

The enemy's artillery was particularly active in the Loos salient and opposite Hulluch. Our artillery shelled the enemy's communication trenches and billets at various places. We successfully sprang two mines opposite Auchy and Hulluch."

BRITISH SHIP GANNET OF LONDON HAS BEEN SUNK

LONDON, July 7.—The British steamship Gannet of London has been sunk. She was unarmed.

The Gannet was 245 feet long and of 112 tons gross.

SUBSTANCE OF THE RUSSO-JAPANESE CONVENTION SIGNED ON JULY 3

TOKIO, July 7.—The Japanese foreign office today announced as the substance of the Russo-Japanese convention signed at Petrograd on July 3, the following:

"First—Japan will take part in no arrangement or political combination directed against Russia. Russia will take part in no arrangement or political combination directed against Japan."

"Second—In case the territorial rights or special interests in the far East of one of the contracting parties which are recognized by the other contracting party, are menaced, Japan and Russia will consult with each other on measures to adopt with a view to supporting or extending assistance for the safeguarding and defense of these rights and interests."

"To a question from The Associated Press representative as to what effect the alliance would have upon the open door and the integrity of China, the foreign office replied:

"The convention is effectually an emphasis upon an extension of the Anglo-Japanese alliance, based upon the territorial integrity of China, whose open door and integrity are not endangered. American trade and interests are in no wise affected."

The foreign office denied affirmations in Japanese newspapers that the convention contained secret clauses. It was stated that while the summary given out was the substance of the convention it also was virtually the text of that document.

The accord, which is virtually an alliance, is regarded here as of historic importance as concerns the future development of the far east and world politics generally. It ends a long period of hostility between the two empires which culminated in the Russo-Japanese war, and strengthens the position of Japan as a first class power."

BRITISH STEAMER SEIZED BY GERMAN WARSHIPS NEAR ENGLISH COAST

BERLIN, July 7, via London, 3:05 p. m.—Official announcement was made today that the British steamship Lestriss was held up by German warships near the English coast and seized as a prize.

The statement says the Lestriss was held up "by a portion of the German high sea forces."

The announcement follows: "The British steamship Lestriss from Liverpool, has been held up by a portion of the German high sea forces not far from the English coast and seized as a prize."

This German statement is the first indication that a part at least of the German high sea fleet was near the English coast at the time the Lestriss was seized.

The Lestriss is a steamship of 1351 tons gross, owned in Cork. This is the second exploit of the kind on the part of the Germans. On June 16 the British steamship Brussels was captured by German destroyers and taken with her passengers into Zeebrugge.

SORTING OF BOOTY TAKEN BY FRENCH BRINGS TO LIGHT CURIOUS FACTS

PARIS, July 7.—The work of sorting the booty taken by the French troops in the fighting at the Somme brings to light many curious facts. In the Merecourt wood a heavy German battery was found completely dismantled. The battery commander's shelter alone remained intact.

The luxury of the arrangements in the German positions on the Santerre plateau showed that they were considered impregnable. In the positions occupied by the battery mentioned were a piano, a brass bedstead and a complete hot and cold water supply. The greatest booty fell to General Balfourier's famous "Iron Corps" which distinguished itself at Verdun. This corps took enough material to set up a whole army.

QUIET PREVAILED LAST NIGHT ON BOTH SIDES OF THE SOMME RIVER

PARIS, July 7.—Quiet prevailed last night on both sides of the Somme river, says today's war office statement. The artillery of both sides was active on the left and right banks of the Meuse, especially on the Thiaumont plateau and in the vicinity of Chateau de la Motte. The German attack on the French trenches at the Le Prete woods failed.

German aeroplanes, the report as-

serts, yesterday dropped bombs on the town of Lure, killing eleven persons, all of whom except one were women and children. Two German machines were brought down near Meziere.

The text of the statement follows:

"The night passed quietly on both sides of the Somme river. On the left bank of the River Meuse there was an intermittent bombardment last night while on the right bank the artillery fighting became very violent in the vicinity of the Thiaumont work and in the sectors of Fleury and Chenois. At the Le Prete wood the enemy yesterday delivered a small attack upon one of our trenches, but they were at once driven out of the position where they succeeded in gaining lodgement. In this same sector a surprise attack by us was in all respects successful along a front of 200 yards. Our grenade throwers cleaned out the trenches of the enemy and we brought back some prisoners."

"German aeroplanes yesterday threw down several bombs on the open town of Lure. Eleven persons were killed and three were wounded. With the exception of one soldier all the victims were either women or children. This was an act of reprisal for our activity of July 6, when one of our air squadrons threw down with success 40 bombs from the railroad junction at Hem, to the west of Charleville. On the return trip from this point there were a number of engagements with German machines in which our escorting aeroplanes took part. Two German machines were brought down, one near Meziere and the other in the region of Lefrancourt."

TWO AMERICANS WOUNDED WHEN SHELL WRECKED AUTO ON VERDUN FRONT

PARIS, July 7.—A six-inch shell which burst near the Richard Norton section of the American automobile company's line on the Verdun front, wrecked one of the ambulance cars and fragments of the shell struck the two American drivers. Harry Howard Hollinshead of Sparta, N. J., suffered a flesh wound in the left forearm and Jacob Wendell of New York, formerly of Sandridgebury, England, was wounded in the back. None of the French wounded in the ambulance was struck by the shell fragment. The Norton section of the American ambulance was filled with French wounded at the time.

THE JUVENILE OFFENDERS

SESSION OF COURT BEFORE JUDGE ENRIGHT—BOYS UP FOR BREAKING AND ENTERING

Judge Enright presided over the juvenile session of the police court this morning and there were so many cases to be disposed of that it was noon before court adjourned.

The principal case brought to the attention of the court was that of George D. Jones, who was charged with unlawfully carrying a pistol. He was placed in the custody of the probation officer for four months. Jones and Eva Duprey, aged about 15 years and residing at 270 Thorndike street, were out walking Sunday night and upon arriving at the Duprey home Jones displayed a revolver and fired off shot after shot. Thinking that the barrel of the revolver was empty he

turned it over to Miss Duprey and she kept pulling at the trigger until finally there was a report and it was found that a cartridge of 22 calibre had entered the body of her brother, Edward, aged seven years. The ambulance was summoned but the boy fled before it arrived.

Breaking and Entering

Five boys were arraigned on complaints charging them with breaking and entering and larceny and they were placed in the care of the probation officer also. It is alleged that the youngsters broke into the warehouse of the National Biscuit Co. in Market street and also made an attempt to enter the Kresge 5 and 10 cent store in Merrimack street.

Recently six boys broke into a freight car and stole a number of wartermen. They, however, left a trail which led to their identity and when brought before the court this morning each was held under \$100 bonds for their appearance one month from today.

NO HALT AT CARTRIDGE CO.

REPORT THAT ONE DEPARTMENT WOULD SHUT DOWN WHEN ORDER IS COMPLETED IS NOT TRUE

The United States Cartridge Co. is completing a large order of primers for heavy artillery shells, which were being made for another ammunition company. It was stated this morning that the order will be completed about Aug. 1.

There are about 600 men and women employed in this department, and many feared they would be out of employment as soon as the order is completed, but it is understood that they will all be cared for by the company, for as soon as the primer order is finished the work will be started in this particular department.

ENFORCING THE TRAFFIC RULES

Edward Butler of 261 Lewis street, Bridgeport, Conn., owner and driver of a Ford touring car, came to Lowell this morning and was taught a lesson about traffic rules and speed regulations in Massachusetts by Traffic Officer Sheridan.

Mr. Butler and his family were driving through Central street at a fair rate of speed, and when the machine rounded the corner of Merrimack street, the man, at the wheel paid no heed to the signals of the traffic officer. The latter rushed to the machine and had it brought to a stop and then gave the chauffeur a bit of advice concerning traffic regulations. The man at the wheel said he knew all about the laws as he was from Connecticut and he did not have time to argue with the officer. He said he was on his way to Newburyport and from there he would ride to the White mountains and he was not inclined to brook any delay.

Officer Sheridan detained him long enough to impress upon him that the laws of Massachusetts are little different from those of Connecticut and he warned Mr. Butler that he will observe the traffic laws in Lowell every time he passes through.

If you want help at home or in your business, try The Sun "Want" column.

TO END THE WAR

Committee of Germans Plans an Honorable Conclusion of Peace

BERLIN, July 7, via London.—Numerous scientists, industrialists and representatives of commerce and agriculture, have formed a German national committee under the chairmanship of Prince von Wedel, says the Koelnische Zeitung with the aim of "awakening a uniform understanding of the German people for an honorable conclusion of peace which shall guarantee a secured future empire."

"In doing this," says the Koelnische Zeitung, "all one-sidedness is to be avoided."

F. J. DONAHUE ESCAPED

HE BETRAYED CONFIDENCE OF OFFICER CAWLEY—SKIPPED IN BOSTON

Frank J. Donahue, convicted of complaints charging him with drunkenness, made his escape from Court Officer Peter Cawley while the latter was escorting Donahue and another prisoner to the state farm at Bridgewater yesterday. Donahue is still at large but the police are confident that he will soon be rearrested. A capias has been issued for his arrest.

Donahue appeared before the court yesterday morning and pleaded guilty to a complaint charging him with being drunk and owing to the fact that he was on parole from the state farm Judge Enright could do nothing but continue the case until this morning and return Donahue to the state farm. Donahue later changed his plea and said he was not guilty and pleaded with the court to be given just one more chance but Judge Enright told him that he had no jurisdiction in the case on account of Donahue being on parole.

As Donahue was leaving the dock to be taken down stairs he shouted: "I will never serve a day of that sentence."

Yesterday afternoon Officer Cawley took Donahue and another prisoner who was to be returned to the state farm. The other man was manacled to Officer Cawley, but Donahue, who it was thought would walk along peacefully, was not manacled. Upon reaching Boston it was necessary to cross over the city to the South station and all of a sudden Donahue, turning to Officer Cawley, bid him good-bye and made a dash for liberty. The officer was handicapped owing to the fact that he had another prisoner and Donahue made his get-away. It is expected the police will have him back in a day or two.

DEBATE ON REVENUE BILL

WASHINGTON, July 7.—The house today continued debate which started yesterday on the administration revenue bill. Beginning tomorrow the measure will be taken up section by section for discussion. A final vote is set for Monday.

LOWELL TRIMMED AT LYNN

Bonsack, Who Replaced Green, Failed to Make Good—Lowell Lost Four Run Lead

Special to The Sun
LYNN, July 7.—Kid Bonsack exploded with a long report yesterday with the fifth inning of the festivities with Lowell at Ocean park and Lou Pieper's hired men took advantage of his lack of control and his inability to keep the horsehold steady out of the groove and annexed several runs to settle the game in the fourth with the one secured in the fourth and another one in the seventh the game was packed away in the Lynn speech. 5-4.

Lou Pieper sent Frankie Muller, the former Lynn classic right fielder, back to the mound and after the fourth inning "Dutch" sent the Lowell players back to the bench as fast as they strode to the platter. Frank's support was not up to major league calibre as the first runs secured off his delivery in the second were the result of a bar chuck from Conley. Muller pitched a pretty good article of ball but was continually being applauded for his fine work by the 500 spectators in the bleachers.

Paddy Green started for Lowell and lasted until the fourth, when the Lynn players commenced to get to him in good shape. But Kilhullen was ready and after two bingles introduced Bonsack, who must bear the loss of the game. Bonsack did not have anything and was hit hard.

Jud Daley and Joe Kilhullen were the headlines in the hitting department with three crashes but one of the Lowell's managers went for a couple of hassocks on account of Porter sailing after a long hoist in the first chapter like a navigator. Denoville played a nice game at first, while Bobby Prysock pulled the Lowell's back in the second and third innings. Bobby Prysock pulled down a long hoist of Torphy's in deep right which was tagged for three runs.

Kilhullen got a double in Lowell's first on a poor fielding, but Kilhullen failed to score. Daley got a cheap hit when Kane failed to hold his line after a long run and stole second but could not register.

In the second Lowell scored three runs. Briggs, the first man up, got a hit when his crash bounded off the pitcher's rubber. Kane slugged into the right field bleachers for a couple of sacks. Torphy hit to Conley, whose throw struck Briggs, and the ball rolled to the fence, Briggs and Kane scored. Greenough fanned and Greenough scored. Kilhullen hit to right, but Daley's return peg nailed Stimpson.

Lowell added another and what proved their final run in the fourth. Torphy singled to left, Greenough sacrificed, Green flied to Ocutt. Stimpson singled to left and Porter, playing in back of short, made a bad peg to

IS STAR OUTFIELDER

HAL CHASE BEING USED IN CARDEN BY MANAGER HERZOG—IS A VALUABLE MAN

When Charley Herzog signed Hal Chase for the Reds, many persons who professed to know asserted the time Yankee star was too temperamental to play for the high-strung Marylander, and that he would disrupt the harmony which then obtained among the Herzog tribe.

But the Hedland chief, eager to win a pennant for the citadel beyond the Rhine for the first time in the history of the National league, did not hesitate. He knew that Hal wasn't through as a major leaguer. To be sure, Chase hadn't shown his old form while playing for the Buffeds, but Herzog decided to take a chance on him, and now he is envied by every other manager in the majors.

Hal Chase has come back. He has bolstered up the Red clan where it was weakest, in the outfield. He is a tower of strength to the offense as well, and if the Reds succeed in finishing well up, it is safe to say Chase will have figured prominently in the achievement.

"Why, of course, Hal and I hit it off well together. I don't find anything unusual in playing on the same team with Hal. I know he is a brilliant ball player and that he is perfectly human. He may be temperamental, but so am I."

"I think Hal Chase is the best first baseman in the game today. We are using him in the outfield because Stollwitz's hitting is too valuable an asset to have idle, and Hal is a corking outfielder. Chase is playing the game all the time and for all he is worth, and when a man does that he won't have much chance to go wrong with me."

FEATURES FOR BASEBALL

BIG LEAGUES TO INTRODUCE INNOVATIONS TO MAKE BASEBALL MORE ATTRACTIVE

NEW YORK, July 7.—That the big league baseball magnates are studying ways and means to make the game still more attractive to its patrons is evidenced by several suggestions and innovations now being discussed around the American and National circuits. The Cleveland club of the American league has just inaugurated a system of numbering the players in order that the casual attendant at the games may have no difficulty in identifying the different members of the team. President B. B. Johnson is openly advocating the elimination of the pinch hitter and the system now in vogue of shifting pitchers upon the slightest pretext.

There appears to be a strong sentiment among the fans in favor of the plan of numbering the players and it is surprising how few of the average spectators can point out with absolute certainty the various players upon the field, especially the members of the visiting club. Certain stars such as the Cobbs, Tris Speaker, Johnny Evers, Benny Kauff, Walter Johnson, Grover Alexander and others of similar calibre are easily distinguished when the team is in the field. Players of lesser fame, however, are frequently mixed by those spectators who do not attend games regularly and the numbering of each member, both regular

DIAMOND GOSSIP

The crusade inaugurated by the officials of the New York American League baseball club against the light of color in spectators in retaining foul balls knocked into the stands and bleachers is already showing satisfactory results. The example made recently by the arrest and fining of a few spectators who refused to return balls that came into their possession has proved salutary and the club is now using fewer balls than was the case before the effort was made to curb the practice.

The officials state that they were forced to take action as a result of the number of baseballs lost during every game played upon the home grounds. It is estimated that close to 3000 balls are used during the season and at \$1.25 each they represented an outlay of more than \$3500 each year. A considerable percentage of these balls are lost in the manner described. While the team is on the road no difficulty is experienced in this direction as the marks of other cities are guarded by regular police and not special officers such as is the case in New York.

Major league baseball clubs have already started their annual tryout of college players who have made good on "varisty" diamonds this season. While the scotch of the various leagues have been rather liberal in their recommendations, it is not likely that many of these youngsters will be able to successfully make the leap from the college team to the big league combinations. Both the Philadelphia Athletics and the New York Giants are at present trying out several of the more promising of the "varisty" recruits and it may be that one or two will stand the test.

The Giants will give Pitcher George Smith of Columbia, Pitcher Way of

Yale and Second Baseman Stafford of Tufts a tryout and hope to develop at least one of the trio before the season closes. Connie Mack has a team made of Stafford's in Carroll, former catcher for Tufts, and Pitcher Johnson of Ursinus working with the team. Other clubs have added a collegian or two to their rosters within the past week or two but owing to the closeness of the race in the two leagues are loath to use them in the play at this time.

Rube Odling, who obtained his release from the Athletics the other day on a plea that he wanted to retire from baseball owing to poor health, is now being sought by the Yankees. The accident to Gilkooly in Washington on Monday, and Fritz Maisel still being on the disability list, put the Yankees in a bad way for outfielders and yesterday Connie Mack received word from Bill Donovan asking for permission toicker with Odling. Mack informed Donovan that as Odling had been released by the Athletics club he had no claim on his former star and that he had no objection if the New York club did business with Odling. Mack, however, informed Donovan that inasmuch as Odling had secured his release after promising that he was retiring, he did not think the New York club could secure him. Donovan is making a try and he sent an agent to seek Odling at his farm near Bridgeton, N. J.

A report from St. Louis that John McGraw has offered the Cardinals \$15,000 for Slim Harry Salice was denied vehemently by John B. Foster, secretary of the Cardinals. "Yes, McGraw would give something for him," said Foster. "Anybody would be glad to have Salice on his team, but as for that \$15,000 story—no chance! I don't know just what sort of an offer McGraw would make now or has made for the southpaw, whether players or money or both. I haven't discussed the thing with him at all lately. Don't worry about any \$15,000, though. There's nothing in that pipe dream

HORSE RACES TOMORROW

The races planned by the Lowell Driving club for the afternoon of July 7 and postponed because of the rain will be held at Golden Cove tomorrow afternoon. The program arranged for July 7 was a corker and inasmuch as several new features have been added it is expected that the entertainment Saturday afternoon will be the best ever. The program includes out-of-town horses and the piece de resistance will be the free-for-all. This race will take in some of the very best horses in this section of the country.

HERZOG TO JOIN CUBS

CHICAGO, July 7.—Charles Herzog, manager and shortstop of the Cincinnati Reds, is to become a member of the Chicago Nationals, according to a story published here today. The cash price to be paid for Herzog is not given, but it is said to be a large amount and one or two players.

MOTOR BOAT CLUB

ANNUAL ILLUMINATION TO BE HELD ON MERRIMACK ON JULY 20TH

The annual illumination and celebration under the auspices of the Lowell Motorboat Club will be held on the evening of Thursday, July 20, that is if the weather is favorable. The decision was reached at a meeting of the club held last night at the headquarters of the organization in Pawtucket street. In previous years the carnival has

been held earlier but owing to the high water it was deemed advisable to make it later this year. The annual illumination is an event which attracts large numbers of spectators to the river above the Pawtucket falls.

This year's event promises to be the best ever held by the club. The bathhouse and grounds will be illuminated by incandescent lights and Japanese lanterns. Four prizes have been offered for the most attractively decorated craft.

The river pageant will probably start shortly after 8 o'clock, and following there will be a supper or luncheon served members and invited guests in the club house. The committee in charge of the arrangements comprises Commodore James H. Walker, Daniel Sannabhan, Rodney Moore and H. C. Gay.

AMATEUR BASEBALL

The U. S. Cartridge shop office boys accept the challenge of the Universal Seconds for a game for tomorrow at 2 o'clock but want the contest to be played on Walsli's field owing to the late hour the office boys finish their work. The manager of the Universal is requested to call Tel. 4773.

The Bellevues will play the C.M.A.C. team on the Textile campus tomorrow afternoon at 3 o'clock.

The Pitts' South Ends and the Hutchesons of Lawrence will meet tomorrow afternoon on the South common in what promises to be a fast game.

N. H. CONTINUES EMBARGO
BOSTON, July 7.—The movement of Massachusetts and other New England troops to the Mexican border in conjunction with the heavy summer and Independence day travel has so congested the traffic of the New York, New Haven & Hartford railroad moving by the Harlem river and Maybrook gateways that the temporary embargo issued June 28 to expire at midnight today is to be continued until midnight July 12.

If you want help at home or in your business, try The Sun "Want" column.

Great Seal of U.S. Watch Fob

Warranted 14-K Gold Plated

Rose Finish, Bronze Medallion

Free to Every Purchaser of 10c Worth of Tuxedo Tobacco

Every well-dressed citizen of the United States will take pleasure in wearing this fashionable Watch Fob. It stands for his national pride and loyalty.

The Medallion is warranted 14-K Gold Plated on Solid Bronze. Rich, lustrous, rose finish. Every detail of the Great Seal of the United States is brought out by heavy embossing. Strap is fine, grained black leather with nobby black-enameled metal buckle.

This handsome Fob is a splendid example of the jeweler's art—an elegant, dignified ornate decoration which will induce still more men of the United States to try Tuxedo Tobacco. That is the object of this remarkable offer—the reason we have gladly gone to considerable trouble and expense to have this National Seal Medallion produced for us from specially made dies. (Only one to a customer.)

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made from the very best selected Burley tobacco grown in Kentucky—carefully ripened, cured and aged until it is perfectly mild and mellow. Then treated by the famous original "Tuxedo Process" that removes the last trace of "bite" and bitterness, and develops all the wonderful mildness, fragrance and flavor of the Burley leaf.

The secrets of the "Tuxedo Process" are known only to the manufacturers of Tuxedo. That is why Tuxedo cannot be successfully imitated—and why imitation brands cannot compare with Tuxedo for all-day-long, steady pipe-enjoyment—as a trial will prove to you.

FREE

Take advantage of this Free Offer today and avoid disappointment. Dealers have only a limited supply of these Watch Fobs and cannot get more. Look for Free Offer sign on a dealer's window—get 10c worth of Tuxedo and ask for the Watch Fob Free

THE AMERICAN TOBACCO COMPANY

Special Notice to Dealers:

We want every dealer in Lowell to be supplied with these "State Seal" Watch Fobs. All dealers who have not yet secured a supply of these Watch Fobs can do so by applying at Tuxedo Headquarters, Richardson Hotel, Phone 100.

EASTERN LEAGUE COMMENT

Lowell at Portland today and tomorrow.

With any kind of pitching Lowell would have easily won yesterday's game.

Manager Kilhullen was present with a double and two singles.

The Worcester team is playing the best ball in the league now.

George Spires and Charlie Reed of the Hartford team are on the injured list but expect to return to the diamond before the end of the week.

Kane was hit in the eye by a ball thrown by Briggs after the latter had fielded a hit. Kane, who also went after the hit, was standing behind Joe when the latter turned and threw the ball.

Bonsack might have been more effective if he had started the game opposing Muller, another schoolboy. Entering the game on two bases and nine out the youngster was nervous and did not settle down until after the next inning.

Paddy Green has been given an indefinite leave of absence at his own request. Paddy's arm has been bad all season and he hasn't been able to round into the form that marked his work last year. He will remain at his home just outside of Springfield until he feels in better condition.

Hartford lost its first game under Jesse Burckett yesterday. Upon his first day in a Hartford uniform, Jesse got into the lineup as a pinch hitter but didn't come through.

Wonder how long Alex Pearson will remain in Hartford under the regime of Burckett? Pearson was let go by Jesse in Lawrence where he has been a great favorite for many years, and it wouldn't look right to retain him now.

President Roach of the Lowell base-

ball club is attempting to have George Spires, the star third baseman and deposed manager of the Hartford team, returned to Lowell. It is now as though George will soon be seen in a Lowell uniform. Spires would make a great improvement in the Lowell infield as he could play either second or third.

Bridgeport had a big elvio parade on the morning of July 4th and as there was a baseball game that time only 200 fans turned out. The chamber of commerce has been approached to make plans for a "Boosters' Day" in an effort to reimburse the team owner.

Soldier Fuller of the Lawrence team trimmed New London yesterday for the second time this season. He turned the trick the first time the teams met, which was May 2 at New London.

Frank Kane, who has been playing in the outfield for Lawrence, has been recalled by Providence. Del Howard has been shifted to the outfield and Hoyt is covering third.

Howie, the outfielder, has been mentioned as a successor to Howard at third base.

The batting of Harry Lord featured a game between Lewiston and Gardiner in the Maine Trolley league this week. Harry secured two singles, a double and a three bagger.

Worcester is supporting its team splendidly now and the owners are getting back some of the lost money. It is said that the team played to a 2500 crowd Friday, 3000 people Saturday and in the morning game with Springfield, 3500 turned out.

A Fitchburg paper says that the fans of that city would be satisfied with the changes of the league this year, which now stands sixth place in a 10-club race. Are Lowell fans harder to satisfy than those of Fitchburg?

GREATEST SEA BATTLE

Continued

ahead and the destroyers were recalled.

Vice-Admiral Beatty altered his course to the northward to lead the Germans toward the British battle line. The second battle line, the German closed to 13,000 yards of the German battle line and came under heavy but ineffective fire. The fifth battle squadron engaged the German battle line with all guns and about five o'clock came under the fire of the leading ships of the German battle line.

Weather Unfavorable

The weather became unfavorable, Vice-Admiral Beatty's ships being silhouetted against a clear horizon to the Germans, whose ships were mostly obscured by mist.

Between five and six o'clock the action continued at 13,000 yards on a northerly course, the German ships receiving very severe punishment, one of the cruiser quiting the line completely damaged. At 6:35 the German ships were gradually hauling eastward and receiving severe punishment at the head of the line, probably acting on information from their light cruisers which were engaged with the third battle cruiser squadron or from Zeppelins which possibly were present.

At 6:45 o'clock the leading ships of the British battle line were sighted bearing north distant five miles. Vice-Admiral Beatty thereupon proceeded east at greatest speed, bringing the range to 12,000 yards. Only three German battle cruisers were then visible, followed by battleships of the Koenig class.

Story of Battle Fleet

Vice-Admiral Jellicoe then takes up the story of the battle fleet. Informed that the German fleet was sighted, the fleet proceeded at full speed on a southeasterly course during two hours before arriving on the scene of battle. The standing qualities of the older ships were severely tested. When the battle fleet was meeting the battle cruisers and the fifth battle squadron, the great advantage of the British ships was not mistaken for the German warships.

Vice-Admiral Beatty reported the position of the German battle fleet at 6:15 o'clock. Vice-Admiral Jellicoe then formed the line of battle. Vice-Admiral Beatty's main body, having formed the battle cruisers ahead of the battle fleet, and the fleets became engaged. During the deployment the Defence and Warrior were seen passing between the British and German fleets under heavy fire. The Defence disappeared and the Warrior passed to the rear, disabled.

Mist Aided Germans

Vice-Admiral Jellicoe considers it probable that Sir Robert K. Arbuthnot, the rear-admiral who was lost on the Defence, was not aware during the engagement with the German light cruisers of the approach of their heavy ships owing to the mist, until he found himself in close proximity to the main German fleet. Before he could withdraw, his ships were caught under heavy fire and disabled. When the Black Prince of the same squadron was sunk was not known, but a wireless signal was received from her between 8 and 9 o'clock.

Owing principally to the mist, it was possible to see only a few ships at a time. Toward the close of the battle only four or five were visible and never more than eight to twelve.

The third battle cruiser squadron, under Rear-Admiral Horace Alexander Hood, was in advance of the battle fleet and ordered to reinforce Vice-Admiral Beatty. While en route the Chester, Captain Lawson's ship, was hit by four German light cruisers for twenty minutes. Despite many casualties her steaming qualities were unimpaired.

Admiral Hood's Great Work

Describing the work of the third squadron, Vice-Admiral Beatty said Rear-Admiral Hood brought it into action ahead of the Lion "in the most inspiring manner worthy of his great naval ancestors." Vice-Admiral Hood at 6:25 p. m. was only 5000 yards from the leading German ship and the British vessels poured a hot fire into her and caused her to turn away. Vice-Admiral Beatty continuing, reports: "By 6:30 o'clock the battle cruisers were clear of our leading battle squadron and I ordered the third battle cruiser squadron to prolong the line astern and reduced the speed to eight knots. The visibility at this time was very indifferent, not more than four miles, and the enemy ships were temporarily lost sight of after 6 p. m. Although the visibility became reduced, it undoubtedly was more favorable to us than to the enemy. At intervals their ships showed up clearly,

enabling us to punish them very severely and to establish a definite superiority over them. It was clear that the enemy suffered considerable damage, battle cruisers and battleships alike. The head of their line was crumpled up, leaving their battleships as a target for the majority of our battle cruisers. Before leaving the fifth battle squadron also was engaging battleships.

The report of Rear-Admiral Evan-Thomas shows excellent results were obtained. It can safely be said that his magnificent squadron wrought great execution."

Germans Turned Away

The action between the battle fleet lasted intermittently from 6:17 to 8:20 o'clock at ranges between 9,000 and 12,000 yards. The Germans constantly turned away and opened the range under the cover of destroyer attacks and smoke screens as the effect of the British fire was felt and alterations of the course from southeast by east to west in an endeavor to close up brought the British battle fleet, which commenced action in an advantageous position on the Germans' bow, to a quartering bearing from the German battle line but placed Vice-Admiral Jellicoe between the Germans and their bases.

Striking of Vessels

Vice-Admiral Jellicoe says: "During the somewhat brief periods that the ships of the high sea fleet were visible through the mist, a heavy and effective fire kept up by the battleships and battle cruisers of the grand fleet caused me much satisfaction. The enemy vessels were seen to be considerably hit, some being observed to haul out of the line. At least one sank. The enemy's return fire at this period was not effective and the damage caused to our ships was insignificant."

Germans Withdraw

Vice-Admiral Beatty's report covering this period says the German ships he was engaging showed signs of punishment. The visibility improved at sunset at 7:17 when he reported to the admirals that the German line emitted volumes of gray smoke covering their capital ships as with a pall, under cover of which they turned away and disappeared. At 7:45 the light cruiser squadrons, sweeping westward, located two battleships and quitted at 8:30 Vice-Admiral Beatty heavily engaged them at 10,000 yards. The leading ship being repeatedly hit by the Lion, turned away in flames with a heavy list. The Princess Royal set fire to a three-funnelled battleship. The New Zealand and Ansonic quitted the line, heading over and after. At 8:40 the battle cruisers felt a heavy shock as if struck by a mine or torpedo. This was assumed to be a vessel blowing up.

Vice-Admiral Beatty reported that he did not consider it desirable to proper to encroachers at the head of the line. The first battle squadron, at 11:00 yards administered severe punishment to battleships, battle cruisers and light cruisers. The fire of the Marlborough was particularly effective and rapid. She commenced by firing seven salvos at a ship of the Kaiser class and then engaged a cruiser and next a battleship. The Marlborough was hit by a torpedo at 6:54 p. m. and took a considerable list to starboard but reopened fire at 7:03 at a cruiser. At 7:12 she fired fourteen rapid salvos at a cruiser of the Koenig class, hitting her frequently until she left the line.

Range of 5000 Yards

During the action the range decreased to 5000 yards. The first battle squadron received more than 100 hits, excepting the fifth squadron. The Colossus was hit but not seriously.

The fourth squadron, led by the flagship Iron Duke, engaged a squad-

ron consisting of the Koenig and Kaiser classes with battle cruisers and light cruisers. The British fire was effective, although a mist rendered the range-taking difficult. The Iron Duke fired on a battleship of the Koenig class at 12,000 yards. The hitting commenced at the second salvo and only ceased when the target turned away. Other ships of the squadron fired rapidly at German ships as they appeared on the mist and several of the German vessels were hit.

The second squadron under Admiral Jerram engaged vessels of the Kaiser or Koenig classes and also a battle cruiser which apparently was severely damaged. A squadron under the command of Rear-Admiral Heath with the cruiser Duke of Edinburgh, acted as a connecting link between the battle fleet and the battle cruiser fleet but did not get into action.

The German vessels were entirely out of the fight at 9 o'clock, says the report. The threat of destroyers and torpedoes during the rapidly approaching darkness made it necessary to dispose the fleet with a view to its safety, while providing for a renewal of action at daylight. Vice-Admiral Jellicoe maneuvered the fleet so as to remain between the Germans and their bases, placing batteries of destroyers where they could protect the fleet and attack the heavy German ships.

Not Attacked During Night

The British heavy ships were not attacked during the night but three British destroyer flotillas delivered a series of gallant and successful attacks, causing heavy losses. The fourth flotilla, under Captain Winour, suffered severe losses, including the Tipperary. The second, third and fourth ships in the line were hit and the third blew up. The destroyers were under a heavy fire of German light cruisers. Only the Onslaught received material injuries. The Castor sank a German destroyer at point-blank range.

The thirteenth flotilla, under Captain Parle, was stationed astern of the battle fleet, being ordered to search for the enemy vessels and for the purpose of collecting our own cruisers and torpedo boat destroyers. The visibility early on the first of June was three to four miles less than on May 31 and the torpedo boat destroyers, being out of visual touch, did not rejoin the fleet until 5 a. m. The British fleet remained in the proximity of the battle line and near the line of approach to German ports until 11 a. m. In spite of the disadvantage of long distances from fleet bases, the British fleet was able to water adjacent to the enemy's coasts from submarines and torpedo craft.

Fleet Engaged Zeppelin

"The enemy, however, made no sign and I was reluctantly compelled to the conclusion that the highest sea level proved this assumption to have been correct. Our position must have been known to the enemy as, at 4 a. m., the fleet engaged a Zeppelin about five minutes, during which time she had ample opportunity to note and subsequently report the position and course of the British fleet.

"The waters from the latitude of Horn Reef to the scene of action were thoroughly searched and some survivors from the destroyers Ardent, Forth and Tipperary were picked up. The Sparrow Hawk, which had been in collision, was no longer seaworthy and was sunk after the crew was taken off. A large amount of wreckage was seen, but no enemy ships, and at 1:15, the being evidence that the German fleet had succeeded in returning to port, our course was shaped for our bases, which were reached without further incident on Friday, the second of June.

"The cruiser squadron was detached to search for the Warrior which had been abandoned while in tow of the Engadine on the way to the base, owing to bad weather setting in and the vessel becoming unseaworthy. No trace of her was discovered and further subsequent search by the light cruiser squadron having failed to locate her, it was evident she had foundered.

"The fleet was fueled, replenished its ammunition, and at 9:30 p. m. on the second of June, was reported ready for further action."

REAL ESTATE FOR SALE

COTTAGE for sale, 7 rooms, gas, hot water, \$1300. \$300 cash. Two tenement houses, 8 rooms each, garden for each tenement, \$3000. Easy terms. Vance, 38 Third street. Phone 3553-W.

THE MORGAN FIRM LEAKS

DIST-ATTY. SWANN SAYS MEN ADMITTED CAUSING THEM IN THE

HOPE OF GETTING WAR WORK

NEW YORK, July 7.—Charles E. Moore, who described himself as president of the "Import and Export corporation," and S. K. Paul, formerly a clerk in the offices of J. P. Morgan & Co., admitted late yesterday, according to Dist. Atty. Swann, that they were responsible for the "leaking" of war munitions secrets of the Morgan firm.

John Clifton of Washington, an attorney, introduced Moore to Paul and to Thomas H. Huff, also a clerk in the Morgan offices. Mr. Swann declared he had been informed by Moore. The four men are said to have organized the Import and Export corporation after perfecting plans by which they believe they might get contracts from the contents allies. The district attorney said Paul admitted having turned over to Moore copies of more than 100 cablegrams and other documents relating to contracts for Great Britain and France.

The organizers of the Import and Export corporation, Mr. Swann said he was told, established relations with three men having desk room in the offices of the law firm of Seymour & Seymour in the furtherance of their plans. As the result of the disclosures made to him yesterday, Mr. Swann stated, he will drop the charges of wire tapping pending against Detective William J. Burns and Martin Egan, who is connected with the Morgans.
